Fitz,2014-11-19 This book examines the nature and function of the main female characters in the nine novels of Machado de Assis The basic argument is that Machado had a particular interest in female characterization and that his fictional women became increasingly sophisticated and complex as he matured and developed as a writer and social commentator This book argues that Machado developed especially after 1880 and what is usually considered the beginning of his mature period a kind of anti realistic new narrative one that presents itself as self referential fictional artifice but one that also cultivates a keen social consciousness The book also contends that Machado increasingly uses his female characterizations to convey this social consciousness and to show that the new Brazil that is emerging both before and after the establishment of the Brazilian Republic 1889 requires not only the emancipation of the black slaves but the emancipation of its women as well

Gender, Discourse, and Desire in Twentieth-Century Brazilian Women's Literature Cristina Ferreira-Pinto, 2004-02-01 This study by Cristina Ferreira Pinto explores the poetic and narrative strategies twentieth century Brazilian women writers use to achieve new forms of representation of the female body, sexuality and desire. Female writers discussed include Gilka Machado, Lygia Fagundes Telles, Marcia Denser and Marina Colasanti. While creating new forms, these writers are also deconstructing cultural myths of femininity and female behavior. In order to understand these myths, the book also presents new readings of some male authored canonical novels by Jose de Alencar, Machado de Assis, Manuel Antonio de Almeida and Aluisio Azevedo. The specific focus on female sexuality and desire acknowledges the intrinsic link between sexuality and an individual's sense of identity and its importance for female identity given the historical repression of women's bodies and the double standard of morality still pervasive in many Western cultures. In the discussion of the strategies Brazilian female poets and fiction writers employ, Ferreira Pinto addresses some social and cultural issues that relate to a woman's sense of her own body and sexuality, the characterization of women based on racial features and class hierarchy, marriage, motherhood, the silencing of the lesbian subject and aging. Ferreira Pinto's analysis is informed by the works of various and diverse critics and theoreticians among them Helene Cixous, Teresa De Lauretis, Adrienne Rich, Gloria Anzaldua, Georges Bataille and Wilhelm Reich.

The Carnavalesque Defunto Robert Henry Moser, 2008 *The Carnavalesque Defunto* explores the representations of death and the dead in Brazil's collective and literary imagination. The recurring stereotype of Brazil as the land of samba, soccer and sandy beaches overlooks a more complex cultural heritage in which, since colonial times, a relationship of proximity and reciprocity has been cultivated between the living and the dead. Robert H. Moser details the emergence of a prominent motif in modern Brazilian literature: namely, the carnivalesque defunto.

the dead that in the form of a protagonist or narrator returns to beseech instruct chastise or even seduce the living Drawing upon the works of esteemed Brazilian writers such as Machado de Assis Verissimo and Jorge Amado Moser demonstrates how the defunto through its mocking laughter and Dionysian resurrection simultaneously subverts and inverts the status quo thereby exposing underlying points of tension within Brazilian social and political history Incorporating elements of both a celestial advocate and an untrustworthy specter the defunto also serves as a metaphor for one of modern Brazil's greatest dilemmas reconciling the past with the present The Carnavalesque Defunto offers a comparative framework by juxtaposing the Brazilian literary ghost with other Latin American Caribbean and North American examples It also presents a cross disciplinary approach toward understanding the complex relationship forged between Brazil's spiritual traditions and literary expressions

The Oxford Handbook of Philosophy in Early Modern Europe Desmond M. Clarke, Catherine Wilson, 2013-05-23 In this Handbook twenty six leading scholars survey the development of philosophy between the middle of the sixteenth century and the early eighteenth century The five parts of the book cover metaphysics and natural philosophy the mind the passions and aesthetics epistemology logic mathematics and language ethics and political philosophy and

religion The period between the publication of Copernicus's *De Revolutionibus* and Berkeley's reflections on Newton and Locke saw one of the most fundamental changes in the history of our way of thinking about the universe This radical transformation of worldview was partly a response to what we now call the Scientific Revolution it was equally a reflection of political changes that were no less fundamental which included the establishment of nation states and some of the first attempts to formulate a theory of international rights and justice Finally the Reformation and its aftermath undermined the apparent unity of the Christian church in Europe and challenged both religious beliefs that had been accepted for centuries and the interpretation of the Bible on which they had been based The Handbook surveys a number of the most important developments in the philosophy of the period as these are expounded both in texts that have since become very familiar and in other philosophical texts that are undeservedly less well known It also reaches beyond the philosophy to make evident the fluidity of the boundary with science and to consider the impact on philosophy of historical and political events explorations revolutions and reforms inventions and discoveries Thus it not only offers a guide to the most important areas of recent research but also offers some new questions for historians of philosophy to pursue and to have indicated areas that are ripe for further exploration
