Magic, Divination and Witchcraft Among the Barotse of Northern Rhodesia Barrie Reynolds, Magic, Divination, and Witchcraft Among the Barotse of Northern Rhodesia Barrie Reynolds, 1963 **The Scottish Witch-Hunt in Context** Julian Goodare, 2002-09-21 This book is a collection of essays on Scottish witchcraft and witch hunting which covers the whole period of the Scottish witch hunt from the mid 16th century to the early 18th It particularly emphasizes the later stages since scholars are now as keen to explain why witch hunting declined as why it occurred There are studies of particular witchcraft panics including a reassessment of the role of King James VI The book thus covers a wide range of topics concerned with Scottish witch hunting and also places it in the context of other topics gender relations folklore magic and healing and moral regulation by church and state **Witchcraft** Craig Hawkins, 1996-06-01 This introduction to contemporary witchcraft and neopaganism shows you what witches themselves say they believe what the Bible says about witchcraft and philosophical holes in the worldview of witches The to Z of Witchcraft Michael D. Bailey, 2009-09-28 A great deal has been written about the history of witchcraft but much of what has been written is unreliable exaggerated or inaccurate This problem is especially acute in regard to modern witchcraft or Wicca and its supposed connections to historical witchcraft in medieval and early modern Europe The A to Z of Witchcraft provides a reliable reference source for both academics and general readers interested in the actual historical development of witchcraft in the western world The focus of the dictionary is on Western Europe during the late medieval and early modern periods when the specific idea of diabolical witchcraft developed and when the so called great witch hunts occurred Entries are also provided that deal with magic and witchcraft in the earlier Christian period and classical antiquity as well as with the lingering belief in witchcraft in the modern world and with the development of the modern neo pagan religion of witchcraft also known as Wicca For comparative purposes some entries have been provided that deal with aspects and systems of magic found in other parts of the world that seem to bear some relation to the idea of witchcraft as it developed in Christian Europe The regions dealt with are mainly Africa along with such New World practices as Voodoo and Santeria Entries in the dictionary cover important people in the history of witchcraft from the medieval inquisitors and early modern magistrates who developed the stereotype of the historical witch to the modern individuals who have developed the religion of Wicca Also included are legal terms and concepts important to the prosecution of the supposed crime of witchcraft and religious and theological concepts pertaining to the demonic elements that came to be associated with witchcraft as well as more popular beliefs and aspects of common folklore and mythology that became attached to the developing idea of witchcraft Geographic entries are also included discussing the scope of witch hunting in various reg *Magic, Witchcraft, and Ghosts in the Greek and Roman Worlds* Daniel Ogden, 2002 In a culture where the supernatural possessed an immediacy now strange to us magic was of great importance both in the literary mythic tradition and in ritual practice In this book Daniel Ogden presents 300 texts in new

translations along with brief but explicit commentaries Authors include the well known Sophocles Herodotus Plato Aristotle Virgil Pliny and the less familiar and extend across the whole of Graeco Roman antiquity **The Power of the Occult in Modern Africa** James Kiernan,2006 The occult is a framework of ideas and related practices that is drawn upon as a common resource to provide an understanding of how an apparently random world really works Based mainly on experiential research in a range of African societies the essays in this volume examine the relevance of the occult to a variety of social concepts and contexts These studies stress three features of the occult in modern Africa 1 as an explanatory and tactical device it is resilient 2 it is malleable with a capacity to absorb and assimilate new elements 3 it is flexible and adaptable to emerging situations and novel circumstances Of interest to specialists in the fields of religion social science and African studies this book will benefit the general reader interested in the occult and its relevance to modernity and globalisation

Spearmasters Molefi Kete Asante,Emeka Nwadiora,2007-04-26 Spear Masters contends that in Africa there exists only one religion with a vast array of denominations African religion is expressed in a different way by each of the denominations which creates confusion for those who believe that there are more than one African religion Spear Masters presents information about some of the larger and most significant expressions of the sole African religion so that the reader will understand the relationship between God the creator and the notions of the relationship with the family and community The term spear master relates to the integrity and ethics that had to accompany the maker and user of the spear in ancient African societies The essence of religion presented in Spear Masters is the deification of one s society and nation and making sacred the traditions and rituals of the ordinary lives of the people **The Forest of Symbols** Victor Witter Turner,1967 Collection of 10 articles previously published on various aspects of ritual symbolism among the Ndembu of Zambia p 83 4 brief mention of C P Mountford on Aboriginal colour symbolism Primarily for use in cultural comparison *Annals of Ireland by the Four Masters as translated into English by Owen Connellan* Michael O'Clery,2003 The second volume of the 2 book set for The Annals of Ireland by the Four Masters as translated by Owen Connellan This is the volume that contains the large fold out map at the back of the book **Religion, Faith and Crime** Kim Sadique,Perry Stanislas,2016-05-28 This unique collection brings together international contributors from a range of disciplines to explore crime and responses to crime through a religious faith based lens At a time when religion is under the media spotlight in terms of religiously motivated hate crime terrorism and child abuse this book provides an important platform for academic debate It examines these and other key issues including faith as a coping strategy religion as a motivating factor and the role of religion and morality in shaping criminal justice responses This collection clearly places religion faith at the heart of criminological enquiry and illustrates its relevance in addressing wider social issues and would be of benefit to students and academics researching or studying in these areas It will also be of interest to community and criminal justice practitioners and those with an interest in community engagement and multi faith work *New Perspectives on Witchcraft, Magic, and Demonology: Witchcraft,*

