Majestic Failure The Fall Of The Shah

Jerrold M. Post

Majestic Failure The Fall Of The Shah:

Majestic Failure Marvin Zonis, 1991 The Limits of Culture Brenda Shaffer, 2006 Experts analyze the effect of cultural interests on the foreign policy of states in the Caspian region including Iran Azerbaijan Armenia Georgia Afghanistan Kazakhstan and Pakistan King of Kings Scott Anderson, 2025-08-05 From the author of the New York Times bestseller Lawrence in Arabia comes a stunningly revelatory narrative history of the Iranian Revolution one of the most momentous events in modern times This groundbreaking work exposes the jaw dropping stupidity of the American government and traces the rise of religious nationalism offering essential insights into today's global unrest A must read that is both urgent and unforgettable Steve Coll author of The Achilles Trap Directorate S winner of the National Book Critics Circle Award and Ghost Wars winner of the Pulitzer Prize A masterful and gripping account Anderson gives us a page turning history lesson that is more relevant than ever Rajiv Chandrasekaran author Imperial Life in the Emerald City a finalist for the National Book Award On New Year's Eve 1977 on a state visit to Iran President Jimmy Carter toasted Shah Mohammad Reza Pahlavi King of Kings Light of the Aryans Shadow of God on Earth praising Iran as an island of stability due to your leadership and the respect and admiration and love which your people give to you Iran had the world's fifth largest army and was awash in billions of dollars in oil revenues Construction cranes dotted the skyline of its booming capital Tehran The regime's feared secret police force SAVAK had crushed communist opposition and the Shah had bought off the conservative Muslim clergy inside the country He seemed invulnerable and invaluable to the United States as an ally in the Cold War Fourteen months later the Shah fled Iran into exile forced from the throne by a volcanic religious revolution led by a fiery cleric named Ayatollah Khomeini The ensuing hostage crisis forever damaged America's standing in the world How could the United States which had one of the largest CIA stations in the world and thousands of military personnel in Iran have been so blind The spellbinding story Scott Anderson weaves is one of a dictator blind to the disdain of his subjects and a superpower blundering into disaster Scott Anderson tells this astonishing tale with the narrative brio mordant wit and keen analysis that made his bestselling Lawrence of Arabia one of the key texts in understanding the modern Middle East The Iranian Revolution Anderson convincingly argues was as world shattering an event as the French and Russian revolutions In the Middle East in India in Southeast Asia in Europe and now in the United States the hatred of economically marginalized religiously fervent masses for a wealthy secular elite has led to violence and upheaval and Iran was the template King of Kings is a bravura work of history and a warning The Coup Ervand Abrahamian, 2013-11-05 An absorbing account of the CIA's 1953 coup in Iran essential reading for anyone concerned about Iran's role in the world today Harper's Magazine In August 1953 the Central Intelligence Agency orchestrated the swift overthrow of Iran's democratically elected leader and installed Muhammad Reza Shah Pahlavi in his place When the 1979 Iranian Revolution deposed the shah and replaced his puppet government with a radical Islamic republic under Ayatollah Ruhollah Khomeini the shift reverberated throughout the

Middle East and the world casting a long dark shadow over United States Iran relations that extends to the present day In this authoritative new history of the coup and its aftermath noted Iran scholar Ervand Abrahamian uncovers little known documents that challenge conventional interpretations and sheds new light on how the American role in the coup influenced diplomatic relations between the two countries past and present Drawing from the hitherto closed archives of British Petroleum the Foreign Office and the US State Department as well as from Iranian memoirs and published interviews Abrahamian s riveting account of this key historical event will change America s understanding of a crucial turning point in modern United States Iranian relations A Choice Outstanding Academic Title Not only is this book important because of its presentation of history It is also important because it might be predicting the future Counterpunch Subtle lucid and well proportioned The Spectator A valuable corrective to previous work and an important contribution to Iranian history American Historical Review

