Lumpenbourgeoisie, Lumpenddevelopment (Lumpenburguesia, lumpendesarrollo, engl.) Dependence, class, and politics in Latin America André Gunder Frank, Marion Davis Berdecio, 1972 *Marxist Thought on Imperialism* Charles A.

Barone, 2016-07-08 First Published in 2015 Classic and contemporary Marxist theoretical works on imperialism are systematically summarized and critiqued in this useful survey Throughout the discussion attention is focused analyses of the causes of capitalist foreign economic expansion and the impact of that expansion The study begins with a discussion of Marx s political economy and the work of early theorists of imperialism Vladimir Lenin Rosa Luxemburg Nikolai Bukharin and Rudolf Hilferding This analysis then serves as the basis for a critical survey of the major strands of postwar Marxist thought including the work of Paul Baran and Paul Sweezy Harry Magdoff James O Connor Andre Gunder Frank and more Following the survey are extended critiques of Baran and Sweezy s theory of monopoly capitalism and Arghiri Emmanuel s theory of unequal exchange

Dependency And Intervention José M. Aybar de Soto, 2019-04-10 This book describes the interlocking relationship of government and multinational corporations MNCs that led to U S intervention in Guatemala in

1954 It explains the intervention in terms of the continuous penetration of the extended domain of the metropole

Rethinking Development Peter Preston,2012-07-26 First published in 1987 this volume stresses the importance of development studies for sociology as P W Preston argues that this field of study is emerging from the technical social scientific ghetto back into the mainstream of the classical tradition of social theorizing represented by Marx Weber and Durkheim Preston discusses the position of development studies in relation to the wider group of the social sciences in general and to sociology in particular Using examples mainly from the study of Southeast Asia he looks at the diversity of available modes of social theoretic engagement and considers the work of the colonial administrator scholar the humanist academic scholar and the scholar who theorises on behalf of the planners discusses the mode of political writing and Marxian analyses of development and considers the particular problems surrounding the elites of post colonial nation states

Theories of Development Jorge Larrain,2013-05-03 This is a new introductory text providing an up to date account of leading theories of development The book includes a discussion of classical accounts of development particularly that of Marx but also considers current debates on the issue Theories of imperialism neo imperialism dependency world systems theory and other conceptions are all given full and balanced consideration A feature of the work is the connections drawn between theoretical interpretation and empirical application in this respect the author concentrates particularly upon drawing materials from the Latin American experiences Readable accurate and incisive the book also provides an original standpoint upon problems of development It will be of interest to students and professionals in sociology political sciences and anthropology

Asian Entrepreneurial Minorities Christine Dobbin,2013-11-15 First Published in 1996 Routledge is an imprint of Taylor Francis an informa company

The Political Economy of the Brazilian State, 1889-1930 Steven Topik,1987-07-01 In this first overview of the Brazilian republican state based on extensive primary source material Steven Topik demonstrates that well before the disruption of the export economy in 1929 the Brazilian state was one of the most interventionist in Latin America This study counters the previous general belief that before 1930 Brazil was dominated by an export oligarchy comprised of European and North American capitalists and that only later did the state become prominent in the country s economic development Topik examines the state s performance during the First Republic 1889 1930 in four sectors finance the coffee trade railroads and industry By looking at the controversies in these areas he explains how domestic interclass and international struggles shaped policy and notes the degree to which the state acted relatively independently of civil society Topik s primary concern is the actions of state officials and whether their decisions reflected the demands of the ruling class He shows that conflicting interests of fractions of the ruling class and foreign investors gradually led to far greater state participation than any of the participants originally desired and that the structure of the economy and of society not the intentions of the actors best explains the state s economic presence

The State of Capitalism Costas Lapavistas,EReNSEP Writing Collective,2023-08-29 Thinking beyond pandemic capitalism The health

