

Turrini divides the study into two parts. The first treats the formation, culture, and career of Crescenzi, and is as much a description of what the prelate was *not* as what he was. Her examination of his nunziature to France, of his obstinate attitudes, and of his attempt to retain a devotional focus in the midst of a diplomatic enterprise left me wondering why he was sent in the first place. The catalogue of his small library indicates he was not a scholar or even especially studious, but rather one whose interest in hagiography and apologetic literature reinforced his devotional and spiritual outlook. The second part treats his archepiscopal administration, and Turrini argues that "confession" is the key to understanding his personal spiritual life and his archdiocesan program to actualize the decrees of the Council of Trent.

The heart of the book is an analysis of his pastoral action. Crescenzi desired to set a spiritual example for his people and used the visitation for that purpose. He held monthly conferences for priests at which a designated theologian would explain sticky cases of moral theology. He watched carefully over monasteries and supported schools of Christian doctrine, hospitals, and other institutions. Crescenzi aimed all of this, according to Turrini, at conversion through intensification of interior devotion. She includes a catalogue of the books he owned in an appendix, plus thirty-one graphs and tables illustrating diocesan, parish, monastic, and confraternal activities. One interesting point is related on the contemporary debate regarding the salvation of unborn children: Crescenzi exhorted local priests to learn enough of obstetrics to teach parents precautions necessary to avoid spontaneous abortion (pp. 79-80).

Turrini's discussion of confraternities and processions is reminiscent of studies utilizing anthropological methodology to analyze Italian religious life, but some will argue that the religious consciousness of an era cannot be understood through the study of individuals, no matter how "average." Some will question, or attack as anachronistic, her use of the term *aggiornamento* (p. 106) to describe Crescenzi's use of various pastoral models and of cautious adaptation to contemporary pressures in order to promote observance of the Tridentine decrees. Still, this is an important, solid study which will be useful to scholars interested in religiosity during the Enlightenment in Italy.

This volume contains twelve articles from the first nine years of *Revue des études maistriennes* (which appeared in mimeographed form for its first two years as *Études maistriennes*) and one more recent study by the editor Richard Lebrun. The selection here is excellent. Not only has Lebrun chosen the studies most fitting to stand on their own in an anthology, but he has surveyed them in an introduction that prepares the reader to see the separate

## **Maistre Studies:**

**Joseph de Maistre's Life, Thought, and Influence** Richard A. Lebrun, 2001-10-08 Joseph de Maistre 1753-1821 was an extraordinarily gifted and insightful commentator on foundational developments that have shaped our modern world. His reaction to the Enlightenment and the French Revolution though hostile was remarkably open and included innovative and still valuable theorizing about such human phenomena as violence and unreason. The political and theoretical issues he addressed continue to challenge us today. In *Joseph de Maistre's Life, Thought, and Influence*, leading Maistre scholars offer interpretations of his thought and make available in English recent French scholarship on his life and work. They provide a portrait of Maistre as a significant thinker in numerous fields, upsetting the image of him as a backward-looking reactionary, a reinterpretation furthered by contemporary interest in Counter-Enlightenment thought in general. *Joseph de Maistre's Life, Thought, and Influence* is a valuable resource providing not only a cross-section of current Maistre scholarship but also notes and biographical suggestions for further study. Contributors include Owen Bradley, University of Tennessee; Jean-Louis Darcel, Université de Savoie; Jean Dinezet, former OECD director general; Graeme Garrard, University of Wales; Richard A. Lebrun, Vera Miltchyna, Writer's Union, Moscow; Jean-Yves Pranchère, independent scholar; W. Jay Reedy, Bryant College; and Benjamin Thurston, D.Phil. candidate, Oxford.

