The Vietnam War from the Rear Echelon Timothy J. Lomperis, 2023-04-21 Timothy Lomperis knows the Vietnam War both as a soldier and as a scholar In the latter role he has

published extensively including *The War Everyone Lost and Won* hailed as one of the best books ever written on that conflict. Even though he served two tours in country during the war's most frustrating period from the infamous Easter Invasion through the Paris Peace negotiations, this is the first time he has written about the war from such a personal perspective. An intelligence officer at the Military Assistance Command Vietnam (MACV), Lomperis and his comrades were tasked with translating Washington war policy into action. Lomperis provides a rare view of the war from the perspective of a rear echelon officer. He and other so-called REMFs were deeply involved in trying to devise and implement strategies that would win the war. This largely neglected perspective takes center stage in Lomperis's memoir, presenting a seldom-seen midlevel perspective that provides the missing links between the Washington-Hanoi peace negotiations and the deadly battles between troops in the field. In exposing the inner workings of a military headquarters during wartime, Lomperis recounts the tensions of a command caught between the political imperatives of Washington and the deteriorating military situation on the ground. Involved in the planning and execution of Nixon's 1972 Christmas Bombing Campaign, designed to push the North Vietnamese into peace negotiations, Lomperis sheds new light on Nixon's secret plan to end the war while offering rare glimpses of military operations and decision making on the ground in Saigon. Giving color to the REMF story, he also offers a portrait of life in wartime Saigon, writing with genuine respect for and curiosity about Vietnamese culture. And ultimately, he describes his own moral conundrum as the son of missionaries and an initial Cold Warrior who undergoes a gradual disillusionment that resolves into peaceful reconciliation. This incisive memoir is essential for better comprehending what the Vietnam experience was like for the large contingent of Americans who served there. It suggests the need for some fundamental rethinking about Vietnam, not only for the war's veterans but also for those concerned with the lessons it carries for U.S. involvement in current insurgencies.

Vietnamese Women at War Sandra C. Taylor, 1999. For as long as the Vietnamese people fought against foreign enemies, women were a vital part of that struggle. The victory over the French at Dien Bien Phu is said to have involved hundreds of thousands of women, and many of the names in Viet Cong unit rosters were female. These women were living out the ancient saying of their country: When war comes, even women have to fight.

Reading South Vietnam's Writers Thomas Engelbert, Chi P. Pham, 2023-07-04. This edited book examines how South Vietnam's formerly the Republic of Vietnam (1955-1975) literary and journalistic writers were perceived and potentially influenced by Western thought, led by thinkers such as Jean-Paul Sartre, Franz Kafka, Sigmund Freud, Thomas Mann, Martin Heidegger, Hermann Hesse, Edmund Husserl, Stefan Zweig, Graham Greene, and Somerset Maugham. The book reveals the dynamism and diversity of Western thought in individual literary texts as well as among the authors themselves. The volume considers how writers and their texts engaged with issues that are socially, culturally, politically, and philosophically significant to Vietnam and beyond, past and present. This approach to South Vietnam's literary and journalistic tradition enables an alternative, plural, inclusive view of the significance of these texts, which are shown to be neither exclusively anti-

Communist nor bourgeois individualist c n h n t i u t s n as they have so often been interpreted both in and outside of Vietnam Such an interpretation problematically retains the marginal position of South Vietnam s literature in mainstream Vietnamese literature and in the literatures of the host countries where these Vietnamese authors have migrated settled and continued to write following the Fall of Saigon This volume presents itself as a key text for those studying Asian and postcolonial literatures as well as scholars in the humanities researching Vietnam its history politics society and culture *Winning North Vietnam's Hearts and Minds during the Vietnam War (1954-1975)* Hai-Chung Pham,2024-12-02 Pham explores North Vietnam s unique challenges and perspectives to provide a holistic understanding of the Vietnam War Delving into the emotional philosophical and cultural dimensions of Northern Vietnamese experiences this book transcends mere military strategy to illuminate how these elements shaped the nation s identity beliefs and self conception The book s multifaceted approach fosters a deeper understanding of North Vietnam s wartime journey Beginning with the 1954 division of Vietnam it probes into the ideological battles and propaganda efforts of the Democratic Republic of Vietnam DRV and examines historical precedents Communist ideology and propaganda slogans Drawing upon historical records personal anecdotes and cultural insights it offers readers an intimate chronicle of North Vietnam s odyssey By focusing on the cultural psychological and ideological dimensions of the DRV s struggle it fills a gap in the existing literature surrounding Northern Vietnamese experiences and perspectives A valuable resource for scholars students researchers and political scientists interested in the field of history communication war studies peace and conflict studies as well as the Vietnam War s historical and contemporary implications
