**Ten Traditional Tellers** Margaret Read MacDonald, 2006 In this unique collection of stories and personal interviews folklorist Margaret Read MacDonald examines storytelling through the distinct voices of the tellers themselves Ten Traditional Tellers offers an intimate look at their lives and art as they discuss their reasons for telling their uses of the stories and the influence of their cultural heritage Coming from places such as Ghana Brazil and Thailand the tellers include colorful characters like Vi Hilbert a member of the Upper Skagit tribe who continues to work despite near blindness and Rinjing Dorje whose bawdy shepherd's tales shock his audiences and validate his identity in a western culture that expects piousness from Tibetans In addition to the interviews the book also includes brief introductions for each teller and one or two of their representative stories *Recent Trends in Meaning-Text Theory* Leo Wanner, 1997-12-31 The present volume contains articles of well known representatives of the Meaning-Text Theory MTT and other related linguistic theories Founded by I Mel'cuk and A Zholkovsky in the sixties in Moscow MTT soon became known in the West as a prominent outsider theory The picture changed since then though MTT gained importance in several areas of linguistics and computational linguistics It influenced the design of new grammar

formalisms such as Dependency Tree Grammars Also specific parts of MTT have been directly overtaken into other theories consider for example the work on integrating Lexical Functions into Pustejovsky's Generative Lexicon The present volume is a further convincing demonstration of MTT's liveliness and relevance to the field's burning issues The focus of the volume is on semantics semantic representation and relation of semantics to surface in MTT Six out of eight articles Polguère Escalier Paducheva St Germain Beck Bogulavsky deal with problems related to these topics while the last two articles of the volume Sgall and Rambow Joshi throw a bridge between MTT or more precisely between dependency based theories of which MTT is one instantiation and other linguistic theories

artist blends the aesthetics of punk rock with the traditional spiritual practices of the women in her lineage in this bold contemporary journey to reclaim her heritage and unleash her power and voice while searching for a permanent home Sasha taq's blu LaPointe has always longed for a sense of home When she was a child her family moved around frequently often staying in barely habitable church attics and trailers dangerous places for young Sasha With little more to guide her than a passion for the thriving punk scene of the Pacific Northwest and a desire to live up to the responsibility of being the namesake of her beloved great grandmother a linguist who helped preserve her Indigenous language of Lushootseed Sasha throws herself headlong into the world determined to build a better future for herself and her people Set against a backdrop of the breathtaking beauty of Coast Salish ancestral land and imbued with the universal spirit of punk Red Paint is ultimately a story of the ways we learn to find our true selves while fighting for our right to claim a place of our own Examining what it means to be vulnerable in love and in art Sasha offers up an unblinking reckoning with personal traumas amplified by the collective historical traumas of colonialism and genocide that continue to haunt native peoples Red Paint is an intersectional autobiography of lineage resilience and above all the ability to heal **The Salish Language Family** Paul D.

Kroeber,1999-01-01 In this pioneering study Paul D Kroeber examines the history of an array of important syntactic constructions in the Salish language family This group of some twenty three languages centrally located in the Northwest Coast and Plateau Regions is noted for its intriguing differences from European languages including the possible irrelevance of a noun verb distinction to grammatical structure and the existence of distinctive systems of articles which also often function as marks of subordination Kroeber draws on and analyzes data from a wide range of textual and other sources Centering his detailed investigation on patterns of subordination and focusing he situates these against the broader background of Salish syntax examines their interrelationships and reconstructs their historical development The result is a

study that significantly enhances understanding of the structure and history of Salish As important Kroeber s critical command of sources and well considered historical proposals are exemplary setting a methodological standard for Americanist scholarship

**Typological Hierarchies in Synchrony and Diachrony** Sonia Cristofaro,Fernando Zúñiga,2018-07-15 Typological hierarchies are widely perceived as one of the most important results of research on language universals and linguistic diversity Explanations for typological hierarchies however are usually based on the synchronic properties of the patterns described by individual hierarchies not the actual diachronic processes that give rise to these patterns cross linguistically This book aims to explore in what ways the investigation of such processes can further our understanding of typological hierarchies To this end diachronic evidence about the origins of several phenomena described by typological hierarchies is discussed for several languages by a number of leading scholars in typology historical linguistics and language documentation This evidence suggests a rethinking of possible explanations for typological hierarchies as well as the very notion of typological universals in general For this reason the book will be of interest not only to the broad typological community but also historical linguists cognitive linguists and psycholinguists
