

## Phénomènes lumineux électriques II

- I. Cinq tubes à degré de vide de plus en plus avancé, avec une évacuation différente. Ce qui reste d'air dans les tubes où l'on a fait le vide brille (au passage du courant électrique) selon sa densité sous une lumière différente. Dans le dernier de ces tubes, où l'on a fait le plus grand vide, la paroi du verre brille d'une lumière verdâtre.
- II. « Ombre électrique » d'une croix fixée à l'intérieur d'un tube de Crookes. C'est une preuve que la cathode émet des rayons.

*Neo-Impressionism and Anarchism in Fin-de-Si?e France* Robyn Roslak,2017-07-05 In *Neo Impressionism and Anarchism in Fin de Si e France* Robyn Roslak examines for the first time the close relationship between neo impressionist landscapes and cityscapes and the anarchist sympathies of the movement s artists She focuses in particular on paintings produced between 1886 and 1905 by Paul Signac and Maximilien Luce the neo impressionists whose fidelity to anarchism to the art of landscape and to a belief in the social potential of art was strongest Although the neo impressionists are best known for their rational and scientific technique they also heeded the era s call for art surpassing the mundane realities of everyday life By tempering their modern subjects with a decorative style they hoped to lead their viewers toward moral and social improvement Roslak s ground breaking analysis shows how the anarchist theories of Elis Reclus Pierre Kropotkin and Jean Grave both inspired and coincided with these ideals Anarchism attracted the neo impressionists because its standards for social justice were grounded like neo impressionism itself in scientific exactitude and aesthetic idealism Anarchists claimed humanity would reach its highest level of social and moral development only in the presence of a decorative variety of nature and called upon progressive thinkers to help create and maintain such environments The neo impressionists who primarily painted decorative landscapes therefore discovered in anarchism a political theory consistent with their belief that decorative harmony should be the basis for socially responsible art **Catalogue of Sales** Sotheby Parke Bernet Monaco

Hyman,2023-04-28 *The Jews of Modern France* explores the endlessly complex encounter of France and its Jews from just before the Revolution to the eve of the twenty first century In the late eighteenth century some forty thousand Jews lived in scattered communities on the peripheries of the French state not considered French by others or by themselves Two hundred years later in 1989 France celebrated the anniversary of the Revolution with the largest most vital Jewish population in western and central Europe Paula Hyman looks closely at the period that began when France s Jews were offered citizenship during the Revolution She shows how they and succeeding generations embraced the opportunities of integration and acculturation redefined their identities adapted their Judaism to the pragmatic and

ideological demands of the time and participated fully in French culture and politics Within this same period Jews in France fell victim to a secular political antisemitism that mocked the gains of emancipation culminating first in the Dreyfus Affair and later in the murder of one fourth of them in the Holocaust Yet up to the present day through successive waves of immigration Jews have asserted the compatibility of their French identity with various versions of Jewish particularity including Zionism This remarkable view in microcosm of the modern Jewish experience will interest general readers and scholars alike The Jews of Modern France explores the endlessly complex encounter of France and its Jews from just before the Revolution to the eve of the twenty first century In the late eighteenth century some forty thousand Jews lived in scattered communities

**Diffusion des sports et impérialisme anglo-saxon** Sébastien Darbon, 2013-01-30 Si le système sportif qui est né en Angleterre au XIXe siècle a constitué une rupture radicale avec les pratiques athlétiques antérieures sa diffusion aux quatre coins de la planète par l'interm

diaire de l'impérialisme anglo-saxon a fortement contribué à façonner le monde dans lequel nous vivons. Quelle est cette chose dont l'impérialisme anglo-saxon faisait tant de cas ? De quelles valeurs de civilisation, de quels codes moraux était-elle porteuse ? Quel accueil a-t-elle reçu dans les pays qui subissaient la présence coloniale ? C'est cet examen essentiel que nous invite le présent ouvrage pour apprécier les raisons des éventuels rejets des réappropriations plus ou moins radicales et plus généralement des engouements extraordinaires auxquels a donné lieu l'apparition du phénomène sportif dans des milieux culturels très différents de celui d'origine. Dans cette perspective, les apports respectifs de l'histoire vécue et de l'anthropologie sont confrontés et discutés.

**Reimagining the Human in Contemporary French Science Fiction** Christina Lord, 2023-04-15

The study of French science fiction even in France remains an underexploited field. Only recently have French literary scholars been able to gain recognition for the validity of studying SF, but their works are often literary histories. This is the first book-length study to take into account both French and Anglo-American intellectual trends, theories, and SF scholarship and apply them to a corpus of French works. It shows how contemporary French SF imagines two broad philosophical inquiries into the powerful yet terrifying geological age of the Anthropocene: posthumanism and transhumanism. While the posthumanist perspective calls attention to the interdependence and co-evolution of humans and nonhumans within a complex ecosystem of life, the transhumanist view of coping with the Anthropocene offers more pragmatic, tool-based solutions rather than a reworking of the human imagination. Given the history of philosophical thought's entanglement with literature in France, French SF can tell us a lot about this existential crisis of Anthropos as both destroyer and savior of worlds and bodies alike. With a focus on encounters between humans, nonhumans, and posthumans in selected works, this book investigates both the immaterial, the psychological state of the mind, and material, the body stakes of posthumanist or transhumanist thinking in French SF.
