The Case That Foiled Fabian Simon Read, 2014-06-02 On Wednesday 14 February 1945 the body of Charles Walton was discovered on the lower slopes of Meon Hill near the sleepy Warwickshire village of Lower Quinton his torso pinned to the ground by a pitchfork Myths and rumours soon swirled about the crime Accounts claim Walton a retired labourer and a lifelong resident of Lower Quinton was believed by many to be a clairvoyant who could talk to birds and exercise control over animals It has even been reported that many villagers attributed Walton s death to ritual witchcraft But what is fact and what is fiction The most famous police officer in Britain Chief Inspector Robert Fabian was promptly dispatched by Scotland Yard to solve this increasingly peculiar and foreboding mystery Fabian of the Yard was not a man prone to superstition and had dealt with some of the most notorious killers of his time but there was something strange about the Walton murder Did the clues point to ritual witchcraft as the modus operandi or was the black magic angle merely a ruse With the villagers unable or unwilling to shed light on the matter Fabian faced for the only time in his glittering career the daunting prospect of failure The Case That Foiled Fabian lays out for the first time what actually happened and distills the truth from the many myths about this case that are today mistaken for facts

Ritual Embodiment in Modern Western Magic Damon Zacharias Lycourinos, 2017-11-15 In the Western world magic has often functioned as an umbrella term for various religious beliefs and ritual practices that seek to influence events

by harnessing supernatural power The definition of these myriad occult and esoteric traditions have however usually come from those that are opposed to its practice notably authorities in religious legal and intellectual spheres This book seeks to provide a new perspective directly from the practitioners of modern Western magic by exploring how a distinctive mode of embodiment and consciousness can produce a transition from an ordinary to a magical worldview Starting with an introduction to the study of magic in the Western academy the book then presents the author's own participant observation of five ethnographic case studies of modern Western magic The focus of these ethnographic case studies is directed towards ideas and methods the informants employ to self legitimise and self represent as magicians It concludes by discussing the phenomenological implications and issues around embodiment that are inherent to the contemporary practice of magic This is a unique insight into the lived experience of practitioners of modern magic As such it will be of keen interest to scholars of the Occult and New Religious Movements as well as Religious Studies academics examining issues around the embodiment and the anthropology of religion
