Red Brotherhood At War Indochina Since The Fall Of Saigon:

Red Brotherhood at War Grant Evans, Kelvin Rowley, 1984-01 *Harvest Of Fear* John Murphy, 2019-03-13 How did fears of the Cold War shape Australian images of Asia What was the nature of the Vietnamese revolution which some 50 000 Australian troops failed to reverse in the 1960s How did a small and marginal peace movement grow into the powerful Moratorium and did it have any impact on the course of the War Harvest of Fear is a beautifully crafted *Walking the Tightrope* J  r van der Lijn, 2006 The media generally tend to focus in particular on the failures of U N peacekeeping operations In *Walking the Tightrope* J  r Van Der Lijn draws a different conclusion He argues once a peace agreement has been signed the efforts of the U N peacekeeping operations do contribute to durable peace By analyzing the U N peacekeeping operations in Cambodia Mozambique Rwanda and El Salvador in a structured focused comparison this book shows how U N operations do have a contribution to make **The Chinese/Vietnamese Diaspora** Yuk Wah Chan, 2012-06-12 Over three decades have passed since the first wave of Indochinese refugees left their homelands These refugees mainly the Vietnamese fled from war and strife in search of a better life elsewhere By investigating the Vietnamese diaspora in Asia this book sheds new light on the Asian refugee era 1975 1991 refugee settlement and different patterns of host guest interactions that will have implications for refugee studies elsewhere The book provides a clearer historical understanding of the group dynamics among refugees the ethnic Chinese Vietnamese refugees from both the North and South as well as the northern Vietnamese refugees an examination of different aspects of migration including planning for migration choices of migration route and reasons for migration an analysis of the ethnic and refugee politics during the refugee era the settlement and subsequent resettlement This book will be of interest to students and scholars of globalization migration ethnicities refugee histories and politics *Political Oppositions in Industrialising Asia* Garry Rodan, 2013-04-15 Industrialization has meant sweeping social transformations across Asia Some political commentators have predicted that the expansion of civil society and the rapid development of liberal democracy will necessarily follow The contributors to this volume dissect the extent of political opposition in Asia and analyze the nature of new social movements outside institutional party politics which are contesting the exercise of state power Nine original case studies explore the variety of political oppositions across Asia from non governmental organizations and the formal opponents of the PAP in Singapore to Chinese dissidents based outside the People s Republic of China All take up the challenge of looking at political opposition in the light of the new social phenomenon of the rising middle class or new rich of Asia Garry Rodan s hard hitting analysis of the problems of current political theorizing in relation to Asia sets the case studies firmly in the context of wider debates about democratization *Political Oppositions in Industrialising Asia* shatters complacent assumptions about the progress of liberal democracy **Fields of Desire** Holly High, 2014-02-17 In this important new book High argues that poverty reduction policies are formulated and implemented in fields of desire Drawing on psychoanalytic understandings of desire she shows

that such programs circulate around the question of what is lacking Far from rational responses to measures of need then the politics of poverty are unconscious culturally expressed mutually contradictory and sometimes contrary to self interest Based on long term fieldwork in a Lao village that has been the subject of multiple poverty reduction and development programs High s account looks at implementation on the ground While these efforts were laudable in their aims of reducing poverty they often failed to achieve their objectives Local people received them with suspicion and disillusionment Nevertheless poverty reduction policies continued to be renewed by planners and even desired locally High relates this to the force of aspirations among rural Lao ambivalent understandings of power and the post rebellious moment in contemporary Laos

Society in Contemporary Laos Boike Rehbein, 2017-04-21 Over the past decade Laos exposure to global capitalism has resulted in extensive economic and social transformations Precapitalist social structures both persist and are transformed into a particular configuration of classes This entails increasing social inequality a widening range of habitus and new forms of ethos This book pursues the theoretical aim of shedding light on the old question raised by Max Weber about the relation between capitalism ethos and society The empirical study consists of a description of the social structures their embodiment in the habitus and world views in Laos against the background of a critical revision of Pierre Bourdieu s sociology To achieve these aims the author develops a qualitative methodology as neither Weber nor Bourdieu explained how to empirically study habitus and ethos The empirical material for the book was gathered over a period of more than five years and comprises several hundred life course interviews in all sections of Lao society as well as a representative quantitative survey The author argues that precapitalist social structures persist and continue to shape the social fabric of contemporary Laos At the same time they are transformed by global and local capitalism The book shows how the hierarchies contained in each structure shape the habitus of the Lao population and how these in turn influence the development of a capitalist and a religious ethos The argument makes use of Pierre Bourdieu s sociology and adapts it to the setting of Laos by introducing new as well as indigenous concepts While social structure habitus and beliefs are subject to a capitalist transformation and unification the newly emerging classes and milieus are not copies of Western forms but retain their local history Filling a gap in the literature on Laos and offering new perspectives on core concepts such as habitus class lifestyle work ethic and its religious underpinnings this book will be of interest to academics in the fields of Sociology Religious Studies and Southeast Asian Studies

Bilateral Legacies in East and Southeast Asia N Ganesan, 2016-04-29 This edited volume examines the concept of overhangs or legacies or negative stereotypical images in international relations and their impact on bilateral relations between geographically proximate states in East Asia The case studies chosen Japan Korea Japan China Vietnam China Thailand Myanmar and Thailand Cambodia demonstrate conclusively that bilateral overhangs or legacies have a significant impact on contemporary international relations Such images are regularly replicated and stoked by a variety of constituencies including state agencies for their own selfish interests The evidence also points to the fact that such bilateral

relationships are relatively self contained and often operate with their own dynamics Powerful condensation symbols are appropriated to weave a story of the virtuous self and the stereotypical other This negative image and its replication is important to an understanding of turbulent bilateral relations in East Asia and also helps to inform how such relations can be brought to an even keel

Wealth and Justice Peter Wehner, Arthur C. Brooks, 2010-10-16 Popular opinion would have us believe that America's free market system is driven by greed and materialism resulting in gross inequalities of wealth destruction of the environment and other social ills Even proponents of capitalism often refer to the free market as simply a lesser evil whose faults are preferable to those of social democracy or communism But what if the conventional understanding of capitalism as corrupt and unprincipled is wrong What if the free market economy actually reinforces Christian values In *Wealth and Justice: The Morality of Democratic Capitalism* Arthur C Brooks and Peter Wehner explore how America's system of democratic capitalism both depends upon and cultivates an intricate social web of families churches and communities Far from oppressing and depriving individuals the free market system uniquely enables Americans to exercise vocation and experience the dignity of self sufficiency all while contributing to the common good The fruits of this system include the alleviation of poverty better health and greater access to education than at any other time in human history but also a more significant prosperity the flourishing of the human soul

Indochina policy and the historical domestic and international contexts within which it developed In examining China's conduct toward Vietnam Zhai provides important insights into Mao Zedong's foreign policy and the ideological and geopolitical motives behind it Throughout the 1950s and 1960s he shows Mao considered the United States the primary threat to the security of the recent Communist victory in China and therefore saw support for Ho Chi Minh as a good way to weaken American influence in Southeast Asia In the late 1960s and 1970s however when Mao perceived a greater threat from the Soviet Union he began to adjust his policies and encourage the North Vietnamese to accept a peace agreement with the United States *The Sino-Vietnamese Approach to Managing Boundary Disputes* Ramses Amer,2002 *Postwar Vietnam* David Marr,Christine P.
