From the Margins to the Mainstream Jacqui Theobald, Suellen Murray, Judith Smart, 2017-11-13

In the aftermath of the 2015 Victorian royal commission billions of dollars of government funds have been committed to improving responses to women and children experiencing domestic violence Such attention was unimaginable forty years ago when feminists in Victoria and across Australia first established women's refuges At that time domestic violence was not publicly acknowledged or tackled in any coherent way at a Commonwealth or state government policy level While services that provided accommodation to women and children in crisis had certainly existed for a long time the refuge movement of the 1970s made explicit the link between domestic violence and the need for refuge framing domestic violence as a manifestation of gender inequality and an imbalance of power between men and women This book illuminates how the women's domestic violence services movement in Victoria emerged how members organised amidst diversity and worked towards achieving their goals made sense of their experiences and dealt with the obstacles they encountered while undertaking action to create significant change for women

Ethnicity in the Mainstream Pauline Greenhill, 1994 In *Ethnicity in the Mainstream* she argues that Canadian English culture is indeed carnivalesque and like that of other ethnic groups is selected emergent and invented not appropriated intact from the old world She also explores uses of power in

Mainstream AIDS Theatre, the Media, and Gay Civil Rights Jacob Juntunen, 2016-01-29 This book demonstrates the political potential of mainstream theatre in the US at the end of the twentieth century tracing ideological change over time in the reception of US mainstream plays taking HIV AIDS as their topic from 1985 to 2000 This is the first study to combine the topics of the politics of performance LGBT theatre and mainstream theatre's political potential a juxtaposition that shows how radical ideas become mainstream that is how the dominant ideology changes Using materialist semiotics and extensive archival research Juntunen delineates the cultural history of four pivotal productions from that period Larry Kramer's *The Normal Heart* 1985 Tony Kushner's *Angels in America* 1992 Jonathan Larson's *Rent* 1996 and Moises Kaufman's *The Laramie Project* 2000 Examining the connection between AIDS mainstream theatre and the media reveals key systems at work in ideological change over time during a deadly epidemic whose effects changed the nation forever Employing media theory alongside nationalism studies and utilizing dozens of reviews for each case study the volume demonstrates that reviews are valuable evidence of how a

production was hailed by society's ideological gatekeepers. Mixing this new use of reviews alongside textual analysis and material study such as the theaters' locations, architectures, merchandise, program notes, and advertising creates an uncommonly rich description of these productions and their ideological effects. This book will be of interest to scholars and students of theatre, politics, media studies, queer theory, and US history, and to those with an interest in gay civil rights, one of the most successful social movements of the late twentieth century.

Out of the Mainstream Rutgerd Boelens, David Getches, Armando Guevara-Gil, 2010-02-26. Water is not only a source of life and culture. It is also a source of power, conflicting interests, and identity battles. Rights to materially access, culturally organize, and politically control water resources are poorly understood by mainstream scientific approaches and hardly addressed by current normative frameworks. These issues become even more challenging when law and policy makers and dominant power groups try to grasp, contain, and handle them in multicultural societies. The struggles over the uses, meanings, and appropriation of water are especially well illustrated in Andean communities and local water systems of Peru, Chile, Ecuador, and Bolivia, as well as in Native American communities in southwestern USA. The problem is that throughout history, these nation states have attempted to civilize and bring into the mainstream the different cultures and peoples within their borders, instead of understanding context and harnessing the strengths and potentials of diversity. This book examines the multi-scale struggles for cultural justice and socio-economic redistribution that arise as Latin American communities and user federations seek access to water resources and decision-making power regarding their control and management. It is set in the dynamic context of unequal globalizing power relations, politics of scale, and identity, environmental encroachment, and the increasing presence of extractive industries that are creating additional pressures on local livelihoods. While much of the focus of the book is on the Andean Region, a number of comparative chapters are also included. These address issues such as water rights and defence strategies in neighbouring countries and those of Native American people in the southern USA, as well as state reform and multi-culturalism across Latin and Native America, and the use of international standards in struggles for indigenous water rights. This book shows that against all odds, people are actively contesting neoliberal globalization and water power plays. In doing so, they construct new hybrid water rights systems, livelihoods, cultures, and hydro-political networks, and dynamically challenge the mainstream powers and politics.

Alternative and Mainstream Media Linda Jean Kenix, 2011-11-01. This book is available as open access through the Bloomsbury Open Access programme and is available on www.bloomsburycollections.com. Historically, alternative media have been viewed as fundamental, albeit at times culturally peripheral, forces in social change. In this book, however, Kenix argues that these media do not uniformly subvert the hierarchies of access that are so central to mainstream media; in fact, their journalistic norms and routines have always been based on the professional standards of the mainstream. Kenix goes on to posit the perception of mainstream and alternative as a misconception. She argues that although alternative media can and do construct distinct alternative communications,

they have always existed on the same continuum as the mainstream and the two will continue to converge Through comparative analysis this book argues that many alternative and mainstream media are merging to create a continuous spectrum rooted in commercial ideology Indeed much of what is now considered alternative media actually draws very little from principles of the independent press whereas many contemporary mainstream media now use communication techniques more commonly associated with media that do not operate for financial gain This book puts forward a controversial but convincing argument around the relationship between alternative and mainstream media drawing on examples from the UK US Australia and New Zealand to strengthen and develop the central premise

Digital-Native News and the Remaking of Latin American Mainstream and Alternative Journalism Summer Harlow, 2022-10-06 Winner of the Frank Luther Mott Kappa Tau Alpha Research Award Digital Native News and the Remaking of Latin American Mainstream and Alternative Journalism explores the rise of independent digital native news outlets in Latin America and their role in social change protest participation and the refinement of the concept of alternative media Drawing upon a decade of original research including interviews surveys focus groups and content analyses this book questions how the emergence of online native news sites in Latin America is redefining our understanding of what it means to be mainstream and what it means to be alternative By analyzing a wide range of elements from business models and audience behaviors to social media use and the role of gender this text examines how these sites are challenging traditional hegemonic mainstream news media and its service to political and economic elites The result is a discerning investigation into the new brand of journalism these sites have innovated This insightful study will be of interest to journalism communication and Latin American scholars particularly those interested in how technology is moulding journalistic practices and changing conceptions of journalism itself

Bidding for the Mainstream? Barbara Korte, Claudia Sternberg, 2021-07-26 This book looks at a sector of black and Asian British film and television as it presented itself in the 1990s and early 2000s For this period a mainstreaming of black and Asian British film has been observed in criticism and theory and articulated by an increasing number of practitioners themselves referring to changing modes of production distribution and reception and implying a more popular and commercial orientation of certain media products This idea is a leitmotif for the authors readings of recent films and examples of television drama including such diverse products as Young Soul Rebels and Babymother East Is East and Bend It Like Beckham The Buddha of Suburbia and White Teeth These analyses are supplemented with a look at earlier landmark productions like Pressure as well as relevant social institutional and aesthetic frameworks The book closes with a selection of statements by black and Asian media practitioners who operate from within Britain's cultural industries Mike Phillips Horace Ov Julian Henriques Parminder Vir and Gurinder Chadha