**Conservatism** Jerry Z. Muller, 2020-05-05 At a time when the label conservative is indiscriminately applied to fundamentalists, populists, libertarians, fascists, and the advocates of one or another orthodoxy, this volume offers a nuanced and historically informed presentation of what is distinctive about conservative social and political thought. It is an anthology with an argument locating the origins of modern conservatism within the Enlightenment and distinguishing between conservatism and orthodoxy. Bringing together important specimens of European and American conservative social and political analysis from the mid-eighteenth century through our own day, *Conservatism* demonstrates that while the particular institutions that conservatives have sought to conserve have varied, there are characteristic features of conservative argument that recur over time and across national borders. The book proceeds chronologically through the following sections: Enlightenment Conservatism (David Hume, Edmund Burke, and Justus Möser); *The Critique of Revolution* (Burke); Louis de Bonald; Joseph de Maistre; James Madison and Rufus Choate; Authority (Matthew Arnold); James Fitzjames Stephen; Inequality (W. H. Mallock); Joseph A. Schumpeter; *The Critique of Good Intentions* (William Graham Sumner); War (T. E. Hulme); Democracy (Carl Schmitt); Schumpeter; *The Limits of Rationalism* (Winston Churchill); Michael Oakeshott; Friedrich Hayek; Edward Banfield; *The Critique of Social and Cultural Emancipation* (Irving Kristol); Peter Berger; and Richard John Neuhaus; Hermann Lubbe; and *Between Social Science and Cultural Criticism* (Arnold Gehlen); Philip Rieff. The book contains an afterword on recurrent tensions and dilemmas of conservative thought.

Judaism have in common Such figures include Mu ammad Ibn abd al Wa hab Count Nikolaus Zinzendorf Jonathan Edwards John Wesley Jean Jacques Rousseau and Israel Ba al Shem Tov The book is a unique and comprehensive study of the conflicted relationship between the evangelical movements in all three Abrahamic religions and the ideas of the Enlightenment and Counter Enlightenment Centered on the 18th century the book reaches back to the third century for precedents and context and forward to the 21st for the legacy of these movements This text appeals to students and researchers in many fields including Philosophy and Religion their histories and World History while also appealing to the interested lay reader

**The ^ANew Inquisitions** Arthur Versluis, 2006-07-27 The only book of its kind The New Inquisitions is an exhilarating investigation into the intellectual origins of totalitarianism Arthur Versluis unveils the connections between heretic hunting in early and medieval Christianity and the emergence of totalitarianism in the twentieth century He shows how secular political thinkers in the nineteenth century inaugurated a tradition of defending the Inquisition and how Inquisition style heretic hunting later manifested across the spectrum of twentieth century totalitarianism An exceptionally wide ranging work The New Inquisitions begins with early Christianity and traces heretic hunting as a phenomenon through the middle ages and right into the twentieth century showing how the same inquisitional modes of thought recur both on the political Left and on the political Right

**The Headless Republic** Jesse Goldhammer, 2005 In The Headless Republic Jesse Goldhammer explores how the French revolutionaries retrieved a set of ideas about founding violence from the classical Romans and early Christians and incorporated it into postrevolutionary debates that echoed into the twentieth century By linking sacrifice as expressed in revolutionary practices to modern French theory Goldhammer shows how ancient ideas of violent political renewal made their way into the contemporary age Goldhammer elucidates the theoretical and practical significance of sacrificial violence during the Revolution and then turns his attention to postrevolutionary intellectuals whose work is inspired by the founding sacrifices of the French Republic Showing how Georges Bataille Joseph de Maistre and Georges Sorel adapted concepts of sacrifice to their own particular political agendas whether reactionary or revolutionary Goldhammer challenges conventional readings of these three thinkers as bloodthirsty intellectuals Instead he argues their work reveals the limits of violence as an agent of political change and attacks the forms of violence later adopted by fascist regimes More broadly Goldhammer makes the case for including ancient concepts of collective bloodshed in the modern lexicon of political violence

