Winner of the 2023 Menno Hertzberger Encouragement Prize Book History In *Early Modern Thesis Prints in the Southern Netherlands* Gwendoline de M elenaere offers an account of the practice of producing illustrated thesis prints in the seventeenth century Southern Low Countries She argues that the evolution of the thesis print genre gave rise to the creation of a specific visual language combining efficiently various figurative registers of a historical and symbolic nature The book offers a reflection on the representation of knowledge and its public recognition in the context of academic defenses *Early Modern Thesis Prints* makes a timely contribution to our understanding of early modern print culture and more specifically to the expanding field of study concerned with the role of visual materials in early modern thought *Twelve solos for a violin or oboe with basso continuo* William Babell, 2005-01-01 Pagination xvii 82 pp Parts violin available as B140P *Rinaldo and Armida* John Eccles, 2011-01-01 Selected Verse Anthems John Blow, 2009-01-01 The eight verse anthems in this edition constitute the only full scores of works in Blow s hand that survive in this abundant genre The scores are located in two

manuscripts that are now parts of the collections at Christ Church Oxford and the Fitzwilliam Museum Cambridge The Oxford manuscript includes five anthems from the 1670s and each displays a variety of structural and musical rhetoric procedures making them ideal representatives of Blow's multifaceted early style The Cambridge manuscript dates from ca 1704 and contains three late works on a much larger scale As a group the later anthems require considerably greater virtuosity from the solo singers and individual verse sections grow both longer and more numerous As representative examples within a much larger repertoire the works selected for this edition help to reveal important facets in the career of the first person to hold the title Composer of the Chapel Royal

Early Modern Disputations and Dissertations in an Interdisciplinary and European Context Meelis Friedenthal, Hanspeter Marti, Robert Seidel, 2021-01-25 From the sixteenth through to the eighteenth century printed disputations were the main academic output of universities This genre is especially attractive as it deals with the most significant cultural and scientific innovations of the early modern period such as the printing revolution and the development of new methods in philosophy education and scholarly exchange via personal networks Until recently academic disputations have attracted comparatively little scholarly attention This volume provides for the first time a comprehensive study of the early modern disputation culture both through theoretical discussions and overviews and numerous case studies that analyze particular features of disputations in various European regions
