L'univers Concentrationnaire:

L'univers Concentrationnaire. [On Nazi Concentration Camps.]. David Rousset, 1946 *L'univers concentrationnaire* David Rousset, 1948 **David Rousset. L'Univers concentrationnaire** David Rousset, 1946 **Holocaust Literature: Lerner to Zychlinsky, index** S. Lillian Kremer, 2003 Review This encyclopedia offers an authoritative and comprehensive survey of the important writers and works that form the literature about the Holocaust and its consequences The collection is alphabetically arranged and consists of high quality biocritical essays on 309 writers who are first second and third generation survivors or important thinkers and spokespersons on the Holocaust An essential literary reference work this publication is an important addition to the genre and a solid value for public and academic libraries The Top 20 Reference Titles of the Year American Libraries May 2004 By Words Alone Sidra DeKoven Ezrahi, 2008-10-03 The creative literature that evolved from the Holocaust constitutes an unprecedented encounter between art and life Those who wrote about the Holocaust were forced to extend the limits of their imaginations to encompass unspeakably violent extremes of human behavior The result as Ezrahi shows in *By Words Alone* is a body of literature that transcends national and cultural boundaries and shares a spectrum of attitudes toward the concentration camps and the world beyond toward the past and the future Palimpsestic Memory Max Silverman, 2013-02-01 The interconnections between histories and memories of the Holocaust colonialism and extreme violence in post war French and Francophone fiction and film provide the central focus of this book It proposes a new model of palimpsestic memory which the author defines as the condensation of different spatio temporal traces to describe these interconnections and defines the poetics and the politics of this composite form In doing so it is argued that a poetics dependent on tropes and techniques such as metaphor allegory and montage establishes connections across space and time which oblige us to perceive cultural memory not in terms of its singular attachment to a particular event or bound to specific ethno cultural or national communities but as a dynamic process of transfer between different moments of racialized violence and between different cultural communities The structure of the book allows for both the theoretical elaboration of this paradigm for cultural memory and individual case studies of novels and films

Political Survivors Emma Kuby, 2019-03-15 In 1949 as Cold War tensions in Europe mounted French intellectual and former Buchenwald inmate David Rousset called upon fellow concentration camp survivors to denounce the Soviet Gulag as a hallucinatory repetition of Nazi Germany's most terrible crime In *Political Survivors* Emma Kuby tells the riveting story of what followed his appeal as prominent members of the wartime Resistance from throughout Western Europe united to campaign against the continued existence of inhumane internment systems around the world The International Commission against the Concentration Camp Regime brought together those originally deported for acts of anti Nazi political activity who believed that their unlikely survival incurred a duty to bear witness for other victims Over the course of the next decade these pioneering activists crusaded to expose political imprisonment forced labor and other crimes against humanity in

Franco's Spain Maoist China French Algeria and beyond Until now the CIA's secret funding of Rousset's movement has remained in the shadows Kuby reveals this clandestine arrangement between European camp survivors and American intelligence agents She also brings to light how Jewish Holocaust victims were systematically excluded from Commission membership a choice that fueled the group's rise but also helped lead to its premature downfall The history that she unearths provides a striking new vision of how wartime memory shaped European intellectual life and ideological struggle after 1945 showing that the key lessons Western Europeans drew from the war centered on the camp imagined first and foremost as a site of political repression rather than ethnic genocide Political Survivors argues that Cold War dogma and acrimony tied to a distorted understanding of WWII's chief atrocities overshadowed the humanitarian possibilities of the nascent anti-concentration camp movement as Europe confronted the violent decolonizing struggles of the 1950s

After the Deluge Julian Bourg, 2004-01-01 Motivated by a desire to narrate and contextualize the deluge of French theory After the Deluge showcases recent work by today's brightest scholars of French intellectual history that historicizes key debates figures and turning points in the postwar era of French thought

A Holocaust Controversy Samuel Moyn, 2005-08-22 A provocative study of a French Holocaust controversy of the 1960s and the dynamics of postwar memory Concentrationary Memories Griselda Pollock, Max Silverman, 2015-08-25 In 1945 French political prisoners returning from the concentration camps of Germany coined the phrase the concentrationary universe to describe the camps as a terrible political experiment in the destruction of the human This book shows how the unacknowledged legacy of a totalitarian mentality has seeped into the deepest recesses of everyday popular culture It asks if the concentrationary now infests our cultural imaginary normalizing what was once considered horrific and exceptional by transforming into entertainment violations of human life

War beyond Words Jay Winter, 2017-07-06 This book presents a panoramic history of transformations in our global imaginings of war from 1914 to the present It charts a century's meditations on war from painting and sculpture to photography film and poetry and ultimately to silence as a language of memory in its own right

Journeys from the Abyss Antony Robin Jeremy Kushner, 2017 This is the first study to place Jewish refugee movements from Nazism into a wider framework of global forced migration from the late nineteenth through to the twenty-first century

