Pioneers Rick Steber, 1993-07 Folk tales from the days of the Oregon Trail

Cowboys Rick Steber, 1988-04 The men who ride the open range of the far West are known under a variety of names vaquero range rider mustanger and buckaroo but the name most commonly known is cowboy The nature of a cowboy s work demands independence and toughness He is a man of action yet the long lonely hours spent in the saddle provide ample time to develop a unique outlook on life Simply put a cowboy s tenet is What cannot be cured is endured And endured with cheerfulness and good humor It is far better to joke about the droughts windstorms blizzards outlaw mustangs and loco cattle than to complain The cowboy would never have existed without his horse Like the cowboy the horse is referred to by an assortment of names mustang bronco cayuse and sometimes jughead broomtail nag hay burner plug and other even less complimentary epithets The ancestors of the western horse date back to the animals brought to America by Cortez and the conquistadores As the Spanish mounts escaped were lost or stolen the horse began its phenomenal spread across western North America The high desert was first settled by daring stockmen who drove in foundation herds numbering in the thousands The cattle thrived on the native grasses and when the steers were ready for market cowboys on horseback drove them to railroad towns in the Midwest With the invention of barbed wire in 1874 and an influx of homesteaders who claimed waterholes and divided up the range the heyday of the big outfits and their cowboys passed into history But as long as there is open sky rimrock bunch grass sagebrush and juniper cowboys will still ride the range

Campfire Stories Rick Steber, 1994-03 The storyteller spins a web of fantasy while the campfire sends a shower of sparks leaping into the night sky to drift among the ancient stars It is in this manner that the history of mankind has been passed from one generation to the next In North America the native people formed their cultures and spiritual beliefs through stories Stories described the origins of earth and mankind of floods fires hunts wars heros the supernamral myths and legends Young people knew what had happened in the world because their elders communicated it to them around the campfire The first Europeans to make their way among the Indians were mountain men who told fantastic and mystifying tales of great cities to the east and other worlds that existed across the great shiny waters Each successive wave of white invaders brought with it a different blend of fact and fiction In today s world it might appear that campfire stories can no longer compete with movies and television But no special effect can ever come close to the power and impact of human imagination Try reading or telling a story around the campfire Watch the faces of your listeners and know the value and
