Y. Shaw,2017-02-22 Carl Schmitt and Leo Strauss in the Chinese Speaking World Reorienting the Political examines the reception of Carl Schmitt and Leo Strauss in China and Taiwan The legacies of both Schmitt the German legal theorist and thinker who joined the Nazi party and Strauss the German Jewish classicist and political philosopher who became famous after his emigration to the United States are highly controversial Since the 1990s however these thinkers have had a powerful resonance for Chinese scholars Today when Chinese intellectuals debate the Chinese state the future role of China in the world the liberal international order and even the meaning of Confucian civilization they often employ Schmittian and Straussian concepts like the political friend enemy state of exception liberal education and natural right The very possibility of a genuine Chinese political theory is often thought to be tied to the legacy of these two thinkers This volume explores this complex phenomenon with a cross cultural and interdisciplinary approach The twelve essays in this volume are written from a range of perspectives by philosophers political theorists historians and legal scholars from China Germany Taiwan and the United States      *Ben Cao Gang Mu, Volume I, Part A* Shizhen Li,2024-01-09 Volume I is divided into two parts Part A of volume 1 in the Ben cao gang mu series offers a translation of

Buell, 2018-02-06 The Ben cao gang mu compiled in the second half of the sixteenth century by a team led by the physician Li Shizhen 1518-1593 on the basis of previously published books and contemporary knowledge is the largest encyclopedia of natural history in a long tradition of Chinese materia medica works. **The Poetry of He Zhu (1052-1125)** Stuart Sargent, 2007-03-31 The Northern Song poet He Zhu is best known for his lyrics ci but also produced shi poetry of subtlety, wit, and feeling. This study examines the latter as a response to the options available to a late eleventh-century writer in the pentametrical and heptametrical forms of Ancient Verse, Regulated Verse, and Quatrains. Numerous comparisons are made with Su Shi, Huang Tingjian, Du Fu, and other important writers. In a major advance over previous methodologies, the author uses a clear system of metrical notation to show how sound patterns reveal the poet's artistic and emotional intentions. This innovation and the author's other meticulous explorations of He Zhu's artistry allow us to experience Chinese poetry as never before. From the reader's report, not just an excellent study of an individual poet but also a model of reading the language of classical Chinese poetry, opens up a world of interpretive territory heretofore seldom explored.
