Social Identities Steve Spencer,Gary Taylor,2004-08-02 Social Identities Multidisciplinary Approaches attempts to make sense of the increasingly complex ways in which we define ourselves and others It recognises that we are not simply individuals or members of a certain class or a certain nationality Rather each of us comprises a rich blend of various identities The book provides not only an eclectic spectrum of the forms of identity and influences through which identities are formed but also critical treatment of the theoretical tools used to understand these phenomena

Community J. Toby Reiner,2025-07-04 People often yearn for a sense of belonging and connection they long to live in a meaningful community In the modern age however this often seems to be a chimera Does modernity doom us to be atomised individuals Does the promise of community imply a loss of autonomy and freedom and entrench inequality and hierarchy In this book J Toby Reiner examines the debates surrounding community in modern political and social thought He outlines how liberals conservatives socialists and nationalists have historically conceived of the ties that bind together political communities and how recent political philosophers such as Rawls Taylor Walzer and Sandel have debated the nature and merits of community in the contemporary world He goes on to consider how prominent conceptions of community relate to

and are in tension with characteristically modern ideals such as equality and freedom He deftly shows how a meaningful conception of community can be reconciled with the demands of modern liberal societies Filled with real life examples and thought provoking discussions of the key debates this book will be essential reading for students of contemporary political theory and philosophy and of sociology **Magic and Divination in the Old Testament** Solomon Nigosian,2008-07-25

Explores the practices and rituals associated with magic and divination among the ancient Israelites as documented in the Old Testament **Magical Interpretations, Material Realities** Henrietta L. Moore,Todd Sanders,2003-11-17 Magical Interpretations Material Realities brings together many of today s best scholars of contemporary Africa The theme of witchcraft has long been associated with exoticizing portraits of a traditional Africa but this volume takes the question of occult as a point of entry into the moral politics of some very modern African realities James Ferguson University of California USA These essays bear eloquent testimony to the ongoing presence and power of the occult imaginary and of the intimate connection between global capitalism and local cosmology in postcolonial Africa A major contribution to scholarship that aims to rework the divide between modernity and tradition Charles Piot Duke University USA This volume sets out recent thinking on witchcraft in Africa paying particular attention to variations in meanings and practices It examines the way different people in different contexts are making sense of what witchcraft is and what it might mean Using recent ethnographic materials from across the continent the volume explores how witchcraft articulates with particular modern settings for example the State in Cameroon Pentecostalism in Malawi the university system in Nigeria and the IMF in Ghana Sierra Leone and Tanzania The editors provide a timely overview and reconsideration of long standing anthropological debates about African witchcraft while simultaneously raising broader concerns about the theories of the western social sciences **Fictional Practice: Magic, Narration, and the Power of Imagination** ,2021-09-27 To what extent were

practitioners of magic inspired by fictional accounts of their art In how far did the daunting narratives surrounding legendary magicians such as Theophilus of Adana Cyprianus of Antioch Johann Georg Faust or Agrippa of Nettesheim rely on real world events or practices Fourteen original case studies present material from late antiquity to the twenty first century and explore these questions in a systematic manner By coining the notion of fictional practice the editors discuss the emergence of novel imaginative types of magic from the nineteenth century onwards when fiction and practice came to be more and more intertwined or even fully amalgamated This is the first comparative study that systematically relates fiction and practice in the history of magic Disgust and Desire Kristen Wright,2018-01-03 Monsters have taken many forms across time and cultures yet within these variations monsters often evoke the same paradoxical response disgust and desire We simultaneously fear monsters and take pleasure in seeing them and their role in human culture helps to explain this apparent contradiction Monsters are created in order to delineate where the acceptable boundaries of action and emotion exist However while killing the monster allows us to cast out socially unacceptable desires the prevalence of monsters in both

history and fiction reveals humanity's desire to see and experience the forbidden. We seek to write about and display monsters as both a warning and wish fulfilment and monsters therefore reveal that the line between desire and disgust is often thin. Looking across genres, subjects and periods, this book examines what our conflicted reaction to the monster tells us about human culture.

Archaeological Sites as Space for Modern Spiritual Practice Raimund Karl, Jutta Leskovaar, 2018-11-07. Archaeological heritage can be disputed, especially where it is important to religions and their practitioners. While the destruction of archaeological sites in war, often due to religious fervour, is frequently making the headlines, apparently lesser disputes about local heritage sites go unreported. This book focuses on these lesser but much more frequent potential conflicts between archaeological heritage management and conservation on the one hand and practitioners of religious beliefs who use archaeological heritage in their practice on the other. By exploring case studies from Austria, the Czech Republic, Estonia, France, Norway, Romania, Russia, Spain, Sweden and Wales, this book examines the interaction between spiritual practice and monuments conservation. This book will be of great interest to heritage professionals, archaeologists, historians, conservationists and religious practitioners alike through its exploration of various kinds of interactions between these different heritage communities and their interests in archaeology.

Handbook of Contemporary Paganism Murphy Pizza, James R. Lewis, 2009. Contemporary Paganism is a movement that is still young and establishing its identity and place on the global religious landscape. The members of the movement are simultaneously growing, unifying and maintaining its characteristic diversity of traditions, identities and rituals. The modern Pagan movement has had a restless formation period but has also been the catalyst for some of the most innovative religious expressions, praxis, theologies and communities. As Contemporary Paganism continues to grow and mature, new angles of inquiry about it have emerged and are explored in this collection. This examination and study of contemporary Paganism contributes new ways to observe and examine other

religions where innovations paradoxes and inconsistencies can be more accurately documented and explained **The A to Z of Witchcraft** Michael D. Bailey, 2009-09-28 A great deal has been written about the history of witchcraft but much of what has been written is unreliable exaggerated or inaccurate This problem is especially acute in regard to modern witchcraft or Wicca and its supposed connections to historical witchcraft in medieval and early modern Europe The A to Z of Witchcraft provides a reliable reference source for both academics and general readers interested in the actual historical development of witchcraft in the western world The focus of the dictionary is on Western Europe during the late medieval and early modern periods when the specific idea of diabolical witchcraft developed and when the so called great witch hunts occurred Entries are also provided that deal with magic and witchcraft in the earlier Christian period and classical antiquity as well as with the lingering belief in witchcraft in the modern world and with the development of the modern neo pagan religion of witchcraft also known as Wicca For comparative purposes some entries have been provided that deal with aspects and systems of magic found in other parts of the world that seem to bear some relation to the idea of witchcraft as it developed in Christian Europe The regions dealt with are mainly Africa along with such New World practices as Voodoo and Santeria Entries in the dictionary cover important people in the history of witchcraft from the medieval inquisitors and early modern magistrates who developed the stereotype of the historical witch to the modern individuals who have developed the religion of Wicca Also included are legal terms and concepts important to the prosecution of the supposed crime of witchcraft and religious and theological concepts pertaining to the demonic elements that came to be associated with witchcraft as well as more popular beliefs and aspects of common folklore and mythology that became attached to the developing idea of witchcraft Geographic entries are also included discussing the scope of witch hunting in various reg
