Novels about growing up have long been loved by ordinary readers and analyzed sometimes with more heat than light by scholars. This book respects the interests of ordinary readers while clarifying and frequently resolving the moral psychological social and occasionally religious coming of age dilemmas that scholars have wrestled with. Focusing on Goethe's *Wilhelm Meister*, Dickens's *David Copperfield*, James's *What Maisie Knew*, Forster's *The Longest Journey*, Lawrence's *Sons and Lovers*, and Santayana's *The Last Puritan*, Jeffers writes in a fresh engaging style meant to give criticism a liveliness and even brilliance it has in recent decades often lacked.

Lot's Daughters Robert M. Polhemus, 2005. An incisive and provocative work on male female relationships explores the complex relationship of fathers and daughters and of older men and younger females in history, life, art, and culture.

Versions of Pygmalion Joseph Hillis Miller, 1990. The literary school called deconstruction has long been dogged by the charge that it is unprincipled, its doors closed to the larger world of moral and social concern. J. Hillis Miller, one of America's leading teacher critics, sets the record straight by looking into a series of fictions that allow him to show that ethics has always been at the heart of deconstructive literary criticism. Miller proves his point not by assertion but by doing deconstruction. It is here in the hands of a master teacher that Miller's controlling image is Ovid's Pygmalion, who made a statue that came alive and whose descendants, the incestuous Myrrha and the bloodied Adonis, then had to bear the effects of what he did. All storytellers can be seen as Pygmalions, creating characters, personifications who must then act, choose, and evaluate what Miller calls the ethics of narration. If storytellers must be held accountable for what they create, then so must critics or teachers who have their own stories to tell when they write or discuss stories. If the choices are heavy, they are also Miller wryly points out, happily unpredictable. The teacher's first ethical act is the choice of what to teach, and Miller chooses his texts boldly. As an active reader, the kind demanded by deconstruction, Miller refashions each story, another ethical act, an intervention that may have social, political, and historical consequences. He then looks beyond text and critical theory to ask whether writing literature, reading it, teaching it, or writing about it makes anything happen in the real world of material history.

Henry James's Europe Dennis Tredy, Annick Duperray, Adrian Harding, 2011. As an American author who chose to live in Europe, Henry James frequently wrote about cultural differences between the Old and New World. The plight of bewildered Americans adrift on a sea of European sophistication became a regular theme in his fiction. This collection of twenty-four papers from some of the world's leading James scholars offers a comprehensive picture of the author's cross-cultural aesthetics. It provides detailed analyses of James's perception of Europe, of its people and places, its history and culture, its artists and thinkers, its aesthetics and its ethics, which ultimately lead to a profound reevaluation of his writing. With in-depth analysis of his works of fiction, his

autobiographical and personal writings and his critical works the collection is a major contribution to current thinking about James transtextuality and cultural appropriation **Henry James Goes to Paris** Peter Brooks, 2007 Publisher description
