The Best of All Possible Islands Richard Maddox,2012-02-01 The 1992 world s fair in Seville serves as a vantage point from which to examine Spain s developing democracy and Europe s emerging unification according to Richard Maddox in The Best of All Possible Islands Visited by over fourteen million people the Seville Expo drew the participation of more than one hundred countries and dozens of corporations As part of Spain s miraculous year in which Barcelona hosted the summer Olympics and Madrid was designated the Cultural Capital of Europe the Expo advanced a remarkably optimistic cosmopolitan and liberal vision of the past present and future of the new Spain and the new Europe Yet no aspect of this vision went unchallenged and the Expo was at the center of fierce political rivalries and dramatic manifestations of popular discontent In an engaging and accessible narrative Richard Maddox demonstrates how visitors and local residents understood the significance of the event in ways that largely escaped the knowledge and control of the Expo s organizers Understanding how and why this occurred casts critical light on the transformation of Spain since the end of the Franco dictatorship in 1976 and illuminates some of the key cultural and political dilemmas that processes of European and global integration pose for citizens of democratic societies
