Peoples Of Southern Africa:

The Bantu-speaking Peoples of Southern Africa W. D. Hammond-Tooke, 1974 *The Peoples of Southern Africa and Their Affinities* George T. Nurse, Joseph Sidney Weiner, Trefor Jenkins, 1985 The main objective of this book is to describe the various peoples of Southern Africa and their biological settings It describes the racial admixture of a variety of traits in a range of contrasting ecosystems assesses the biological and technological accommodations both early and present man have had to make to the area and predicts the effects of present day industrialization on the ecology of Southern Africa

South Africa's Diverse Peoples Sally Frankental, Owen Ben Sichone, 2005-12-13 This authoritative work examines 500 years of interaction between the races in a country that during the apartheid era became a byword for racial disharmony Nelson Mandela's release from prison in February 1990 was the defining moment in South Africa's transition from apartheid to democracy But as this fascinating study shows the racial history of South Africa is much more complex than a simple struggle between black and white How did South Africa become a crossroads for peoples as diverse as the Zulu the Xhosa the Dutch and the Chinese Did the end of apartheid really herald a new dawn in race relations or have the scars of those years yet to truly heal To answer these questions this timely volume examines South Africa's ethnic history over 500 years From the earliest contacts between Europeans and Africans to the country's changing role in the post apartheid era this reference work traces the fascinating racial history of South Africa before during and after the apartheid years
