Mainstreaming Gender And Development In The World Bank Progress And Recommendations:

Mainstreaming Gender and Development in the World Bank Caroline O. N. Moser, Annika Tornqvist, Bernice van Bronkhorst, 1999
Extrait de l'introduction This report presents the main findings of a recently completed desk study undertaken for the Social Development Family of the World Bank's Environmentally and Socially Sustainable Development ESSD Network. The primary objectives of the review are to a) identify the current rationale, language and underlying policy approach to Gender and Development (GAD) adopted by the World Bank; b) evaluate the extent to which these are shared across the institutions; and c) make recommendations concerning future steps toward mainstreaming gender in the World Bank. Although the origins of the review relate to needs specifically identified by ESSD, the issues raised go beyond social development and are relevant to all Bank staff concerned with mainstreaming gender and development into World Bank lending and nonlending operations at the policy, program and project level.

Mainstreaming Gender in World Bank Lending Josette Murphy, 1997-01-01
Med spansk og fransk referat A Guide to the World Bank, 2003 The World Bank Group works in more than 100 developing economies and is one of the world's largest sources of development assistance. In 2002 the institution provided US \$19.5 billion in loans to its client countries. This guide reviews the organization's history, objectives and operations and looks at the five institutions that make up the World Bank Group: the International Bank for Reconstruction and Development (IBRD), the International Development Association (IDA), the International Finance Corporation (IFC), the Multilateral Investment Guarantee Agency (MIGA) and the International Centre for Settlement of Investment Disputes (ICSID).

Mainstreaming Gender in Environmental Assessment and Early Warning, 2005 **Mainstreaming Gender in Environmental Assessment and Early Warning** Joni Seager, Mainstreaming Men Into Gender and Development Sylvia H. Chant, Matthew C. Gutmann, 2000 Based on research commissioned by the World Bank, this book's primary focus is on incorporating men in gender and development interventions at the grass roots level. It draws attention to some of the key problems that have arisen from male exclusion as well as to the potential benefits of and obstacles to men's inclusion.

Geographies of Development in the 21st Century Sylvia H. Chant, Cathy McIlwaine, 2009-01-01 This is an excellent book and should prove to be a valuable text for geography and development studies students. Hedley Knibbs, Geography Geographies of Development in the 21st Century provides a very accessible and comprehensive account of a broad spectrum of key contemporary issues of concern to geographers and development studies specialists the world over. I am sure that this excellent volume will be widely read and appreciated. Professor Andrea Cornwall, University of Sussex, UK. Uneven, contradictory and complex is how Sylvia Chant and Cathy McIlwaine describe the processes of development that constitute the subject of this distinctive and lively introductory text. Seeking to comprehend let alone portray with any degree of accuracy the burden of these three adjectives with reference to the sheer diversity within what is sometimes called the majority world is a daunting challenge. Chant and McIlwaine draw on their first-hand experience on the ground in several

countries spread across all the major continents of the global South stretching well beyond conventional academic research into NGOs social movements and major international agencies Students will find the blend of accessibly written broad survey and case study very helpful In addition to lists of important websites further reading and learning outcomes the text is interspersed with focused activities to foster active learning Professor David Simon Royal Holloway University of London UK Written by two widely published academics with many years experience in university teaching research and consultancy *Geographies of Development in the 21st Century* provides a concise yet informative introduction to development in the contemporary Global South Incorporating field research from Mexico Costa Rica Guatemala Colombia El Salvador the Philippines Botswana and The Gambia Sylvia Chant and Cathy McIlwaine bring alive a body of fascinating subject matter extending across gender family poverty employment household livelihoods the informal economy housing migration civil society conflict and violence Reflecting both authors enduring interests in the academic policy interface the book is also informed by assignments they have undertaken for various international organisations such as the World Bank Inter American Development Bank UNDP UNICEF ILO and the Commonwealth Secretariat This timely and engaging volume will be an essential companion for undergraduate students taking introductory courses in development and globalisation as well as a useful reference and repository of teaching and learning ideas for those lecturing on the subject Students will not only find this resource refreshingly accessible and user friendly but will be able to further their knowledge guided by annotated readings key internet sources and a range of learning activities

Land Tenure, Gender and Globalisation Dzodzi Tsikata, Pamela Golah, 2010 Drawing from field research in Cameroon Ghana Vietnam and the Amazon forests of Brazil Bolivia and Peru this book explores the relationship between gender and land revealing the workings of global capital and of people s responses to it A central theme is the people s resistance to global forces frequently through an insistence on the uniqueness of their livelihoods For instance in the Amazon the focus is on the social movements that have emerged in the context of struggles over land rights concerning the extraction of Brazil nuts and babacu kernels in an increasingly globalised market In Vietnam the process of de collectivising rights to land is examined with a view to understand how gender and other social differences are reworked in a market economy The

book addresses a gap in the literature on land tenure and gender in developing countries. It raises new questions about the process of globalisation particularly about who the actors are: local people, the state, NGOs, multinational companies and the shifting relations amongst them. The book also challenges the very concepts of gender, land and globalization. **Handbook of the International Political Economy of the Corporation** Andreas Nölke, Christian May, 2018-09-28. Over the past few decades, corporations have been neglected in studies of international political economy (IPE). Seeking to demystify them, what they are, how they behave and their goals and constraints, this Handbook introduces the corporation as a unit of analysis for students of IPE. Providing critical discussion of their global and domestic power and highlighting the ways in which corporations interact with each other and with their socio-political environment, this Handbook presents a thorough and up-to-date overview of the main debates around the role of corporations in the global political economy. *Developing Partnerships* Kate Bedford, 2009. A nuanced critique of how the World Bank encourages gender norms through its policies. *Developing Partnerships* argues that financial institutions are key players in the global enforcement of gender and family expectations. By combining analysis of documents produced and sponsored by the World Bank with interviews of World Bank staffers and case studies, Kate Bedford presents a detailed examination of gender and sexuality in the policies of the world's largest and most influential development institution. Looking concurrently at economic and gender policy, Bedford connects reform of markets to reform of masculinities, loan agreements for export promotion to pamphlets for indigenous adolescents advising daily genital bathing and attempts to strengthen institutions after the Washington Consensus to efforts to promote loving couplehood in response to economic crisis. In doing so, she reveals the shifting relationships between development and sexuality and the ways in which gender policy impacts debates about the future of neoliberalism. Providing a multilayered account of how gender-aware policies are conceived and implemented by the World Bank, *Developing Partnerships* demonstrates as well how institutional practices shape development. *Urbanisation and Child Labour* M. Lakshmi Narasaiah, 2005.