emergency that broke out in 2020 is a landmark event in the development of capitalism confirming the underlying change signalled by the Great Crisis of 2007 9 The pandemic has catapulted the state to the centre of economic activity However a historic impasse is steadily becoming apparent at the core of the world economy Productive accumulation is flaccid as both profitability and labour productivity are weak Financialisation has entered a new phase as shadow banking grew relative to other banks but is entirely dependent on the state The power of the state derives from command over fiat money and can certainly deliver enormous boosts to aggregate demand but that is not enough to tackle the weakness of the productive sector The rise in inflation for the first time in forty years indicates the impasse There is a transparent need for intervention on the supply side directly challenging capitalist property rights There is no evidence however that the ruling blocs in core countries would engage in such policies The pandemic crisis also brought to the fore fresh divisions of core and periphery across the world economy Imperialism has assumed new forms spurred by globally active financial capital and internationalised productive capital A renewed contest for hegemony has emerged as US power declined The economic challenge of China will unfold steadily in the years ahead intensifying political tensions and military rivalries This book is the work of a research collective comprising authors from several parts of the world It analyses these vital issues from the perspective of Marxist political economy and puts forth alternative anticapitalist proposals Ireland and Empire Stephen Howe, 2000 Many analyses of Ireland's past and present are couched in colonial terms For some it is the only framework for understanding Ireland Others reject the label This study evaluates and analyzes the situation **Mexico** Ramon Ruiz, 2010-08-24 Explicitly focusing on the malaise of underdevelopment that has shaped the country since the Spanish conquest Ramon Eduardo Ruiz offers a panoramic interpretation of Mexican history and culture from the pre-Hispanic and colonial eras through the twentieth century Drawing on economics psychology literature film and history he reveals how development processes have fostered glaring inequalities uncovers the fundamental role of race and class in perpetuating poverty and sheds new light on the contemporary Mexican reality Throughout Ruiz traces a legacy of dependency on outsiders and considers the weighty role the United States has played starting with an unjust war that cost Mexico half its territory Based on Ruiz's decades of research and travel in Mexico this penetrating work helps us better understand where the country has come why it is where it is today and where it might go in the future Beyond the Sociology of Development Ivar Oxaal, Tony Barnett, David Booth, 2012-08-21 Conceived as a response to the economic naivety and implicit metropolitan bias of many 1950s and 60s studies of the sociology of development this volume first published in 1975 provides actual field studies and theoretical reviews to indicate the directions which a conceptually more adequate study of developing societies should take Much of the book reflects strongly the influence of Andre Gunder Frank but the contributors adopt a critical attitude to his ideas applying them in empirical situations within such African and American countries as Kenya Guyana Tanzania and Peru Others pursue the lines of enquiry opened up by Latin American theories of economic dependency and by

the new school of French economic anthropology The Scholars' Publication Sourcebook Seth Agbo, 2024-12-31 This book is a comprehensive guide for instructors and graduate students on preparing scholarly manuscripts for peer reviewed journals theses or dissertations in the humanities and social sciences Providing a toolbox of approaches to understand the structures around manuscript preparation it offers an in depth understanding of the different types of manuscripts and the nuanced approaches required It illuminates each stage of the process from the initial identification of a topic to the publication of the final article It draws on the expertise of various contributors including journal editors editorial board members peer reviewers and research methods instructors The book is a practical guide for all instructors and students seeking insight into the publishing process in high impact journals It draws from case studies across various fields such as sociology psychology political science business studies policy research and public health The book will be of particular relevance to early career scholars graduate students and instructors working with students preparing theses dissertations or journal articles It serves as a valuable resource for understanding and navigating the complex world of academic publishing

The Theory and Experience of Economic Development Mark Gersovitz, Carlos F. Diaz-Alejandro, Gustav Ranis, Mark R. Rosenzweig, 2010-11-26 This volume first published in 1982 is a collection of original essays written to honour Professor W Arthur Lewis 1979 co winner of the Nobel Prize in economics The authors an international group of distinguished scholars address a varied set of specific issues reflecting Professor Lewis e tm research interests covering topics which include technological change in agriculture analyses of unemployment and income distribution the role of government policy in the development process the historical record of development and the relationship between developed and developing nations The book will be of interest to both the academic researcher and practicing professionals in the international organisations and national governments and are particularly appropriate to graduate courses in economic development cost benefit analysis and economic history

Empires Michael Doyle, 2018-09-05 Although empires have shaped the political development of virtually all the states of the modern world imperialism has not figured largely in the mainstream of scholarly literature This book seeks to account for the imperial phenomenon and to establish its importance as a subject in the study of the theory of world politics Michael Doyle believes that empires can best be defined as relationships of effective political control imposed by some political societies those called metropolises on other political societies called peripheries To build an explanation of the birth life and death of empires he starts with an overview and critique of the leading theories of imperialism Supplementing theoretical analysis with historical description he considers episodes from the life cycles of empires from the classical and modern world concentrating on the nineteenth century scramble for Africa He describes in detail the slow entanglement of the peripheral societies on the Nile and the Niger with metropolitan power the survival of independent Ethiopia Bismarck s manipulation of imperial diplomacy for European ends the race for imperial possession in the 1880s and the rapid setting of the imperial sun Combining a sensitivity to historical detail with a judicious search for

general patterns Empires will engage the attention of social scientists in many disciplines Doctrines Of Development M. P. Cowen, 2003-09-02 Doctrines of Development sets out a critique of the idea of practice of development by exploring the history of development theory and action from the early nineteenth century to the late twentieth century from Britain to Quebec and Kenya
