The Unread Vision Keith F. Pecklers, 1998 Biographies have been written of the liturgical pioneers in the United States and scholars have studied particular aspects of the movement This volume is the first to treat the movement synthetically As a social history the liturgical movement in the United States is examined not only from the perspective of the people who were behind it but also from its socio cultural context treating such issues as immigration ethnic identity and poverty in the years of the Great Depression Grounded in the theology of the Mystical Body of Christ the pioneers call for full and active liturgical participation necessarily included social responsibility At the heart of the liturgical movement in the United States in the 1930s and 1940s was one fundamental principle liturgy and social justice are inseparable The author calls for a new liturgical movement and for the rediscovery of that inseparable relationship within the contemporary American church

The Junzi Umberto Bresciani, 2025-07-01 It is a deeply rooted habit among the Chinese to divide people into two categories the junzi gentlemen decent people those with a sense of justice noble spirited men and the xiaoren petty men mean spirited individuals who look only to personal profit and never to the common good This habit too is a legacy of Confucius who transformed the meaning of these two labels The term junzi rendered kunshi in Japanese kwunca in Korean and qu n t in Vietnamese already existed before Confucius and its original meaning was simply to indicate a person's social status As a social designation junzi meant son zi of a feudal lord jun or of an aristocrat and thus a member of the noble class that governed under that system In Confucius's time society was divided into two classes the junzi the aristocrats and the xiaoren the common people the masses The original meaning occasionally resurfaces in the Analects as we will point out in due course But in most cases the term is used with a different sense Confucius transformed it into a moral qualification from son of a feudal lord or an aristocrat to a person who has the ideal qualities of a feudal lord or an aristocrat From a social qualification noble man by blood to an ethical one noble man by spirit The junzi is according to Confucius the ideal human being Naturally its opposite the xiaoren then does not in most cases mean someone of humble social origin but rather a petty selfish man unable to see beyond his own narrow personal interests As we will see the junzi of Confucius is not a hereditary condition it is an ideal of life a goal to be achieved which any person may aspire to not just those of noble birth The descriptions Confucius gives us of the personality of the junzi or conversely the xiaoren are in fact his definitions of the ideal human being how in his view a person worthy of the name human should or should not behave Umberto Bresciani 1942 Born
