Zaloga,2022-05-12 Written by one of the world s leading experts on D Day *Smashing Hitler's Guns* is a ground breaking new history of the legendary Rangers attack on Pointe du Hoc The Ranger attack on the German gun batteries at Pointe du Hoc in the early morning hours of D Day is the stuff of legend The gun batteries were strategically positioned between the two American D Day landing beaches and were considered the main threat to the Operation Neptune landings In spite of the confusion and

chaos of the June 6 1944 mission the Rangers succeeded in scaling the 100 foot cliffs but the guns were nowhere to be found Spreading out in all directions a Ranger team managed to find and spike the guns at their hidden location south of Pointe du Hoc For two days this small force fought off repeated German attacks until an American relief force finally arrived on 8 June by which time more than half the Rangers were casualties The heroic Ranger mission at Pointe du Hoc has indeed become a sacred legend and as a result there are many unexplored controversies This new book on this famous raid takes a fresh and comprehensive look at the attack on Pointe du Hoc examining the creation of the German gun battery the initial Allied intelligence assessments of the threat and the early plans to assault the site The forgotten Allied bombing attacks on Pointe du Hoc are detailed as well as the subsequent Allied intelligence investigations of the results While most accounts of Pointe du Hoc are based on the published US Army history the author has tracked down the long forgotten original unedited report in the archives that contains a number of curious changes from the better known and widely accepted version Little known interviews of the Rangers who took part in the mission also shed fresh light and a significant number of German records provide the enemy perspective of the battle for control of the guns      Sand & Steel Peter Caddick-Adams,2019 Part of a trilogy covering the last year of fighting in the European theater of World War II and in time for the 75th anniversary of D Day Sand and Steel gives us the full story of the Allied invasion of France      **Normandy Coast Footprint Focus Guide** Andrew Sanger,2013-02-22 Whether you want to explore the historical towns of Normandy contemplate the evocative relics of war at the Landing Beaches or sip the finest Calvados in picturesque rusticity Footprint Focus proves an invaluable guide This compact yet concise book will steer you towards the most interesting sights that Normandy s coast has to offer as well as ensuring you enjoy undiscovered corners too Comprehensive listings of the best food drink and accommodation will help you make the most of your trip Essentials section with useful advice on getting to and around the Normandy Coast Caen the Landing Beaches and Mont St Michel Comprehensive up to date listings of where to eat sleep and play Includes information on tour operators and activities from sampling Normandy cider to climbing the magnificent Mont St Michel Detailed maps for the Normandy Coast and other key destinations Slim enough to fit in your pocket With detailed information on all the main sights plus many lesser known attractions Footprint Focus Normandy Coast includes Caen the Landing Beaches Mont St Michel provides concise and comprehensive coverage of one of France s most historically fascinating regions The content of the Footprint Focus Normandy Coast includes Caen the Landing Beaches Mont St Michel guide has been extracted from Footprint s Normandy Full Color Guide      **Chasing Rommel** Amelia McNutt,2023-07-21 On June 6 1944 tens of thousands of American soldiers sailors and airmen assaulted the German held coast of France at Normandy Some were killed some wounded and all of them were changed as the battles raged against Rommel and his defenders They fell for yards of sandy beaches for critical roads bridges villages towns and cities Together we will travel to those places and we will relive all the bravery and horror all the mistakes and honor as we learn their stories Chasing Rommel      D-Day Beaches David

Zaloga, 2011-12-20 In the early hours of D

Day 1944 a group from the US Army 2nd Rangers Battalion were sent on one of the legendary raids of World War II The mission was to scale the cliffs overlooking Omaha beach and assault the German coastal artillery at Pointe du Hoc It was thought that only a raid could ensure that the guns would remain silent during the D Day landings But allied intelligence was wrong After climbing the cliffs under aggressive German fire and securing the battery site the Rangers discovered that the guns themselves were no longer there It was only due to the heroic actions of the Rangers involved that the guns were located in firing positions facing Utah beach and destroyed before they could be used In the first of a brand new series for Osprey this act of audacious daring is brought to life complete with illustrated artwork maps and rare German accounts Taking a more critical look at the story Steven Zaloga analyses every detail from the intelligence failings to the boldness of the Rangers in the face of such odds **D-Day Normandy Landing Beaches** Tonie Holt, Valmai Holt, 2020-01-31 An

**D-Day 1944** Stephen Bourque, 2022-07-21 An illustrated study of the little known history of the failed Allied bombing campaign designed to shatter German defenses on D Day D Day is one of the most written about events in military history One aspect of the invasion however continues to be ignored the massive pre assault bombardment by the Allied Expeditionary Air Force AEAF reinforced by RAF Bomber Command and the US Eighth Air Force on June 6 which sought to neutralize the German defenses along the Atlantic Wall Unfortunately this failed series of attacks resulted in death or injury to hundreds of soldiers and killed many French civilians Despite an initial successful attack performed by the Allied forces the most crucial phase of the operation which was the assault from the Eighth Air Force against the defenses along the Calvados coast was disastrous The bombers missed almost all of their targets inflicting little damage to the German defenses which resulted in a high number of casualties among the Allied infantry The primary cause of this failure was that planners at Eighth Air Force Headquarters had changed aircraft drop times at the last moment to prevent casualties amongst the landing forces without notifying either Eisenhower or Doolittle This book examines this generally overlooked event in detail answering several fundamental questions What was the AEAF supposed to accomplish along the Atlantic Wall on D Day and why did it not achieve its bombardment objectives Offering a new perspective on a little known air campaign it is packed with illustrations maps and diagrams exploring in detail the features and ramifications of this mission
