Runic Amulets and Magic Objects Mindy MacLeod, Bernard Mees, 2006 A fresh examination of one of the most contentious issues in runic scholarship magical or not The runic alphabet in use for well over a thousand years was employed by various Germanic groups in a variety of ways including inevitably for superstitious and magical rites Formulaic runic words were inscribed onto small items that could be carried for good luck runic charms were carved on metal or wooden amulets to ensure peace or prosperity There are invocations and allusions to pagan and Christian gods and heroes to spirits of disease and even to potential lovers Few such texts are completely unique to Germanic society and in fact most of the runic amulets considered in this book show wide ranging parallels from a variety of European cultures The question of whether runes were magical or not has divided

scholarship in the area Early criticism embraced fantastic notions of runic magic leading not just to a healthy scepticism but in some cases to a complete denial of any magical element whatsoever in the runic inscriptions This book seeks to re evaluate the whole question of runic sorcery attested to not only in the medieval Norse literature dealing with runes but primarily in the fascinating magical texts of the runic inscriptions themselves Dr MINDY MCLEOD teaches in the Department of Linguistics Deakin University Melbourne Dr BERNARD MEES teaches in the Department of History at the University of Melbourne *Textual Amulets from Antiquity to Early Modern Times* Christoffer Theis, Paolo Vitellozzi, 2022-10-20

Comparing amulets over time and space this volume focuses on the function of written words on these fascinating artefacts Ranging from Roman Egypt to the Middle Ages and the Modern period this book provides an overview on these artefacts in the Mediterranean world and beyond including Europe Iran and Turkey A deep analysis of the textuality of amulets provides comparative information on themes and structures of the religious traditions examined A strong emphasis is placed on the material features of the amulets and their connections to ritual purposes The textual content as well as other characteristics is examined systematically in order to establish patterns of influence and diffusion The question of production which includes the relationships that linked professional magicians artists and craftsmen to their clientele is also discussed as well as the sacred and cultural economies involved *Tarot Talismans* Sandra Tabatha Cicero, Chic Cicero, 2006 According to Chic Sandra Tabatha Cicero the tarot is much more than a collection of symbolic images it s a vibrant ecosystem of interconnected energies and entities In this groundbreaking approach to tarot they introduce how these powerful cards can be magically transformed into talismans and amulets Part one of this book explores the nature of talismans and amulets how magic works the role of the divine in magic and magical ethics The specific energies and talismanic amuletic uses of each card are described along with its magical correspondences spanning elemental astrological and Qabalistic qualities Part two is devoted to tarot angels and invoking these divine energies including how to use the Golden Dawn method known as telesmatic magic Ritual card spreads consecration rites and step by step examples demonstrate how to use magical talismans to get a promotion gain psychic talent promote healing mend a broken friendship enhance magic skills and more **The Mancies of Astronism** Cometan, 2019-11-25 The Mancies of Astronism is the forty sixth instalment in the Little Blue Book Series and is comprised of the thirtieth to the thirty sixth discourses of the Duodoxy which is itself the second disquisition of the founding book of Astronism called the Omnidoxy The Little Blue Book Series was created and first published by Cometan himself as a way to simplify and commercialise the immensity of the two million word length of the Omnidoxy into smaller more bite size publications A successful series from its very first published entry the Little Blue Book Series has gone on to become a symbol of Astronist commercial literature and a way for Cometan s words to reach readers of all ages and abilities who remain daunted by the beauty and yet the sheer extensiveness of the Omnidoxy as the longest religious text in history

The Arabic Influences on Early Modern Occult Philosophy Liana Saif, 2016-04-29 Investigating the impact of Arabic

medieval astrological and magical theories on early modern occult philosophy this book argues that they provided a naturalistic explanation of astral influences and magical efficacy based on Aristotelian notions of causality **Making Amulets Christian** Theodore de Bruyn, 2018-01-26 Making Amulets Christian Artefacts Scribes and Contexts examines Greek amulets with Christian elements from late antique Egypt in order to discern the processes whereby a customary practice the writing of incantations on amulets changed in an increasingly Christian context It considers how the formulation of incantations and amulets changed as the Christian church became the prevailing religious institution in Egypt in the last centuries of the Roman empire Theodore de Bruyn investigates what we can learn from incantations and amulets containing Christian elements about the cultural and social location of the people who wrote them He shows how incantations and amulets were indebted to rituals or ritualizing behaviour of Christians This study analyzes different types of amulets and the ways in which they incorporate Christian elements By comparing the formulation and writing of individual amulets that are similar to one another one can observe differences in the culture of the scribes of these materials It argues for conditioned individuality in the production of amulets On the one hand amulets manifest qualities that reflect the training and culture of the individual writer On the other hand amulets reveal that individual writers were shaped whether consciously or inadvertently by the resources they drew upon by what is called tradition in the field of religious studies *Traditional Hoodoo & Conjure* Miss Aida, 2025-10-24 In this illuminating guide Miss Aida corrects widespread misconceptions about Hoodoo a powerful African diaspora tradition rooted in African traditional religions She reveals authentic practices contrasts Hoodoo with related traditions like Santeria and Haitian Vodou and reclaims this rich spiritual craft from misrepresentation offering readers a genuine understanding of Hoodoo s true essence Hoodoo and conjure may be household words but the popular magical craft practiced by tens of thousands of individuals has been grossly misrepresented in many modern practices Traditional Hoodoo Conjure seeks to reverse these misconceptions and provide practitioners with the history mechanics and tools to understand not only how but why each magical action serves a greater purpose Because Hoodoo derives its roots from African traditional religions that were initially brought to North America by enslaved people during the transatlantic era many aspects of the craft parallel African Caribbean practices such as Santeria and Haitian Vodou Miss Aida teaches readers how to honor their ancestors in a traditional manner and petition honored entities By offering magical baths 25 traditional rituals 125 spells 50 recipes and 40 prayers readers will develop a deeper understanding of Hoodoo while becoming knowledgeable and formidable spellcasters Translating Worlds Carlo Severi, William F. Hanks, 2015-12-15 Set against the backdrop of anthropology s recent focus on various turns whether ontological ethical or otherwise this pathbreaking volume returns to the question of knowledge and the role of translation as a theoretical and ethnographic guide for twenty first century anthropology gathering together contributions from leading thinkers in the field Since Ferdinand de Saussure and Franz Boas languages have been seen as systems whose differences make precise translation nearly impossible

And still others have viewed translation between languages as principally indeterminate. The contributors here argue that the challenge posed by the constant confrontation between incommensurable worlds and systems may be the most fertile ground for state of the art ethnographic theory and practice. Ranging from tourism in New Guinea to shamanism in the Amazon to the globally ubiquitous restaurant menu, the contributors mix philosophy and ethnography to redefine translation not only as a key technique for understanding ethnography but as a larger principle in epistemology. Studies in the Syriac Magical Traditions Marco Moriggi, Siam Bhayro, 2021-10-25. The study of the Syriac magical traditions has largely been marginalised within Syriac studies with the earliest treatments displaying a disparaging attitude towards both the culture and its magical practices. Despite significant progress in more recent scholarship in respect of the culture, its magical practices and their associated literatures remain on the margins of the scholarly imagination. This volume aims to open a discussion on the history of the field to evaluate how things have progressed and to suggest a fruitful way forward. In doing so, this volume demonstrates the incredible riches contained within the Syriac magical traditions and the necessity of their study.
