Navies And Arms Control:

Navies and Arms Control George H. Quester, 1980 **Security at Sea** Stockholm International Peace Research Institute, 1990 Since the Second World War five navies are known to have acquired nuclear weapons and naval forces and activities around the world have become increasingly important and dangerous However there has been no serious consideration of naval arms control for more than forty years SIPRI gathered together a group of experts from eight nations to consider the problems of naval forces and the possibilities for arms control This book is a product of that conference and it presents for the first time a broad and detailed assessment of the dangers of the naval arms race problems with arms control possible approaches confidence building measures and verification technologies **Navies and Arms Control** George H. Quester, 1980 **Superpowers at Sea** Richard W. Fieldhouse, Shunji Taoka, 1989 The arms race at sea is a dangerous nuclear race which is causing growing international concern and must be brought under control What are the hard facts about the situation This book documents the realities of the competition especially the nuclearization of naval forces and dispels some of the myths surrounding the naval arms race This incisive analysis of naval forces of the East and West concludes that contrary to common perceptions the US and its allies have a considerable military advantage over the Soviet Navy a trend which is expected to continue for the foreseeable future The authors describe in detail the widespread nuclearization of naval forces of all five nuclear navies analyse the implications for security and arms control and conclude with suggestions for possible arms control measures *Peace and Disarmament* Richard W. Fanning, Relations between China and Russia have evolved dramatically since their first diplomatic contact particularly during the twentieth century During the past decade China and Russia have made efforts to strengthen bilateral ties and improve cooperation on a number of diplomatic fronts The People's Republic of China and the Russian Federation maintain exceptionally close and friendly relations strong geopolitical and regional cooperation and significant levels of trade In *The Future of China Russia Relations* scholars from around the world explore the current state of the relationship between the two powers and assess the prospects for future cooperation and possible tensions in the new century The contributors examine Russian and Chinese perspectives on a wide range of issues including security political relationships economic interactions and defense ties This collection explores the energy courtship between the two nations and analyzes their interests and policies regarding Central Asia the Korean Peninsula and Taiwan Arms Control At Sea J Richard Hill, 2024-04-01 Originally published in 1989 this book reviews the history of maritime control measures from before the First World War and provides a critical examination of both the objectives of maritime power and the concepts of disarmament peace zones parity verifiability and peaceful coexistence It argues that the objectives of maritime power are not necessarily incompatible with international security and that strategic deterrence can contribute to improved security Limitation measures it is argued can in some cases be double edged endangering other security fields and having a destabilizing effect The book stresses the need for non absolute

solutions in order to achieve a reasonable level of security and makes proposals for both structural and confidence building measures along those lines

Naval Arms Control Ronald G. Purver, Canadian Institute for International Peace and Security, 1991 One area virtually untouched by recent progress in arms control is that of naval arms This document examines why naval forces have largely escaped constraints It discusses the record of past attempts at naval arms control and why progress has been so slow It looks at the prospects for future negotiated measures and whether some areas of naval arms control hold more promise than others

Europe and Naval Arms Control in the Gorbachev Era Andreas Fürst, Volker Heise, Steven E. Miller, 1992 For most of the Cold War naval arms control was the forgotten dimension of arms control Beginning in the late 1980s however it has become increasingly prominent in the East West dialogue But it is usually studied from the perspective of Soviet American relations This book examines the subject from a European perspective What role might naval arms control play in the European context What impact might naval arms control have on the interests and perceptions of European states What opportunities for and obstacles to naval arms control exist in Europe The authors address these questions describing the naval interests and attitudes towards naval arms control of European coastal states as well as the Soviet Union and the United States in the Norwegian Baltic and Mediterranean seas

Ways Out Of The Arms Race: From The Nuclear Threat To Mutual Security - Proceedings Of The Second International Scientists' Congress Tom Kibble, John F Hassard, Patricia Lewis, 1989-11-01 This congress gathers together scientists from all over the world to analyse the problems of and possible solutions to the arms race Speakers A Arbatov E Ash V Baranovsky P De k H P D rr S Elworthy R Ennals R Fieldhouse R Forsberg V Gamba Stonehouse R Garwin V Goldanskii F Heisbourg F von Hippel D Hodgkin S Kapitza T Kibble A Lecocq P Lewis S Lunn R McNamara S Oznobishev J Pike R Rilling J Rotblat R Sagdeev M Schmidt J Sharp P Smoker P Starlinger J A Stein K Subrahmanyam T Taylor M B Theorin J Thompson R Trapp C Vo te

Arvid Pardo

British and American Naval Power Phillips O'Brien, 1998-04-23 U S and British naval power developed in quite different ways in the early 20th century before the Second World War This study compares contrasts and evaluates both British and American naval power as well as the politics that led to the development of each Naval power was the single greatest manifestation of national power for both countries Their armies were small and their air forces only existed for part of the period covered For Great Britain naval power was vital to her very existence and for the U S naval power was far and away the most effective tool the country could use to exercise armed influence around the world Therefore the decisions made about the relative strengths of the two navies were in many ways the most important strategic choices the British and American governments ever made An important book for military historians and those interested in the exercise and the extension of power
