publications about such writing. It includes suggested guidelines for evaluating a work in terms of its direct and indirect treatment of such issues as race, gender, class, ability, age, sexuality, and sexual orientation. The book also offers specific guidance for determining the appropriate readership for a work with regard to age and gender. Unusually extensive annotations. The main body of the book is an annotated bibliography alphabetical by author with the works arranged chronologically by publication date. The annotations are much more extensive than those in other bibliographies. Each annotation reads more like a full length book review and is from one to two pages long and explores themes, plot, and character development, evaluates the quality of the writing, judges the handling of issues of race, class, and gender, and provides a readership recommendation. Written in accessible language, this user friendly book presents a wide range of factual information, evaluations, and analyses. It is a valuable tool for all teachers, librarians, counselors, and young adults.
