Islands Magazine ,1996-09 *The Work of Ismar David* Helen Brandshaft, 2005 Ismar David made his career over a broad spectrum of applied art His work is exciting not merely because of its technical excellence but because it resonates with clarity and color of a distinct and distinctive artistic voice The Work of Ismar David collects for the first time the designer s lifework It follows his artistic development from his training in Berlin through his career in Jerusalem and New York In 1954 David Hebrew indelibly changed the faces of modern Hebrew typography Among David s most important book projects are Les Pens es 1971 The Psalms 1973 Our Calligraphic Heritage 1979 and The Hebrew Letter Calligraphic Variations 1990 His designs for architecture integrate space and ornament and create public areas graced with decorative detail rarely seen in contemporary settings A bibliography of known book work is included Monhegan Mark Warner, 2008-05-25 What draws visitors to Monhegan a small island off mid coast Maine It is not just the island s timeless atmosphere and beauty but the quality of the light that has always been a magnet to artists and photographers as well as to vacationers Now nature photographer and writer Mark Warner has produced a keepsake cum guidebook that is a must have for anyone who visits or dreams of visiting one of Maine s most fabled islands Studies in Urbanormativity Alexander R. Thomas, Gregory M. Fulkerson, 2013-12-19 The world has been witnessing a long unfolding process of urbanization that not only has altered the structural basis of society in terms of political economy but has also symbolically relegated rural people and life to a secondary or deviant status through an ideology of urbanormativity Both structural and cultural changes rooted in urbanization are connected in complex ways to spatial arrangements that can be described in terms of inequality and uneven development Through a focus on localities Studies in Urbanormativity Rural Community in Urban Society examines the implications of urbanization and its corresponding ideology Urbanormativity justifies rural domination by holding urban life as the standard against which rural forms are compared and deemed to be irregular inferior or deviant Urban production as conceptualized in this book is inherently exploitative of rural resources natural social cultural and symbolic As this exploitation advances a wake of entropic conditions is left behind in the forms of degraded landscapes broken social institutions and denigrated communities cultures and identities Edited by Gregory M Fulkerson and Alexander R Thomas Studies in Urbanormativity engages a topic on which scholars have been surprisingly silent Designed for advancing theory and practice the chapters provide new theoretical tools for understanding the complex relationship between the urban and rural While primarily intended for scholars and practitioners interested in rural life rural policy and community development the insights of this book will also be of interest to scholars studying various forms of cultural and social domination as well as identity politics The Forty Years that Created America Edward M. Lamont, 2014-10-03 The names Jamestown and Plymouth have become synonymous for most students of American history with founding and birth both of the American

nation and of freedom and democracy themselves In this book author Ted Lamont asks us to reconsider our country's formative years and explore the stories, lives, achievements and failures of America's earliest founding fathers those who paved the way for the Colonial Era and the American Revolution They were explorers investors passionate religious leaders and determined developers who struggled for generations to successfully plant the English flag in this strange new soil Lamont deftly details the ways in which the stories and struggles of figures like Sir Walter Raleigh Bartholomew Gosnold Richard Hakluyt Sir Ferdinando Gorges and Captain John Smith were not just related but connected in ways that help us better understand the colonies and culture born of their efforts The infancy of America from Roanoke's founding in 1585 through the firm establishment of Jamestown and Plymouth in 1625 is where we first see planted the seeds of the rest of America's colonial economic political and cultural history that was the immensely difficult and often overlooked first step toward the New World we are still working to perfect

Maine Ghosts and Legends Thomas Verde, 2013-10-16 Maine has a rich supernatural history and ghost stories from the state are as varied as they are prolific Freelance writer and reporter Tom Verde first became interested in such eerie occurrences while researching first hand encounters with ghosts for a series of public radio programs This book recounts some of the spine tingling tales he uncovered in his research including The dagger wielding shade who terrorized a Portland couple The murdered Indian who revisited Means's Tavern Famed diva Lillian Nordica whose voice still echoes through the Farmington auditorium named in her honor The hostile spirit who tried to frighten the tenants out of an Orrington house Even an entire phantom ship bound eternally for Freeport These are not fictitious creations of literary imagination People from all walks of life including many who were positive they would never believe in ghosts attest to these encounters
