[The Primer of Humor Research](#) Victor Raskin, 2008-11-06 The book is intended to provide a definitive view of the field of humor research for both beginning and established scholars in a variety of fields who are developing an interest in humor and need to familiarize themselves with the available body of knowledge Each chapter of the book is devoted to an important aspect of humor research or to a disciplinary approach to the field and each is written by the leading

expert or emerging scholar in that area There are two primary motivations for the book The positive one is to collect and summarize the impressive body of knowledge accumulated in humor research in and around Humor The International Journal of Humor Research The negative motivation is to prevent the embarrassment to and from the first timers often established experts in their own field who venture into humor research without any notion that there already exists a body of knowledge they need to acquire before publishing anything on the subject unless they are in the business of reinventing the wheel and have serious doubts about its being round The organization of the book reflects the main groups of scholars participating in the increasingly popular and high powered humor research movement throughout the world an 800 to 1 000 strong contingent and growing The chapters are organized along the same lines History Research Issues Main Directions Current Situation Possible Future Bibliography and use the authors definitive credentials not to promote an individual view but rather to give the reader a good comprehensive and condensed view of the area *The Dynamic Essence of Transmedia*

Storytelling Barbara Wall,2024-03-11 The Dynamic Essence of Transmedia Storytelling challenges many established truths about popular literary classics by presenting an analysis of sixty Korean variations of The Journey to the West a set which includes novels and poems as well as films comics paintings and dance performances dating from the 14th century until today In contrast to the typical assumption that literary classics like The Journey to the West are stable texts with a single original Barbara Wall approaches The Journey to the West as a dynamic text comprised of all its variations She argues that all the creators of such variations from Korean scholars in the 14th century to boy bands like Seventeen in the 21st century participate in the ongoing story world known as The Journey to the West Wall employs literary and quantitative analysis ample graphic visualizations and in depth descriptions of classroom games to find new ways to understand the dynamics of transmedia storytelling and popular engagement with story worlds Her approach opens new frontiers of intertextual analysis to literary scholars and teachers of literature who seek contemporary methods of introducing world literature to new generations of students Taiwanese and Polish Humor Li-Chi Lee Chen,2017-06-23

Is there a specifically Taiwanese or Polish humor Do people from Taiwan and Poland share the same sense of humor How is humor related to politics religion and the LGBT community These questions represent the starting point of investigation of this book Some of the central issues explored here include 1 how Taiwanese and Polish friends use various discourse strategies to construct humor and 2 how different types of humor are employed on television variety shows to attract laughter This book also provides an explanation of the prevalence of w l t u nonsense in the Taiwanese society and how Polish directness is reflected in humor To understand how humor is culturally shaped and how it contributes to a talk in interaction the three methodological approaches of conversation analysis multimodal discourse analysis and interactional linguistics are adopted and combined here This book will be of interest to both linguists and non linguists who are interested in the social and cultural construction of humor