Modern Iran since 1797 Ali Ansari, 2019-03-26 Modern Iran since 1797 offers a comprehensive analysis of political social and economic developments in Iran since the end of the eighteenth century Spanning two centuries the book provides historical context for Iran s international relationships and its internal struggle to reconcile itself and its traditions with the modern world The book presents an overview of this crucial period in Iran s history its emergence from the political turmoil of the eighteenth century through to its initial encounter with the industrial powers of Europe and its attempts to navigate the turbulent waters of European imperialism It assesses the impact of European ideas on the triumph and tragedy of the Constitutional Revolution which established the political template for the country going forward and against which all other political developments have been measured This new edition has been updated to incorporate new scholarship and research to make a rounded assessment of recent developments and bring the text fully up to date A substantive new prequel has also been added covering the long nineteenth century from 1797 through to 1921 including a fuller and more detailed treatment both of the Constitutional Revolution and the events and ideology that underpinned it Written in a clear engaging style and highlighting Iran as a state and society grappling with the realities of the modern age Modern Iran since 1797 remains the perfect guide for all those studying the history of modern Iran

Modern Iran Ali Ansari, 2014-07-22 Today s Iran is rarely out of the headlines Labelled by George W Bush as a part of his axis of evil and perceived as a real nuclear threat by some Iran is increasingly seen as an enemy of the West And yet for many Iran remains shrouded in mystery and incomprehensible to Western analysis Modern Iran offers a comprehensive analysis and explanation of political social and economic developments in Iran during the 20th century Since it first published in 2003 Modern Iran has become a staple for students and lecturers wishing to gain a clear understand of the history of this strategically important Middle Eastern Country The new edition will bring us up to date and will include an analysis of the successes and failures of the Khatami Presidency an examination of the effect of 9 11 the rise of the Reform Movement and the efforts to promote Islamic Democracy the resistance to democratisation among the hardline elites

The Myth of the Great Satan

Abbas Milani,2013-09-01 This critical review of the history of America s relations with Iran shows how little of the two countries long and complicated relationship is reflected in the foundational axioms of the Great Satan myth The author explains why meaningful and equitable relations can begin only after the two nations have arrived at a common critical and accurate reading of the past *Multicultural America* Ronald H. Bayor,2011-07-22 This encyclopedia contains 50 thorough profiles of the most numerically significant immigrant groups now making their homes in the United States telling the story of our newest immigrants and introducing them to their fellow Americans One of the main reasons the United States has evolved so quickly and radically in the last 100 years is the large number of ethnically diverse immigrants that have become part of its population People from every area of the world have come to America in an effort to realize their dreams of more opportunity and better lives either for themselves or for their children This book provides a fascinating picture of the lives of immigrants from 50 countries who have contributed substantially to the diversity of the United States exploring all aspects of the immigrants lives in the old world as well as the new Each essay explains why these people have come to the United States how they have adjusted to and integrated into American society and what portends for their future Accounts of the experiences of the second generation and the effects of relations between the United States and the sending country round out these unusually rich and demographically detailed portraits **The 20th Century Go-N** Frank N. Magill,2014-03-05 Each volume of the Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history This is not a who s who Instead each entry provides an in depth essay on the life and career of the individual concerned Essays commence with a quick reference section that provides basic facts on the individual s life and achievements The extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual s place in history All entries conclude with a fully annotated bibliography **Defying the Iranian Revolution** Manouchehr Ganji,2002-09-30 The realities of Iranian life are far more harrowing than most people imagine from the outside Ganji paints a portrait of duplicitous clerics arbitrarily arresting torturing mutilating and executing citizens all in the name of Islamic Justice A system of apartheid has been instituted against women While 60% of the population lives below the poverty line the mullah regime has hoarded billions of dollars in accounts and properties in Europe Canada and Japan Roughly 70% of the population is under 30 years of age and opposes the regime In the year of 2001 alone 220 000 people mostly educated youth left the country in search of better lives Ganji stresses that the best defense against terrorism is offense and that the United States can and must establish a proactive policy of helping Iranians struggling for the freedom of Iran in and out of the country Western policies toward the Iranian mullah regime have thus far been reactionary rather than proactive The regime in Iran has been an incubator of international terrorism aiding and abetting international terrorist groups in and out of the Middle East The author argues that now is the time for the United States to substitute rhetoric with action in policies toward the ruling clerics

