Management, Innovation and Entrepreneurship in Challenging Global Times Gabriela I. Prostean,Juan J. Lavios,Laura Brancu,Faruk Şahin,2024-04-23 Management Innovation and Entrepreneurship in Challenging Global Times begins to address the need for a response to

unprecedented global situations that require large scale cooperation as well as individual organizational and institutional changes. Embodying the proceedings of the 16th International Symposium in Management held in Timisoara, Romania in October 2021, this book gathers interdisciplinary and multidisciplinary studies which highlight less high profile research concepts in management and industrial engineering. The contributions discuss details of state of the art business process management techniques that integrate innovative methods with technologies that promote organizational agility. The methodologies used are sparking breakthroughs in entrepreneurship, financial management, supply chain management, and sustainability management. Other contributions deal with the important process of digitization which underlies the Industry 4.0 idea and raises issues across the fields discussed in this volume. Related areas such as management information systems and business philosophies that adapt and use contemporary approaches to maximize organizational knowledge feature among the contributions. Similarly reflecting the role of small and medium sized enterprises in catalyzing economic growth, part of the book focuses on a set of tools and techniques designed for their benefit. This book assembles contributions from international sources that will help researchers and students interested in industrial and business management to tackle problems that persist from the economic crisis of the late 2000s right up to those that arise as a result of the COVID-19 pandemic of the early 2020s.

Chemical Management Thomas J. Bierma, Francis L. Waterstraat, Jr., 1999-11-15 The only step by step guide to an exciting new chemical management and waste minimization methodology. Over the past decade a revolutionary new approach to chemical supply has emerged that dramatically reduces chemical waste and chemical costs while improving company performance. Known as Shared Savings Chemical Management it has already yielded astonishing results for several major North American manufacturing firms and numerous other companies. The first complete guide to this innovative chemical management methodology, Chemical Management acquaints you with Shared Savings principles and shows you how to put them to work in your company. Thomas Bierma and Francis Waterstraat Jr explore the environmental health and safety purchasing inventory tracking waste disposal and other major problems inherent to traditional chemical supply programs and clearly explain how and why a Shared Savings Chemical Management program helps minimize or completely eliminate those problems. With the help of fascinating case studies they demonstrate how Shared Savings techniques are currently being applied in five extremely successful plants belonging to GM Ford Chrysler and Navistar International. What's more they provide you with a complete step by step blueprint for designing and implementing a Shared Savings program tailored to your company. Chemical Management is an indispensable resource for manufacturing managers purchasing managers environmental managers health and safety managers and others charged with developing more effective chemical waste minimization strategies for their companies.
