Bora, 2016-10-04 Worldwide environmental crisis has become increasingly visible over the last few decades as the full scope of anthropogenic climate change manifests itself and large scale natural resource extraction has expanded into formerly remote areas that seemed beyond the reach of industrialization Scientists and popular culture alike have turned to the term Anthropocene to capture the global scale of environmental and even geological transformations that humans have carried out over the last two centuries The chapters in Ecological Crisis and Cultural Representation in Latin America examine the dynamics and interplay between local cultures and the expansion of global capitalism in Latin America emphasizing the role of art in bearing witness to and generating awareness of environmental and social crises but also its possibilities for formulating solutions They take particular care to draw out the ways in which local environmental crises in Latin American nations are witnessed and

imagined as part of a global system focusing on the problems of time scale and complexity as key terms in conceiving the dimensions of crisis. At the same time they question the notion of the Anthropocene as a species wide human historical project making visible the coloniality of natural resource extraction in Latin America and its dire effects for local people, cultures and environments. Taking an ecocritical approach to Latin American cultural production including literature, film, performance and digital artwork, the chapters in this volume develop a notion of ecological crisis that captures not only its documentary sense in the representation of environmental destruction, the degradation of the oikos, but also the crisis in the modern worldview, logos, that the acknowledgment of crisis provokes. In this sense, crisis is also the promise of a turning point of the possibilities for change. Latin American representations of ecological crisis thus create the conditions for projects that decolonize environments, developing new sustainable ways of conceiving of and relating to our world or returning to old ones.

Territorios de La Mancha Asociación Española de Estudios Literarios Hispanoamericanos. Congreso, Matías Barchino, 2007. Se incluyen trabajos inéditos de escritores y críticos hispanoamericanos como Rodrigo Fresán, Jorge Volpi, Juan Carlos Rodríguez Cordero, Rafael Gutiérrez Girardot, entre otros.

Historical Dictionary of Latin American Literature and Theater Richard Young, Odile Cisneros, 2010-12-18. The Historical Dictionary of Latin American Literature and Theater provides users with an accessible single volume reference tool covering Portuguese speaking Brazil and the 16 Spanish speaking countries of continental Latin America: Argentina, Bolivia, Chile, Colombia, Costa Rica, Ecuador, El Salvador, Guatemala, Honduras, Mexico, Nicaragua, Panama, Paraguay, Peru, Uruguay, and Venezuela. Entries for authors ranging from the early colonial period to the present give succinct biographical data and an account of the author's literary production, with particular attention to their most prominent works and where they belong in literary history. The introduction provides a review of Latin American literature and theater as a whole, while separate dictionary entries for each country offer insight into the history of national literatures. Entries for literary terms, movements, and genres serve to complement these commentaries, and an extensive bibliography points the way for further reading. The comprehensive view and detailed information obtained from all these elements will make this book of use to the general interest reader, Latin American studies students, and the academic specialist.
