Varied Voices is an ethnographic study of language and literacy learning in a culturally and linguistically diverse Moroccan school. There, children and teachers turn classrooms into social spaces as they work to build learning communities. Suitable for MATESOL courses and in-service training, Varied Voices is a must read for all instructors working with language minority students at the elementary and secondary school levels. **English-whole Movement** Mei-Yu Lu, 1998 *Literacy, Access, and Libraries Among the Language Minority Population* Rebecca Constantino, 1998-02-19 The essays contained in this work explore the issues of literacy among a community that is often neglected: those whose native language is not English.

Success Or Failure? Enrique T. Trueba, 1987 **Language Minority Education in Great Britain** Sandra McKay, 1991 **English-whole Movement** Mei-Yu Lu, 1998 Developing Literacy in Second-Language Learners Diane August, Timothy Shanahan, 2017-09-25 This volume reports the findings of the National Literacy Panel on Language Minority Children and Youth. The formal charge to the panel, a distinguished group of expert researchers in reading, language, bilingualism, research methods, and education, was to identify, assess, and synthesize research on the education of language minority children and youth with respect to their attainment of literacy. Funding for the project was provided to the Center for Applied Linguistics and SRI International by the U.S. Department of Education's Institute of Education Sciences and the Office of English Language Acquisition, with additional funding from the National Institute of Child Health and Human Development provided through the U.S. Department of Education. The authors review the state of knowledge on the development of literacy in language minority children and youth, organized around five specific themes: Development of Literacy in Second Language Learners, Cross-linguistic Relationships in Second Language Learners, Sociocultural Contexts, and Literacy Development, Educating Language Minority Students, Instruction and Professional Development, and Student Assessment. Each part begins with a synthesis chapter that spells out the research questions for the chapters in that part, provides background information, describes the methodology used, summarizes the empirical findings, reported addresses methodological issues, and makes recommendations for future research. The following chapters provide more detail on the individual studies reviewed for specific research questions. The volume includes two opening chapters: Introduction and Methodology and Demographic Overview, a closing chapter that summarizes the report, identifies cross-cutting themes, and makes recommendations for future research, and a CD-ROM providing a searchable database of research references. The audiences for this volume include researchers interested in the development of literacy in language minority children and youth, as well as those studying literacy more generally and those concerned with improving the education of this population of students.
