Shadow over the Atlantic Robert Forsyth,2017-07-27 German U boats were the scourge of Allied merchant and military shipping in the Atlantic during World War II threatening to isolate and then starve the UK out of the War As Germany s war against the Allied convoys intensified in late 1943 German Admiral Karl D nitz called upon the Luftwaffe to provide a long range spotting and shadowing unit to act as eyes for his U boats Equipped with big four engined Junkers Ju 290s fitted out with advanced search radar and other maritime ELINT electronic intelligence devices Fernaufkl rungsgruppe FAGr 5 Atlantik undertook a distant isolated campaign far out into the Atlantic and thousands of miles away from its home base in western France The information generated and reported back to D nitz s headquarters was vital to the efforts of the U boats and FAGr 5 s shadowing missions were assigned priority in terms of skilled crews supplies and equipment This book tells for the first time the fascinating story of the formation and operations of FAGr 5 Atlantik drawing on never before published historical records of the unit that accounted for the reporting and destruction of thousands of tons of Allied shipping **The**

Johnsen,2014-10-20 The growth in size lethality and technology of the German Luftwaffe was of concern to some defense planners in the United States before American entry into the war Learning about the Luftwaffe became a significant effort once the conflict broke out in Europe From defectors with German aircraft to battlefield trophies and combat crew reports the race to understand German aero technology took on sometimes heroic proportions After the war German technology infused American aerospace developments in many ways German ribbon parachutes were evaluated for high speed bailouts

Professional Journal of the United States Army ,1982 **Rcaf War Prize Flights, German and Japanese Warbird Survivors** Harold A. Skaarup,2006-05-23 This handbook concerns the collection of Air Technical Intelligence and the test flying of war prizes carried out by two RCAF bomber pilots who were posted to the Royal Aircraft Establishment s Foreign Aircraft Flight Farnborough in the United Kingdom in May 1945 Their primary task was to visit former Luftwaffe airfields and to find and fly back any aircraft they deemed worthy of evaluation The list of aircraft found here does not include every German combat aircraft of the Second World War as it focuses on those warbirds captured and flown by members of the RCAF or sent to Canada as war prizes Very few of these rare aircraft exist today and therefore information on known locations where German Japanese and Italian warbird survivors may be found is included As a member of the Canadian Aviation Preservation Association and the Canadian Aviation Artists Association the author strongly supports the preservation of Canada s aviation heritage The primary intent of this handbook is to provide information for aviation artists and enthusiasts looking for that unusual never before painted military aviation subject and to support the efforts of those engaged in the search for those missing warbirds for which no examples currently exist *Air Pictorial* ,2002 Military Review ,1982 **The Publishers Weekly** ,1981 *Quarterly Review of Military Literature* ,1982 Library Journal ,1981
