Late-Medieval Prison Writing and the Politics of Autobiography Joanna Summers, 2004-07-01 Boethius Consolation of Philosophy has long been taken as one of the seminal works of the Middle Ages yet despite the study of many aspects of the Consolation's influence the legacy of the figure of the writer in prison has not been explored A group of late medieval authors Thomas Usk James I of Scotland Charles d Orl ans George Ashby William Thorpe Richard Wyche and Sir Thomas Malory demonstrate the ways in which the imprisoned writer is presented both within and outside the Boethian tradition The presentation of an imprisoned autobiographical identity in each of these authors texts and the political motives behind such self presentation are examined in this study which also questions whether the texts should be considered to from a genre of The Voices of Medieval English Lyric Anne L. Klinck, 2019-11-28 What was early autobiographical prison literature the medieval English lyric Moving beyond the received understanding of the genre The Voices of Medieval English Lyric explores through analysis discussion and demonstration what the term lyric most meaningfully implies in a Middle English context A critical edition of 131 poems that illustrate the range and rich variety of lyric poetry from the mid twelfth century to the early sixteenth century The Voices of Medieval English Lyric presents its texts freshly edited from the manuscripts in thirteen sections emphasizing contrasting and complementary voices and genres As well as a selection of religious poetry the collection includes a high proportion of secular lyrics many on love and sexuality both earnest and humorous In general major authors who have been covered thoroughly elsewhere are excluded from the edited texts but some especially Chaucer are quoted or mentioned as illuminating comparisons Charles d Orl ans and the Scots poets Robert Henryson and William Dunbar add an extra national dimension to a single language collection Textual and thematic notes are provided as well as versions of the poems in Latin or French when these exist Adopting new perspectives The Voices of Medieval English Lyric offers an up to date accessible and distinctive take on Middle English poetry English Lyrical Poetry from Its Origins to the Present Time Edward Bliss Reed,1912 The Bilingual Text Jan Walsh Hokenson, Marcella Munson, 2014-06-03 Bilingual texts have been left outside the mainstream of both translation theory and literary history Yet the tradition of the bilingual writer moving between different sign systems and audiences to create a text in two languages is a rich and

venerable one going back at least to the Middle Ages The self translated bilingual text was commonplace in the mutlilingual world of medieval and early modern Europe frequently bridging Latin and the vernaculars While self translation persisted among cultured elites it diminished during the consolidation of the nation states in the long era of nationalistic monolingualism only to resurge in the postcolonial era The Bilingual Text makes a first step toward providing the fields of translation studies and comparative literature with a comprehensive account of literary self translation in the West It tracks the shifting paradigms of bilinguality across the centuries and addresses the urgent questions that the bilingual text raises for translation theorists today Is each part of the bilingual text a separate original creation or is each incomplete without the other Is self translation a unique genre Can either version be split off into a single language or literary tradition How can two linguistic versions of a text be fitted into standard models of foreign and domestic texts and cultures Because such texts defeat standard categories of analysis The Bilingual Text reverses the usual critical gaze highlighting not dissimilarities but continuities across versions allowing for dissimilarities within orders of correspondence and englobing the literary as well as linguistic and cultural dimensions of the text Emphasizing the arcs of historical change in concepts of language and translation that inform each case study The Bilingual Text examines the perdurance of this phenomenon in Western societies and literatures English Lyrical Poetry Edward Bliss Reed, Composers and their Songs, 1400-1521 David Fallows, 2023-05-31 This second selection of essays by David Fallows draws the focus towards individual composers of the long fifteenth century and what we can learn about their songs In twenty one essays on the secular works of composers from Ciconia and Oswald von Wolkenstein via Binchois Ockeghem Busnoys and Regis to Josquin Henry VIII and Petrus Alamire one repeated theme is how a consideration of the songs can help the way to a broader understanding of a composer's output Since there are more song sources and more individual pieces now available for study there are more handles for dating for geographical location and for social alignment Another theme concerns the various different ways in which particular songs have their impact on the next generations Yet another concerns the authorshop of poems that were set to music by Binchois and Ciconia in particular A group of essays on Josquin were parerga to the author's edition of his four voice secular music for the New Josquin Edition 2005 and to his monograph on the composer 2009 Fifteenth-Century Studies Vol. 24 William C.
