Magical Medicine A Nigerian Case Study:

Magical Medicine Una Maclean, 1977 *Magical Medicine* Una Maclean, 1971 **Healing Insanity: a Study of Igbo Medicine in Contemporary Nigeria** Patrick E. Iroegbu, 2010-06-08

Healing Insanity A Study of Igbo Medicine in Contemporary Nigeria is an original and in depth study on endogenous medical system in an African society. It is craftily written and provides solid insight through case studies and theory into how insanity affects patients and the society. Particularly it explores various collective representations and strategies regarding insanity and healing as it examines the healing institutions, healers and ritual cults. The central question is given the patterns of healing how do the Igbo shape the incidence and symptoms of insanity, define its aetiology and provide healers with culture specific resources and skills to address this illness. The focus became increasingly centred on bodily semantics and endogenous knowledge systems and practices. Dr Patrick Iroegbu's work is a very valuable and rare study and has appeared at a desirable time. It is for an African society a comprehensive study of the many ways Igbo people in their practical, routinized attitudes and body-centred experiences as well as in their more reflective aetiological knowledge and healing institutions relate to the phenomenon of insanity or *ara* in the cultural parlance. As the first of its kind, reminiscent of and assured by the various remarks of Igbo scholars and leaders at various meetings and discourses, the task this work has set out to accomplish is a very brave one. The author's account of his fieldwork experiences and adopted techniques illustrates his initiation, revealing him as a genuine ethnographer who is a friend of people and at ease with his field. With both the far-seeing and inspiring analysis of Igbo medicine, life and culture accounted for in the work, the book stands out for ethnographers, teachers, students, leaders, policymakers and the general public. This is a book that deserves to be read as it shapes the critical path toward understanding ways of healing insanity in a culture-specific context, crosscutting perspectives for a relationship between indigenous healing and the biomedical sphere. Prof Ren Devisch, Africa Research Centre, University of Leuven. This book is written with a clear purpose for everyone to read to understand and heal insanity and indeed provides a thick piece of cultural philosophy and vernacular of Igbo medicine in hopes of putting cultural wisdom in pursuit of integral health care development. Prof Pantaleon Iroegbu, Professor of Philosophy, Major Seminary Ekpoma, January 2006. To read this book as I did is to get the benefit of Dr Patrick Iroegbu's ethnographic insight for an archetypical African healing system in Igboland. It offers a fascinating theory of symbolic release that speaks of African symbolic action and knowledge system. Dr Paul Komba Esq, University of Cambridge.

[African Traditional Medicine](#) DAVID OYEBOLA MD, 2020-02-10. This book is written to provide information on various aspects of Yoruba and indeed African traditional medicine. The writer's research on Yoruba traditional medicine provides the bulk of the materials in the book. The book consists of eleven chapters. Chapters 1 and 2 provide the background to the book. Chapters 3 to 10 encapsulate the different aspects of Yoruba traditional medicine such as classification of healers, methods of training of healers, methods of diagnosis and investigation of diseases, treatment of

diseases Yoruba pharmacopoeia midwifery bone setting and other forms of traditional surgery Chapter 11 describes the meeting point of hospitals and healers this meeting point in the opinion of the author should be how best to serve the interests of the patients The best form of relationship that should exist between hospitals and healers is also discussed The two systems of medicine exist side by side in Nigeria and most African countries yet remain functionally unrelated in any intentional sense It is argued that no medical system is perfect and no single care system has all the answers to all human health and related problems Each of the two systems has its strong and weak points The often talked about integration of the two systems has potential pitfalls and may be undesirable The book concludes that the best form of relationship may well be one of genuine cooperation and mutual respect between the two systems since this will lead in the ultimate to advancement of medical knowledge and overall improvement of patient care All levels of government in Nigeria have decisive roles to play in achieving this mutually beneficial cooperation of the two systems **The African Philosophy Reader** P.H.
