As We See It Suzanne Newman Fricke, 2023-10-15 In *As We See It* Suzanne Newman Fricke invites readers to explore the work and careers of ten contemporary Native American photographers: Jamison Banks, Anna Hoover, Tom Jones, Larry McNeil, Shelley Niro, Wendy Red Star, Beverly Singer, Matika Wilber, William Wilson, and Tiffiney Yazzie. Inspired by *As We See It*, an exhibition of these artists' work curated by Fricke in 2015, the book showcases the extraordinary achievements of these groundbreaking photographers. *As We See It* presents dialogues in which the artists share their unique perspectives about the history and current state of photography. Each chapter includes an overview of the photographer's career as well as examples of the artist's work. For added context, Fricke includes an introduction, a preface that explores the original exhibition of the same name, and an essay that challenges the ghost of Edward S. Curtis, whose work serves as a counterpoint to the photography of contemporary Native Americans. The text is designed to be read as a whole or in sections for anyone teaching Native American photography. *As We See It* is an invaluable addition to the library of anyone interested in Native American photography and will be the key source for teachers, researchers, and lovers of photography for years to come.

Advancing Variable Star Astronomy Thomas R. Williams, Michael Saladyga, 2011-05-26 Founded in 1911, the AAVSO boasts over 1200 members and observers and is the world's largest non-profit organization dedicated to variable star observation. This timely book marks the AAVSO's centennial year, presenting an authoritative and accurate history of this important association. Writing in an engaging and accessible style, the authors move chronologically through five eras of the AAVSO, discussing the evolution of its structure and purpose. Throughout the text, the main focus is on the thousands of individuals whose contributions have made the AAVSO's progress possible. Describing a century of interaction between amateur and professional astronomers, the authors celebrate the collaborative relationships that have existed over the years. As the definitive history of the first hundred years of the AAVSO, this text has broad appeal and will be of interest to amateur and professional astronomers as well as historians and sociologists of science in general.
