The Gas Station in America John A. Jakle, Keith A. Sculle, 1994 The first architect designed gas station a Pittsburgh Gulf station in 1913 was also the first to offer free road maps the familiar Shell name and logo date from 1907 when a British mother of pearl importer expanded its line to include the newly discovered oil of the Dutch East Indies the first enclosed gas stations were built only after the first enclosed cars made motoring a year round activity and operating a service station was no longer a seasonal job the system of octane rating was introduced by Sun Oil as a marketing gimmick 74 for premium in 1931 As the number of true gas stations continues its steady decline from 239 000 in 1969 to fewer than 100 000 today the words and images of this book bear witness to an economic and cultural phenomenon that was perhaps more uniquely American than any other of this century Jacket