in Iran Ghostriders 1976-1995 William Walter, 2022-05-31 Resistance is futile You can run but you ll only die tired The AC 130 Gunship was quickly developed in 1968 to provide fire support for ground forces in Vietnam Twenty eight C 130 cargo aircraft were converted into AC 130s for night attack operations The AC 130 was crude ugly ad hoc and detested by many within the USAF but it worked and it worked well Likewise AC 130 crews were deemed unruly biker gangs but performed magnificently in every major US military operation from 1976 to 1995 Most of these combat operations were cloaked in secrecy but records once classified for up to twenty years have now been opened Based on this newly declassified information and hundreds of interviews with SOF veterans Ghostriders 1976 1995 is the first authoritative historical account of the AC 130 operations written by an AC 130 Aerial Gunner who participated in every AC 130 combat operation from 1980 through 1994 **The Encyclopedia of Political Revolutions** Jack A. Goldstone, 2015-04-29 The Encyclopedia of Political Revolutions is an important reference work that describes revolutionary events that have affected and often changed the course of history Suitable for students and interested lay readers yet authoritative enough for scholars its 200 articles by leading scholars from around the world provide quick answers to specific questions as well as in depth treatment of events and trends accompanying revolutions Includes descriptions of specific revolutions important revolutionary figures and major revolutionary themes such as communism and socialism ideology and nationalism Illustrative material consists of photographs detailed maps and a timeline of revolutions **Debating Revolutions** Nikki R. Keddie, 1995 Brings together contemporary essays from the journal *Contention* on the causes and prediction of revolutions Contributors discuss the Iranian Eastern European and French revolutions and the theoretical and comparative aspects of revolutionary study and respond to each other s views in debate style Topics include the social interpretation of the French Revolution demographic cycles and structural analysis in the world system and global implications of the 1989 revolutions in Eastern Europe Annotation copyright by Book News Inc Portland OR **Revolution** Rosemary H. T. O'Kane, 2000 All of the major work on the subject of revolutions is collected in this useful set Including work from seminal figures such as Hatto and Gottschalk in the 1940s as well as the most important literature all the way through 1998 the articles reprinted here consider the concept theory and causes of revolution revolutionary state building and the outcomes of revolutions case studies of great revolutions and much more **From Orientalism to Postcolonialism** Sucheta Mazumdar, Vasant Kaiwar, Thierry Labica, 2010-11-01 This book uses a historical and theoretical focus to examine the key of issues of the Enlightenment Orientalism concepts of identity and difference and the contours of different modernities in relation to both local and global shaping forces including the spread of capitalism The contributors present eight in depth studies and a substantial theoretical introduction utilizing primary and secondary sources in Turkish Farsi Chinese not to mention English French and German in the effort to engage materials and cultural perspectives from diverse regions It provides a critical attempt to think through the potentialities and limitations of area studies and civilizational approaches to the production of knowledge about the modern world and the

often obscured relationship between the fragment and the whole or the particular and universal The book is an intervention in one of the most fundamental debates confronting the social science and humanities namely how to understand global and local historical processes as interconnected developments affecting human actors From Orientalism to Postcolonialism will be of interest to academics and postgraduate students in Cultural and Postcolonial Studies and Asian studies and Middle Eastern studies

Mission Manifest Matthew K. Shannon,2024-06-15 In Mission Manifest Matthew Shannon argues that American evangelicals were central to American Iranian relations during the decades leading up to the 1979 revolution These Presbyterian missionaries and other Americans with ideals worked with US government officials nongovernmental organizations and their Iranian counterparts as cultural and political brokers the living sinews of a binational relationship during the Second World War and early Cold War As US global hegemony peaked between the 1940s and the 1960s the religious authority of the Presbyterian Mission merged with the material power of the American state to infuse US foreign relations with the messianic ideals of Christian evangelicalism In Tehran the missions of American evangelicals became manifest in the realms of religion development programs international education and cultural associations Americans who lived in Iran also returned to the United States to inform the growth of the national security state higher education and evangelical culture The literal and figurative missions of American evangelicals in late Pahlavi Iran had consequences for the binational relationship the global evangelical movement and individual Americans and Iranians Mission Manifest offers a history of living breathing people who shared personal professional and political aims in Iran at the height of American global power

The to Z of Iran John H. Lorentz,2010-04-14 Alphabetically arranged entries cover key individuals major events important institutions and organizations and significant economic political social religious and cultural issues