**Studies in Freemasonry and the Compagnonnage** René Guénon, 2004 Ren Gu non 1886 1951 was one of the great luminaries of the twentieth century whose critique of the modern world has stood fast against the shifting sands of intellectual fashion His extensive writings now finally available in English are a providential treasure trove for the modern seeker while pointing ceaselessly to the perennial wisdom found in past cultures ranging from the Shamanistic to the Indian and Chinese the Hellenic and Judaic the Christian and Islamic and including also Alchemy Hermeticism and other esoteric currents they direct the reader also to the deepest

level of religious praxis emphasizing the need for affiliation with a revealed tradition even while acknowledging the final identity of all spiritual paths as they approach the summit of spiritual realization Studies in Freemasonry and the Compagnonnage is both an attempt to rediscover the lost roots of Masonry and a fascinating look into the many controversies swirling around the subject of Masonry in serious intellectual circles during the first half of the twentieth century It must also be classed along with Symbols of Sacred Science Spiritual Authority and Temporal Power Traditional Forms and Cosmic Cycles The Esoterism of Dante Insights into Christian Esoterism and Insights into Islamic Esoterism and Taoism not to mention related sections in many of his other books as one of Ren Gu non s masterful excursions into esoteric myth symbolism and secret history Freemasonry may indeed be as Gu non ultimately concluded a largely degenerated and thus no longer strictly operative offshoot of a true initiatory lineage yet its symbolism like that of the original Rosicrucians remains profound traditional and therefore ultimately legitimate And given that the Spirit bloweth where it listeth it is always possible that symbolism of this order may awaken in a receptive soul intimations of the Truth and the Way which can be of inestimable of value in the path to the Path the quest for a living initiatory spirituality

Joseph de Maistre had no doubt that the root causes of the French Revolution were intellectual and ideological The degeneration of its first immense hopes into the Reign of Terror was not the result of a ruthless competition for power or of prospects of war He echoed Voltaire s boast that books did it all The philosophers of the Enlightenment were the architects of the new regimes and the shadow between revolutionary idea and social reality could be traced directly to a fatal flaw in their thought De Maistre asserts that society is the product not of men s conscious decision but of their instinctive makeup Both history and primitive societies illustrate men s gravitation toward some form of communal life Since government is in this sense natural it can not legitimately be denied revoked or even disobeyed by the people Sovereignty is not the product of the deliberation or the will of the people it is a divinely bestowed authority fitted not to man s wishes but to his needs The French Revolution to de Maistre s mind was little more than the expansion conversion pride and consequent moral corruption of the philosophers It differs in essence from all previous political revolutions finding a parallel only in the biblical revolt against heaven These sentiments are the passionate and awe inspired language of one who sees the political struggles of his time on a huge and cosmic scale judges events sub specie aeternitatis under the aspect of eternity and looks on revolution and counter revolution as a battle for the soul of humanity The force of this classic volume still resonates in present day ideological struggles *More Moderate Side of Joseph de Maistre* Cara Camcastle,2005 The More Moderate Side of Joseph de Maistre expertly contextualizes his work within the historical events and intellectual debates that emerged in the aftermath of the French Revolution Camcastle sheds new light on Maistre s conception of government as being made up of groups in dynamic counterbalance and on the system of inconvertible paper money that he developed a century before a similar system was universally adopted in the twentieth century Camcastle provides a more complete and balanced picture of Maistre s political writings through original interpretations of his published works and translations from French and Italian into English of previously unpublished writings that substantiate key points *Revolution and the Republic* Jeremy Jennings,2011-06-16 A history of political thought in France from the French Revolution of 1789 to the present day

