

Music And Opera

Joseph Kerman

Music And Opera:

Music and the Theater, 1970 Modernism and the Cult of Mountains: Music, Opera, Cinema Christopher Morris, 2016-04-15 Adopting and transforming the Romantic fascination with mountains modernism in the German speaking lands claimed the Alps as a space both of resistance and of escape This new cult of mountains reacted to the symptoms and alienating forces associated with modern culture defining and reinforcing models of subjectivity based on renewed wholeness and an aggressive attitude to physical and mental health The arts were critical to this project none more so than music which occupied a similar space in Austro German culture autonomous pure sublime In *Modernism and the Cult of Mountains* opera serves as a nexus shedding light on the circulation of contesting ideas about politics nature technology and aesthetics Morris investigates operatic representations of the high mountains in German modernism showing how the liminal quality of the landscape forms the backdrop for opera's reflexive engagement with the identity and limits of its constituent media not least music This operatic reflexivity in which the very question of music's identity is repeatedly restaged invites consideration of musical encounters with mountains in other genres and Morris shows how these issues resonate in Strauss's Alpine Symphony and in the Bergfilm mountain film By using music and the ideology of mountains to illuminate aspects of each other Morris makes an original and valuable contribution to the critical study of modernism *Opera and the Morbidity of Music* Joseph Kerman, 2008-04-08 The death of classical music the distinguished critic and musicologist Joseph Kerman declares is a tired vacuous concept that will not die In this wide ranging collection of essays and reviews Kerman examines the ongoing vitality of the classical music tradition from the days of Guillaume Dufay John Taverner and William Byrd to contemporary operas by Philip Glass and John Adams Here are enlightening investigations of the lives and works of the greatest composers Bach and his Well Tempered Clavier Mozart's and Beethoven's piano concertos Schubert's songs Wagner's and Verdi's operas Kerman discusses *The Magic Flute* as well as productions of the Monteverdi operas in Brooklyn and the Ring in San Francisco and Bayreuth He also includes remembrances of Maria Callas and Carlos Kleiber that make clear why they were such extraordinary musicians Kerman argues that predictions let alone assumptions of the death of classical music are not a new development but part of a cultural transformation that has long been with us Always alert to the significance of historical changes from the invention of music notation to the advent of recording he proposes that the place to look for renewal of the classical music tradition in America today is in opera in a flood of new works the rediscovery of long forgotten ones and innovative productions by companies large and small Written for a general audience rather than for experts Kerman's essays invite readers to listen afresh and to engage with his insights into how music works His gift is so uncommon as to make one sad Alex Ross has said *The Standard Operas* George Putnam Upton, 1899 **What We Hear in Music** Anne Faulkner Oberndorfer, 1921 Music William Smythe Babcock Mathews, 1896 *School of Music, Theatre & Dance* (University of Michigan) Publications University of Michigan. School of Music, Theatre & Dance, 1880 Includes miscellaneous

Operas in German: A Dictionary Margaret Ross Griffel, 2018-01-23 With nearly three thousand new entries the revised edition of *Operas in German A Dictionary* is the most current encyclopedic treatment of operas written specifically to a German text from the seventeenth century through 2016 Musicologist Margaret Ross Griffel details the operas composers scores librettos first performances and bibliographic sources Four appendixes then list composers librettists authors whose works inspired or were adapted for the opera librettos and a chronological listing of the entries in the A Z section The bibliography details other dictionaries and encyclopedias performance studies collections of plot summaries general studies on operas sources on locales where opera premieres took place works on the history of operas in German and selective volumes on individual opera composers librettists producers directors and designers Finally two indexes list the main characters in each opera and the names of singers conductors producers composers directors choreographers and arrangers The revised edition of *Operas in German* provides opera historians musicologists performers and opera lovers with an invaluable resource for continued study and enjoyment School of Music Programs University of Michigan. School of

Music, 1986 The Music Sound Nicolae Sfetcu, 2014-05-07 A guide for music compositions events forms genres groups history industry instruments language live music musicians songs musicology techniques terminology theory music video Music is a human activity which involves structured and audible sounds which is used for artistic or aesthetic entertainment or ceremonial purposes The traditional or classical European aspects of music often listed are those elements given primacy in European influenced classical music melody harmony rhythm tone color timbre and form A more comprehensive list is given by stating the aspects of sound pitch timbre loudness and duration Common terms used to discuss particular pieces include melody which is a succession of notes heard as some sort of unit chord which is a simultaneity of notes heard as some sort of unit chord progression which is a succession of chords simultaneity succession harmony which is the relationship between two or more pitches counterpoint which is the simultaneity and organization of different melodies and rhythm which is the organization of the durational aspects of music *The Complete Idiot's Guide to Music History* Michael

Miller, 2008-07-01 A beautifully composed journey through music history Music history is a required course for all music students Unfortunately the typical music history book is dry and academic focusing on rote memorization of important composers and works This leads many to think that the topic is boring but bestselling author Michael Miller proves that isn't so This guide makes music history interesting and fun for both music students and older music lovers Covers more than Western classical music also includes non Western music and uniquely American forms such as jazz More than just names and dates puts musical developments in context with key historical events **Modern Music and Musicians:**

The New Music Review and Church Music Review ,1928

Modern Music and Musicians for Vocalists Louis Charles Elson,1918

Music and Modernity in Enlightenment Spain Ana P. Sánchez-Rojo,2024 By showing how music intersected with wider cultural affairs such as philosophy and criticism this book connects music and the modern in eighteenth century Spain within the context of Enlightenment thought Histories of modern Europe often present late eighteenth century Spain as a backward place struggling to keep pace with modernity During the reign of Charles III 1759 1788 Spain pushed for economic and cultural modernization but encountered resistance from members of the public and the elite alike They viewed the modern as a passing fad that would in time show its fragility and believed Spain would withstand the collapse thanks to its firm grounding in the pillars of monarchy religion and traditional forms of knowledge One source of this solid foundation was the long established musical knowledge based on the rules of counterpoint In contrast modernizers argued that Spain could be true to its essence yet simultaneously modern and cosmopolitan they favoured cosmopolitan genres such as Italian opera and artistic

expression over counterpoint rules At times this led to more creative uses of music such as reinterpreting pastoral and sentimental topics to accommodate reformist political trends Music was considered crucial to the integrity of the Spanish nation by both sides Whether and how Spain became modern would in many ways be defined and reinforced by the kinds of music that Spaniards composed and witnessed on stage Through the study of press debates opera reception and musical theatre productions this book shows how music intersected with wider cultural affairs such as philosophy and criticism medicine and the human body civilization Bourbon policy and sentimentality Music and Modernity in Enlightenment Spain for the first time connects music and the modern in eighteenth century Spain within the context of Enlightenment thought