Conspiracy Theories in the United States and the Middle East Michael Butter,Maurus Reinkowski,2014-08-19 Conspiracy Theories in the United States and the Middle East is the first book to approach conspiracy theorizing from a decidedly comparative and interdisciplinary perspective Whereas previous studies have engaged with conspiracy theories within national frameworks only this collection of essays draws attention to the fact that conspiracist visions are transnational narratives that travel between and connect different cultures It focuses on the United States and the Middle East because these two regions of the world are entangled in manifold ways and conspiracy theories are currently extremely prominent in both The contributors to the volume are scholars of Middle Eastern Studies Anthropology History Political Science Cultural Studies and American Studies who approach the subject from a variety of different theories and methodologies However all of them share the fundamental assumption that conspiracy theories must not be dismissed out of hand or ridiculed Usually wrong and frequently dangerous they are nevertheless articulations of and distorted responses to needs and anxieties that must be taken seriously Focusing on individual case studies and displaying a high sensitivity for local conditions and the cultural environment the essays offer a nuanced image of the workings of conspiracy theories in the

United States and the Middle East

The Dismissing of America's Covenant with God Miles Huntley

Hodges, 2020-04-30 This volume looks at how as America went through the 1960s its achievement of superpower status invited both deep Progressive political changes at home Johnson's Great Society and aggressive Democratic involvement abroad Vietnam in both instances resulting in social catastrophe The narrative continues describing the battle to hold America's traditional Christian political moral foundations based on the American family and local community against the urge of Congressional Progressivists a Liberal media idealistic academics a Boomer generation and federal judges to rewrite those same standards along more Secular lines It covers Nixon's diplomatic successes abroad yet his humiliation at home Watergate the resultant collapse of all social order in Indochina with the retreat of America from the region Carter's discovery that diplomatic niceness is not a good substitute for real power the restoration of American national pride during the Reagan Bush Sr and Clinton years thanks to strong but carefully measured policies the disaster that hit when Bush Jr decided to democratize Afghanistan and Iraq the deep Change that Obama attempted to bring to a centuries old traditional America and finally the arrival of Trump deeply contested by political adversaries It looks at the moral spiritual character rather universally Christian of America's national leadership since 1960 and how that had its own impact on the country even during this distinctly post Christian period The narrative concludes with a review of the various political moral lessons we should draw from America's own national narrative particularly the necessity of getting back into an all important Covenant relationship with God

Leaders and Their Followers in a Dangerous World Jerrold M. Post, 2004 Post is a pioneer in the field of political personality profiling He may be the only psychiatrist who has specialized in the self esteem problems of both Osama bin Laden and Saddam Hussein The New Yorker Policy specialists and academic scholars have long agreed that for U S leaders to deal effectively with other actors in the international arena they need images of their adversaries Leaders must try to see events and indeed their own behavior from the perspective of opponents Faulty images are a source of misperceptions and miscalculations that have often led to major errors in policy avoidable catastrophes and missed opportunities History supplies all too many examples from the Foreword What impels leaders to lead and followers to follow How did Osama bin Laden the son of a multibillionaire construction magnate in Saudi Arabia become the world's number one terrorist What are the psychological foundations of man's inhumanity to man ethnic cleansing and genocide Jerrold M Post contends that such questions can be answered only through an understanding of the psychological foundations of leader personality and political behavior Post was founding director of the Center for the Analysis of Personality and Political Behavior for the CIA He developed the political personality profiles of Menachem Begin and Anwar Sadat for President Jimmy Carter's use at the Camp David talks and initiated the U S government's research program on the psychology of political terrorism He was awarded the Intelligence Medal of Merit in 1979 for his leadership of the center In this book he draws on psychological and personality theories as well as interviews with individual terrorists and those who have

interacted with particular leaders to discuss a range of issues the effects of illness and age on a leader's political behavior narcissism and the relationship between followers and a charismatic leader the impact of crisis induced stress on policymakers the mind of the terrorist with a consideration of killing in the name of God and the need for enemies and the rise of ethnic conflict and terrorism in the post Cold War environment The leaders he discusses include Fidel Castro Osama bin Laden Saddam Hussein Kim Jong Il and Slobodan Milosevic