Western Europe's Democratic Age Martin Conway, 2022-06-14 A major new history of how democracy became the dominant political force in Europe in the second half of the twentieth century What happened in the years following World War II to create a democratic revolution in the western half of Europe In Western Europe's Democratic Age Martin Conway provides an innovative new account of how a stable durable and remarkably uniform model of parliamentary democracy emerged in Western Europe and how this democratic ascendancy held fast until the latter decades of the twentieth century Drawing on a wide range of sources Conway describes how Western Europe's postwar democratic order was built by elite intellectual and popular forces Much more than the consequence of the defeat of fascism and the rejection of Communism this democratic order rested on

universal male and female suffrage but also on new forms of state authority and new political forces primarily Christian and social democratic that espoused democratic values Above all it gained the support of the people for whom democracy provided a new model of citizenship that reflected the aspirations of a more prosperous society This democratic order did not however endure Its hierarchies of class gender and race which initially gave it its strength as well as the strains of decolonization and social change led to an explosion of demands for greater democratic freedoms in the 1960s and to the much more contested democratic politics of Europe in the late twentieth century Western Europe s Democratic Age is a compelling history that sheds new light not only on the past of European democracy but also on the unresolved question of its future

Nazism Neil Gregor,2000-10-26 The Nazi regime was a regime of unparalleled destructiveness Nazism presents both key texts from some of the most innovative and challenging of more recent studies and extracts from the older historiography of the origins nature impact and legacy of the National Socialist regime It suggests both the need to re read and re consider much forgotten or ignored texts from earlier generations of commentators and the possibility of considering afresh the structure style of rule and consequences of National Socialism in the context provided by the end of the cold war The texts connect the experiences of the Jewish and non Jewish victims of Nazi aggression and genocide links the fates of the victims with analysis of the perpetrators and stresses the consequences of this unprecedented collapse in civilised values for post war Germany and the world

Writing Against Expulsion in the Post-War World David Herd,2023 Herd tells a pre history of the Hostile Environment returning to a period following the Second World War when the brutal consequences of a politics of expulsion were visible The book is a deep defence of human rights at a moment when such rights are under attack It shows how we can resist and think beyond the politics of border and nation

The Moral Witness Carolyn J. Dean,2019-04-15 The Moral Witness is the first cultural history of the witness to genocide in the West Carolyn J Dean shows how the witness became a protagonist of twentieth century moral culture by tracing the emergence of this figure in courtroom battles from the 1920s to the 1960s covering the Armenian genocide the Ukrainian pogroms the Soviet Gulag and the trial of Adolf Eichmann In these trials witness testimonies differentiated the crime of genocide from war crimes and began to form our understanding of modern political and cultural murder By the turn of the twentieth century the witness to genocide became a pervasive icon of suffering humanity and a symbol of western moral conscience Dean sheds new light on the recent global focus on survivors trauma Only by placing the moral witness in a longer historical trajectory she demonstrates can we understand how the stories we tell about survivor testimony have shaped both our past and contemporary moral culture

Journeys from the Abyss Tony Kushner,2017-09-28 This is the first study to place Jewish refugee movements from Nazism into a wider framework of global forced migration from the late nineteenth through to the twenty first century

Robert Antelme Martin Crowley,2017-12-02 Best known for his 1947 memoir L Espece humaine Robert Antelme 1917 1990 is a central figure in the history of the European response to the Nazi concentration camps In this

first study in any language to be devoted to Antelme's work Martin Crowley reveals the author's vital yet insufficiently recognized influence on recent thought in France and elsewhere about such questions as the nature of community and the indivisibility of humanity He explores the conclusions Antelme drew from his deportation and his involvement with the post-war French left and provides the first detailed textual criticism of *L'Espèce humaine* Examining the responses to the author's writing by such figures as Blanchot Perec Agamben Nancy and Derrida Crowley demonstrates Antelme's key contribution to the development of modern European thought Concentrationary Art Griselda Pollock, Max Silverman, 2019-04-22 Largely forgotten over the years the seminal work of French poet novelist and camp survivor Jean Cayrol has experienced a revival in the French speaking world since his death in 2005 His concept of a concentrationary art the need for an urgent and constant aesthetic resistance to the continuing effects of the concentrationary universe proved to be a major influence for Hannah Arendt and other writers and theorists across a number of disciplines *Concentrationary Art* presents the first translation into English of Jean Cayrol's key essays on the subject as well as the first book length study of how we might situate and elaborate his concept of a Lazarean aesthetic in cultural theory literature cinema music and contemporary art **The Trajectory of Holocaust Memory** Stephen D. Smith, 2022-12-30 *The Trajectory of Holocaust Memory The Crisis of Testimony in Theory and Practice* reconsiders survivor testimony moving from a subject object reading of the past to a subject subject encounter in the present It explores how testimony evolves in relationship to the life of eyewitnesses across time This book breaks new ground based on three principles The first draws on Martin Buber's I-Thou concept transforming the object of history into an encounter between subjects The second employs the Jungian concept of identity whereby the individual internal identity and the persona external identity reframe testimony as an extension of the individual They are a living subject rather than merely a persona or narrative The third principle draws on Daniel Kahneman's concept of the experiencing self which relives events as they occurred and the remembering self which reflects on their meaning in sum Taken together these principles comprise a new literacy of testimony that enables the surviving victim and the listener to enter a relationship of trust Designed for readers of Holocaust history and literature this book defines the modalities of memory witness and testimony It shows how encountering the individual who lived through the past changes how testimony is understood and therefore what it can come to mean