Divining the Woman of Endor J. Kabamba Kiboko, 2017-02-23 An examination of the language of divination in the Hebrew Bible particularly in 1 Samuel 28 3 25 the oft called Witch of Endor passage Kiboko contends that much of the vocabulary of divination in this passage and beyond has been mistranslated in authorized English and other translations used in Africa and in scholarly writings Kiboko argues that the woman of Endor is not a witch The woman of Endor is rather a diviner much like other ancient Near Eastern and modern African diviners She resists an inner biblical conquest theology and a monologic authoritarian view of divination to assist King Saul by various means including invoking the spirit of a departed person Samuel Kiboko carries out a Hebrew word study shaped by the theories of Mikhail M Bakhtin regarding the utterance heteroglossia and dialogism in order to understand the designative connotative emotive and associative meanings of the many divinatory terms in the Hebrew Bible She then examines 1 Samuel 28 and a number of prior translations thereof using the ideological framework of African feminist postcolonial biblical interpreters and translation theories to uncover the hidden ideology or transcript of these translations Finally using African contextual cultural hermeneutics and cross cultural translation theory Kiboko offers new English French and Kisanga translations of this passage that are both faithful to the original text and more appropriate to an inculturated liberation African Christian hermeneutic theology and praxis

Magic in the Literature of the Neronian Period Konstantinos Arampapaspaslis,2024-04-22 Neronian representations of magic a practice prevalent in the everyday life of the period and a central topic in its literary production are characterized by unprecedented accuracy and detail The similarities of witchcraft depictions in Seneca s Medea Lucan s book 6 and Petronius Satyricon with spells of the PGM the defixiones as well as with Pliny s quasi magical recipes underscore realism as the distinctive trait of Neronian magic scenes which has often been considered the authors means to differentiate themselves from their Augustan predecessors However such high degree realism is not merely an ornamental feature but transforms into a tool that influences the reader s response toward magic according to each author s worldview and aims The cross generic examination of the motif of magic in the major Neronian authors shows how realism forms a link between reader contemporary experience and text that encourages more active participation on the part of the reader At the same time images of destruction the horrific and the ridiculous further enhance the negative view of magic as an ineffective Lucan Petronius or destructive force Seneca simultaneously eliciting the reader s critical response

The Judicial Process Among the Barotse of Northern Rhodesia Max Gluckman,1973 [Goddess Worship, Witchcraft, and Neo-Paganism](#) Craig Hawkins,2016-09-06 The twentieth century has seen a remarkable revival of the Old Religion as adherents of New paganism call the native religious traditions of Europe and tribal traditions from North America that predated Christianity Many neo pagan groups identify with Celtic Druidic Egyptian Native American Norse or Roman traditions others with modern science fiction motifs and still others with witchcraft Neo paganism is occultic in nature A central figure in much of Neo paganism is the Mother Goddess who has been introduced and worshiped among certain feminists even in some mainline Protestant churches Why this series This is an age when countless groups and movements old and new mark the religious landscape in our culture leaving many people confused or uncertain in their search for spiritual truth and meaning Because few people have the time or opportunity to research these movements fully these books provide essential information and insights for their spiritual journeys Each book has five sections A concise introduction to the group An overview of the group s theology in its own words Tips for witnessing effectively to members of the group A bibliography with sources for further study A comparison chart that shows the essential differences between

biblical Christianity and the group The writers of these volumes are well qualified to present clear and reliable information and help us discern religious truth from falsehood This is an age when countless groups and movements new and old mark the religious landscape in our culture As a result many people are confused or uncertain in their search for spiritual truth and meaning Because few people have the time or opportunity to research these movements fully the Zondervan Guide to Cults and Religious Movements series provides essential information and insights for their spiritual journeys The second wave of books in this series addresses a broad range of spiritual beliefs from non Trinitarian Christian sects to witchcraft and neo paganism to classic non Christian religions such as Buddhism and Hinduism All books but the summary volume Truth and Error contain five sections A concise introduction to the group being surveyed An overview of the group s theology in its own words Tips for witnessing effectively to members of the group A bibliography with sources for further study A comparison chart that shows the essential differences between biblical Christianity and the group Truth and Error the last book in the series consists of parallel doctrinal charts compiled from all the other volumes Three distinctives make this series especially useful to readers Information is carefully distilled to bring out truly essential points rather than requiring readers to sift their way through a sea of secondary details Information is presented in a clear easy to follow outline form with menu bar running heads This format greatly assists the reader in quickly locating topics and details of interest Each book meets the needs and skill levels of both nontechnical and technical readers providing an elementary level of refutation and progressing to a more advanced level using arguments based on the biblical text The writers of these volumes are well qualified to present clear and reliable information and help readers to discern truth from falsehood
