

Magnetism to Electricity

⌘ Joseph Henry and Michael Faraday discovered that magnetism could also produce electric current. This is called *electromagnetic induction*.

Current moves left in wire.

⌘ If a magnet is moved back and forth through a coil of wire, current can be made to flow through the wire. This is the idea behind electric generators and transformers.

Current moves right in wire.

Electricity, Magnetism, and Light Wayne M. Saslow, 2002-02-19 A very comprehensive introduction to electricity, magnetism, and optics ranging from the interesting and useful history of the science to connections with current real world phenomena in science, engineering, and biology to common sense advice and insight on the intuitive understanding of electrical and magnetic phenomena. This is a fun book to read, heavy on relevance with practical examples such as sections on motors and generators as well as take home experiments to bring home the key concepts. Slightly more advanced than standard freshman texts for calculus-based engineering physics courses, with the mathematics worked out clearly and concisely. Helpful diagrams accompany the discussion. The emphasis is on intuitive physics, graphical visualization, and mathematical implementation. *Electricity, Magnetism, and Light* is an engaging introductory treatment of electromagnetism and optics for second semester physics and engineering majors. Focuses on conceptual understanding with an emphasis on relevance and historical development. Mathematics is specific and avoids unnecessary technical development. Emphasis on physical concepts, analyzing the electromagnetic aspects of many everyday phenomena, and guiding readers carefully through mathematical derivations. Provides a wealth of interesting information from the history of the science of electricity and magnetism to connections with real world phenomena in science, engineering, and biology to common sense advice and insight on the intuitive understanding of electrical and magnetic phenomena. *A Treatise on Magnetism and Electricity*
