Magnetic Resonance Imaging Marinus T. Vlaardingerbroek, 2014-01-15 **Magnetic Resonance Imaging** Marinus T. Vlaardingerbroek, Jacques A. Boer, 2003 Presents an overall analytical treatment of MRI physics and engineering Special attention is paid to the treatment of intrinsic artefacts of the different sequences which can be described for the different scan methods The book contains many images especially showing specific properties of the different scan methods The methods discussed include RARE GRASE EPI and Spiral Scan The 3rd edition deals with stronger gradient and new RF coil systems and sequences such as Balanced FFE and q space diffusion imaging and SENSE *Magnetic Resonance Imaging* Marinus T. Vlaardingerbroek, Jacques A. den Boer, 2013-06-29 When retired it is a blessing if one has not become too tired by the strain of one's professional career In the case of our retired engineer and scientist Rinus Vlaardingerbroek however this is not only a blessing for him personally but also a blessing for us in the field of Magnetic Resonance Imaging as he has chosen the theory of MRI to be the work out exercise to keep himself in intellectual top condition An exercise which has worked out very well and which has resulted in the consolidated and accessible form of the work of reference now in front of you This work has become all the more lively and alive by illustrations with live images which have been added and analysed by clinical scientist Jacques den Boer We at Philips Medical Systems feel proud of our comakership with the authors in their writing of this book It demonstrates the value we share with them which is to achieve clinical superiority in MRI by quality and imagination During their careers Rinus Vlaardingerbroek and Jacques den Boer have made many contributions to the superiority of Philips MRI Systems They have now bestowed us with a treasure offering benefits to the MRI community at large and thereby to health care in general a much needed non diffuse textbook to help further advance the diffusion of MRI Freek Knoet Director of Magnetic Resonance Philips Medical Systems Preface Alles sollte so einfach wie möglich gemacht werden aber nicht einfacher **Magnetic Resonance Imaging** Robert W.