**Aberrations** David William Bates, 2002 In *Enlightenment Aberrations* David W Bates shows that error was a complex important and by no means entirely negative concept in Enlightenment thought one that had a decisive influence in revolutionary debates on political identity and national history What can it mean to write a history of error In Bates's view all philosophy insofar as its project is the search for truth begins in error If truth is posited as a goal to be attained not as a given of some kind then error assumes a central role in the quest for truth Going beyond both liberal celebrations and postmodern critiques of Enlightenment reason Bates reveals just how crucial the problematic relation between human wandering and the mystery of truth was in eighteenth century thought The author draws on a wide range of Enlightenment thinkers including Etienne Bonnot de Condillac Jean d'Alembert Marie Jean Antoine Nicolas Caritat Marquis de Condorcet Jean Jacques Rousseau and Charles Bonnet showing how they wrestled with the risk and promise of error He then demonstrates how the concept of error and its dialectical relationship to truth played out in the political culture of the French Revolution particularly in the Terror In the final chapters Bates looks at the post revolutionary transformations of the Enlightenment discourse of error and its subsequent history in modern European thought *Monthly Bulletin of the Carnegie Library of Pittsburgh* Carnegie Library of Pittsburgh, 1906 **Among Our Books** Carnegie Library of Pittsburgh, 1906 *Monthly Bulletin* Carnegie Library of Pittsburgh, 1905 **Belgium and the Holy See from Gregory XVI to Pius IX (1831-1859)** Vincent Viaene, 2001 The Roman orientation was the keystone of the religious revolution of the Catholic revival New or renewed congregations priests close to the people militant laymen gave a decidedly social activist turn to the faith At this crossroad of religion modernity the papacy could all the more make its weight felt as the Belgian Constitution granted the clergy a unique liberty in relations with Rome Over time the Vatican would exert a powerful impact on the shape of modern politics in Belgium The special relationship between Belgium Rome was no one way traffic From a somewhat curious ecclesiastical court hopelessly entangled in the old spider web of the Papal States the papacy became the institution we know today the leader of a modern Catholic opinion Belgium played a role of major importance in this transformation The central theme of the book can therefore be defined as a process of mutual integration if not acculturation across the Alps *Three Critics of the Enlightenment* Isaiah Berlin, 2000-10 Princeton is pleased to return to print Isaiah Berlin's essays on three uncelebrated thinkers Vico Hamann and Herder which have been edited by Hardy to introduce this important work to a broader readership These essays are not marginal ruminations but rather Berlin's most important studies in the history of ideas *Political Violence* Panu-Matti Pöykkö, Pamela Slotte Russo, Viljami Salo, 2024-11-18 This volume brings together scholars from intellectual history social sciences philosophy and theology to evaluate central questions concerning political violence and aggression This multidisciplinary collection of essays critically investigates forms and modes of justification of political violence from historical and contemporary perspectives especially within the context of the development of the idea of Europe and modern European identity What is meant by political violence and aggression

When and under which conditions is it justified Who has the right to exercise it and against whom Answers differ depending on various factors such as pre established ends available resources and possibilities of action historical and socio economic context the ideological political and religious theological background of the actors The volume pays special attention to a how the above questions have been addressed and answered political philosophical and theological thought and b what kind of ideological currents and historical events lay at the background of such considerations

**Joseph de Maistre** Richard Lebrun, 1988 Joseph de Maistre is the first full biography in English of one of the founders of conservatism and the first to have benefited from access to the family archives Richard Lebrun shows that understanding the dynamics of Maistre's political evolution contributes not only to our knowledge of Continental conservatism as it emerged from the crucible of the French Revolution but also to a better understanding of the roots of modern conservatism Even in France where his stature as a great stylist generally has been acknowledged Maistre is often dismissed with a brief remark about his scandalous comments on bloodshed and war Lebrun argues that this dismissal is unwarranted study of Maistre's life and thought is worthwhile in itself and provides useful insights into the factors that encourage the formulation and acceptance of conservatism or reactionary ideologies Lebrun shows how Maistre became a renowned defender of throne and altar by detailing the formative influences the Savoyard roots religious heritage and predominant intellectual influences of Maistre's experience before 1794 The Joseph de Maistre revealed here is a more complex figure than either the bloody minded apologist for conservatism portrayed by his liberal critics or the steadfast Church Father of his traditional Roman Catholic admirers Maistre was a scholarly magistrate in the tradition of Montesquieu a man who had been open to the trends of his time but was profoundly shaken by the violence of the French Revolution Appalled by the prospect of chaos he used his rhetorical skills as a lawyer to defend monarchical institutions and traditional Catholicism Lebrun argues that only with the opening of the family archives and the discoveries in recent studies are we able to appreciate Maistre's struggles to understand the upheavals of his time his doubts and hesitations and his reasons for taking the public positions he chose
