**The Magistrate's Tale** Trevor Grove, 2012-08-07 When Trevor Grove was called up for Jury service he became so intrigued with the justice system that he wrote a successful book about it *The Jurymans Tale* Now he s joined the magistracy and gives a fascinating funny and insightful account of just how the magistracy works at a time of great change Lay magistrates deal with more than 95 per cent of all criminal cases in England and Wales yet they are all volunteers drawn from local communities with no legal training or special qualifications and are not paid a penny for what they do Astonishingly little is known about what it is like to serve as a magistrate Each year 5 000 people apply to become magistrates only 25 per cent are successful This book is the first for many years to shed light on the experience Interweaving his own personal experience of becoming a magistrate in north London with general observations relevant interviews and a little history Trevor Grove takes us on a fascinating journey into this extraordinary and unique institution He has visited courts all over the country to talk to magistrates and observe how crimes and criminals differ from region to region and how the benches dealing with them differ too He has visited jails and Young Offenders Institutions and he has interviewed all of the principal players from the Lord Chief Justice and Home Secretary to more integral characters such as justices clerks ushers probation officers local police and offenders His journey uncovers a remarkable act of national faith in the good sense of ordinary people which says a great deal more about the strength and health of our democracy than is sufficiently appreciated

**Justice Reform and Development** Linn A. Hamnergren, 2014-04-29 This book explores the objectives pursued in donor programs the

methods used to advance them and the underlying assumptions and strategies It emphasizes the unexpected and sometimes unpleasant consequences of ignoring not only political and societal constraints but also advances in our technical approaches to performance improvement the one area where the First World has a comparative advantage The geographic scope of the work is broad incorporating examples from Eastern and Central Europe Latin America Africa and the Asia Pacific region as well as from several First World nations Justice Reform and Development examines First World assistance to justice or rule of law reforms in developing and transitional societies arguing that its purported failure is vastly exaggerated largely because of unrealistic expectations as to what could be accomplished Change nonetheless is needed if the programs are to continue and would be best based on targeting specific performance problems incorporation of donor countries experience with their own reforms and greater attention to relevant research While contributing to an on going debate among practitioners and academics involved in justice programs this book will also be accessible to readers with little exposure to the topics especially advanced undergraduate and graduate students in law political science and areas studies *The justice of the peace reports* ,1913 *Changing Contours of Criminal Justice* Mary Bosworth,Carolyn Hoyle,Lucia Zedner,2016-11-17 Celebrating the 50th Anniversary of the Oxford Centre for Criminology this edited collection of essays seeks to explore the changing contours of criminal justice over the past half century and to consider possible shifts over the next few decades The question of how social science disciplines develop and change does not invite any easy answer with the task made all the more difficult given the highly politicised nature of some subjects and the volatile evolving status of its institutions and practices A case in point is criminal justice at once fairly parochial much criminal justice scholarship is now global in its reach and subject areas that are now accepted as central to its study victims restorative justice security privatization terrorism citizenship and migration to name just a few were topics unknown to the discipline half a century ago Indeed most criminologists would have once stoutly denied that they had anything to do with it Likewise some central topics of past criminological attention like probation have largely receded from academic attention and some central criminal justice institutions like Borstal and corporal punishment have at least in Europe been abolished Although the rapidity and radical nature of this change make it quite impossible to predict what criminal justice will look like in fifty years time reflection on such developments may assist in understanding how it arrived at its current form and hint at what the future holds The contributors to this volume have been invited to reflect on the impact Oxford criminology has had on the discipline providing a unique and critical discussion about the current state of criminal justice around the world and the origins and future implications of contemporary practice All are leading internationally renowned criminologists whose work has defined and often re defined our understanding of criminal justice policy and literature Justice of the Peace and Local Government Review ,1839 **Justice of the Peace** ,1861 The Japan Daily Mail ,1883 *Magistrates' Cases Relating to the Poor Law, the Criminal Law, Licensing and Other Subjects Chiefly Connected with the Duties and Office of Magistrates* ,1895
