In Role Patrick Verriour, 1994. One of the English speaking world's leading drama educators skilfully demonstrates how classroom drama can be used as an exciting medium for integrating learning across the curriculum so that students of all ages discover fresh perspectives in their understanding of the world in which they live and different ways of expressing their thoughts and ideas. In this way bridges are built between the arts in general and drama in particular and other areas of the curriculum. Patrick Verriour is convinced that drama has a powerful role to play in facilitating change within the classroom, seeing it as absolutely central to all students' learning.
