Cultural Ecologies of the Land Patrick J. Dillon, 2025-04-15 *Cultural Ecologies of the Land* is a radical and challenging reassessment of the way we relate to the land and to infrastructure There was a time when the land defined us Now with each passing year we are increasingly detached from it It was once the centre stage of humanity now it is the setting for a technological drama What has happened and why does it matter This book is a multi layered account of people and environment shaping each other through cumulative moment to moment day to day change and a template for thinking about place locality belonging and identity *Cultural Ecologies of the Land* presents the existential crisis that many believe we now face as a systemic problem arising from social institutions and forms of behaviour that have been marginalised with our dependency on modern infrastructure It explains the part people have played in contributing to the crisis and how regenerating relationships with the land offers a route towards alleviating it This is not only about acknowledging our impact
