Richmond, 2018-09-10 The publication of this work was we might say forced upon us by the demand before even a page of manuscript was prepared for the press The demand was caused by members of the Temple who recognized the necessity of a printed text book from which they could study the meanings of the cards and their indications under the seven planets These brothers and sisters naturally wished to perfect themselves in emblem reading as rapidly as possible and they could not so perfect themselves without a full and complete set of tables that they could study and refer to at will The next trouble that arose was the question of expense as aside from the printing engraving binding electrotyping and matters of that kind the author s time was and is now so valuable that the item far overbalances those mentioned It was finally decided that the most feasible plan was to get out enough copies to supply more than our immediate membership and to sell them to outsiders under certain restrictions **Big Book of Magic Tricks** Karl Fulves, 2012-07-13 The best book yet on easy to do magic Martin Gardner Amaze friends astonish your family and fascinate any audience by infallibly dealing a royal flush correctly predicting the outcome of the World Series unmasking a psychic fraud and performing a host of other dazzling deceptions You can do it with the help of this book one of the best guides to magic tricks that don t require long hours of practice or elaborate preparation You ll find invaluable techniques clearly demonstrated with abundant illustrations for accomplishing magical feats with cards coins rope comedy magic mental displays of dexterity and much more

as well as expert advice for practicing psychological misdirection and dramatic presentation Although the tricks in this book require little in the way of props sleight of hand or a high degree of skill the effects they produce are astounding Novices especially will find Big Book of Magic Tricks a wonderful introduction to the art of conjuring but the book is crammed with so much choice new information that even professional magicians can learn something This book is quality the tricks are effective the methods ingenious and the advice Fulves gives on presenting the tricks properly is excellent Robert Dike Blair
