Luxury Yacht From Steam To Diesel:

The Luxury Yacht from Steam to Diesel Reginald Crabtree,1974 *Millionaires, Mansions, and Motor Yachts* Ross MacTaggart,2004 A re creation of a time of fantastic wealth through never before seen photographs *AND THE WORLD LISTENED: The Story of Captain Leonard Frank Plugge and the International Broadcasting Company.* Keith Wallis,2008

Sails, Skippers and Sextants George Drower,2011-09-30 The inventions the innovations the stories the surprises A combination of history reference and entertainment something for every seafarer and many others too Vice Admiral Sir Tim Laurence People have been sailing for thousands of years but we ve come some distance from longboats and clippers How did we arrive here In fifty tales of inventors and innovations Sails Skippers and Sextants looks at the history of one of our most enjoyable pastimes from the monarch who pioneered English yachting to the engineer who invented sailboards The stories are sometimes inspiring usually amusing and often intriguing so grab your lifejacket it s going to be quite an adventure

A Race with Love and Death Richard Williams,2020-03-19 A tragic age and a tragic character both seemingly compelled to destroy themselves a chilling reminder of how little control we have over our fates Damon Hill One of the greatest motor racing stories Nick Mason Timely vivid and enthralling it s unputdownable Miranda Seymour author of *The Bugatti Queen* Dick Seaman was the archetypal dashing motorsport hero of the 1930s the first Englishman to win a race for Mercedes Benz and the last Grand Prix driver to die at the wheel before the outbreak of the Second World War Award winning author Richard Williams reveals the remarkable but now forgotten story of a driver whose battles against the leading figures of motor racing s golden age inspired the post war generation of British champions The son of wealthy parents educated at Rugby and Cambridge Seaman grew up in a privileged world of house parties jazz and fast cars But motor racing was no mere hobby it became such an obsession that he dropped out of university to pursue his ambitions squeezing money out of his parents to buy better cars When he was offered a contract with the world beating state sponsored Mercedes team in 1937 he signed up despite the growing political tensions between Britain and Germany A year later he celebrated victory in the German Grand Prix with the beautiful 18 year old daughter of the founder of BMW Their wedding that summer would force a split with his family a costly rift that had not been closed six months later when he crashed in the rain while leading at Spa dying with his divided loyalties seemingly unresolved He was just 26 years old *A Race with Love and Death* is a gripping tale of speed romance and tragedy Set in an era of rising tensions where the urge to live each moment to the full never seemed more important it is a richly evocative story that grips from first to last

[Making Waves](#) Scott M Peters,2015-01-22 Michigan will always be known as the automobile capital of the world but the Great Lakes State boasts a similarly rich heritage in the development of boat building in America By the late nineteenth century Michigan had emerged as the industry s hub drawing together the most talented designers builders and engine makers to produce some of the fastest and most innovative boats ever created Within decades gifted Michigan entrepreneurs like Christopher Columbus

Smith John L Hacker and Gar Wood had established some of the nation's top boat brands and brought the prospect of boat ownership within reach for American consumers from all ranges of income More than just revolutionizing recreational boating Michigan boat builders also left their mark on history from developing the speedy runabouts favored by illicit rum runners during the Prohibition era to creating the landing craft that carried Allied forces to shores in Europe and the Pacific in WWII In *Making Waves* Scott M Peters explores this intriguing story of people processes and products of an industry that evolved in Michigan but would change boating across the world *Marine Engineers Review*, 1993 *Gas Turbines* Claire Soares, 2014-10-23 Covering basic theory components installation maintenance manufacturing regulation and industry developments *Gas Turbines A Handbook of Air Sea and Land Applications* is a broad based introductory reference designed to give you the knowledge needed to succeed in the gas turbine industry land sea and air applications Providing the big picture view that other detailed data focused resources lack this book has a strong focus on the information needed to effectively decision make and plan gas turbine system use for particular applications taking into consideration not only operational requirements but long term life cycle costs in upkeep repair and future use With concise easily digestible overviews of all important theoretical bases and a practical focus throughout *Gas Turbines* is an ideal handbook for those new to the field or in the early stages of their career as well as more experienced engineers looking for a reliable one stop reference that covers the breadth of the field Covers installation maintenance manufacturer's specifications performance criteria and future trends offering a rounded view of the area that takes in technical detail as well as well as industry economics and outlook Updated with the latest industry developments including new emission and efficiency regulations and their impact on gas turbine technology Over 300 pages of new revised content including new sections on microturbines non conventional fuel sources for microturbines emissions major developments in aircraft engines use of coal gas and superheated steam and new case histories throughout highlighting component improvements in all systems and sub systems

Mitchell, 1982 **Turbine Main Engines** John B. Main, F. R. Harris, C. W. Herbert, 2013-10-22 *Turbine Main Engines* deals with the principle of operation of turbine main engines Topics covered include practical considerations that affect turbine design and efficiency steam turbine rotors blades nozzles and diaphragms lubricating oil systems and gas turbines for use with nuclear reactors Gas turbines for naval boost propulsion merchant ship propulsion and naval main propulsion are also considered This book is divided into three parts and begins with an overview of the basic mode of operation of the steam turbine engine and how it converts the pressure energy of the ingoing steam into equivalent kinetic energy The second part deals with the principle of operation of marine gas turbines and discusses the effect of pressure and temperature on turbine performance creep of turbine components fouling of compressors and turbines and control systems

and protective devices The final part describes free piston gas turbine machinery and looks at different types of free piston engine together with turbine fouling and washing procedure This monograph will be of interest to mechanical engineers and those involved in turbine operation and design

Around Manhattan Island and Other Maritime Tales of New York Brian J. Cudahy,1997 Cudahy begins with a history of the Circle Line and its forerunners and erstwhile competitors in the around Manhattan sightseeing business Next he gives us the fascinating story of the fastest ocean liner of all time the S S United States The noble history of the New York Fire Department's fire boats is next followed by the story of the Iron Steamboat Company's sidewheelers which ferried passengers to the magical Coney Island from 1881 to 1932 Then there is the tragic 1932 explosion of the steamboat Observation with its parallels to an earlier and even more devastating tragedy at nearly the same spot Finally Cudahy tells in fascinating detail of the New York to Bermuda cruises as they were in yesteryear and as they are today
