Colonial Odysseys David Adams, 2018-08-06 Works such as Joseph Conrad's *Heart of Darkness* and Lord Jim Virginia Woolf's *The Voyage Out* E M Forster's *A Passage to India* and Evelyn Waugh's *A Handful of Dust* explore the relationship between Britain and its colonies when the British Empire was at its height David Adams observes that because of their structure and specific literary allusions they also demand to be read in relation to the epic tradition The elegantly written and powerfully argued *Colonial Odysseys* focuses on narratives published in English between 1890 and 1940 in which protagonists journey from the familiar world of Europe to alien colonial worlds The underlying concerns of these narratives Adams discovers are often less political or literary than metaphysical in each of these fictions a major character dies as a result of the journey inviting reflection on the negation of existence Repeatedly imaginative encounters with distant uncanny colonies produce familiar insular presentations of life as an odyssey with death as the home port Expanding postcolonial and Marxist theories by drawing on the philosophy of Hans Blumenberg Adams finds in this preoccupation with mortality a symptom of the failure of secular culture to give meaning to death This concern

in his view shapes the ways modernist narratives reinforce or critique imperial culture the authors project onto British imperial experience their anxieties about the individual's relation to the absolute Virginia Woolf and the Natural World

The Labors of Modernism Mary Wilson,2016-12-05 In *The Labors of Modernism* Mary Wilson analyzes the unrecognized role of domestic servants in the experimental forms and narratives of Modernist fiction by Virginia Woolf Gertrude Stein Nella Larsen and Jean Rhys Examining issues of class gender and race in a transatlantic Modernist context Wilson brings attention to the place where servants enter literature the threshold In tracking their movements across the architectural borders separating indoors and outdoors and across the physical doorways between rooms Wilson illuminates the ways in which the servants who open doors symbolize larger social limits and exclusions as well as states of consciousness The relationship between female servants and their female employers is of particular importance in the work of female authors for whom the home and the novel are especially interconnected sites of authorization and domestication Modernist fiction Wilson shows uses domestic service to tame and interrogate not only issues of class but also the overlapping distinctions of racial and ethnic identities As Woolf Stein Larsen and Rhys use the novel to interrogate the limitations of gendered domestic ideologies they find they must deploy these same ideologies to manage the servant characters whose labor maintains the domestic spaces they find limiting Thus the position of servants in these texts forces the reader to recognize servants not just as characters but as conditions for the production of literature and of the homes in which literature is created
