for their very existence and to seek answers in Death Cults and frightening new experiments in genetic manipulation Vividly imagined episodic in structure *The Golden Space* is a profound and disturbing meditation on humanity's desire for immortality from one of the genre's best writers *The Washington Post* *War of Two Worlds* Poul Anderson, 2013-07-25 The twenty year Earth Mars war was finally over What was left of Earth its crumbled cities its ruined farmlands were firmly and completely under the rule of the Martian Archon And this powerful planetary ruler was taking no chances he intended to reduce the Terrans to a society of primitive agricultural tribes in less than a generation But for David Arnfeld ex spaceman and Earth Base Commander there was something in the whole set up which did not ring true Why had both sides missed countless chances to end that awful war in the first year or two And why had the two planets gone to war in the first place In the back of Arnfeld's mind an idea was growing perhaps there was yet a chance to save the doomed population of Earth But if his idea was true and proof was available he had to work fast Too many people were involved in this War of the Two Worlds to let one man upset their plans *Nebula Award Stories 3 Science Fiction* NEBULA, 1970 *Ender's Game* Orson Scott Card, 2013-01-01 Winner of the Hugo and Nebula Awards In order to develop a secure defense against a hostile alien race's next attack government agencies breed child geniuses and train them as soldiers A brilliant young boy Andrew Ender Wiggin lives with his kind but distant parents his sadistic brother Peter and the person he loves more than anyone else his sister Valentine Peter and Valentine were candidates for the soldier training program but didn't make the cut young Ender is the Wiggin drafted to the orbiting Battle School for rigorous military training Ender's skills make him a leader in school and respected in the Battle Room where children play at mock battles in zero gravity Yet growing up in an artificial community of young soldiers Ender suffers greatly from isolation rivalry from his peers pressure from the adult teachers and an unsettling fear of the alien invaders His psychological battles include loneliness fear that he is becoming like the cruel brother he remembers and fanning the flames of devotion to his beloved sister Is Ender the general Earth needs But Ender is not the only result of the genetic experiments The war with the Buggers has been raging for a hundred years and the quest for the perfect general has been underway for almost as long Ender's two older siblings are every bit as unusual as he is but in very different ways Between the three of them lie the abilities to remake a world If that is the world survives Ender's Game is the winner of the 1985 Nebula Award for Best Novel and the 1986 Hugo Award for Best Novel *Ender's Game* Orson Scott Card, 2015 Earth has twice been attacked by aliens and has launched an invasion fleet of its own Young Andrew Ender Wiggin is the result of a genetic experiment whose skill at computer war games may be the genius that is needed to save Earth *Manseed* Jack Williamson, 1982 The Raven Foundation seeks to perpetuate the human race by sending thousands of tiny seedships into space Each ship can produce a half human half robot Defender as needed to guide the mission
