War as Risk Management Yee-Kuang Heng,2006-04-18

This major new study shows how war can be thought of in terms of proactive risk management rather than in terms of conventional threat response It addresses why the study of risk management has helped fields such as sociology and criminology conceptualize new policy challenges but has made limited impact on Strategic Studies with new case studies of recent Anglo American military campaigns in Kosovo Afghanistan and Iraq The author shows how risk is now a key defining feature of our globalized era encompassing issues from global financial meltdown terrorism infectious diseases to environmental degradation and how its vocabulary such as the Precautionary Principle now permeates the way we think about war and how it now appears in US and UK defence policy documents and speeches from both civilian and military staff This book will be of great interest to all students and scholars of strategic studies war studies international relations and globalization

Risk Regulation in the Single Market Sebastian Krapohl,2008-10-31 This book demonstrates how the Thalidomide catastrophe of the 1960s and the BSE crisis of the 1990s led to regulatory regimes for pharmaceuticals and foodstuffs in Europe However the developmental paths of these regimes differ and so does the efficiency and legitimacy of regulatory policy making

Alston,David Zilberman,2006-12-26 This book presents the first thorough economic analysis of current agricultural biotechnology regulation The contributors most of whom are agricultural economists working either in universities or NGOs address issues such as commercial pesticides the costs of approving new products liability benefits consumer acceptance regulation and its impacts transgenic crops social welfare implications and biosafety

EnvOping Fady J. Rahmé,2013-05 The operating environment is changing faster than ever before and is threatening business survival Regulators and Public opinion have become major stakeholders for an increasing number of industries The 21st century will be the Time of Regulators and ever greater change within corporations What appears to be a particular challenge for highly regulated firms Tobacco Pharmaceutical Petroleum and Telecom will be in a very near future a major issue for most companies The business leaders feel it and rank this change as the number one threat to their business They seek a solution This book offers one under the name of EnvOping or managing the interaction with the Operating Environment of Corporations It is a new approach of Corporate Affairs and Communication CA C that moves this department from a marginal consulting role to a core function at the heart of the corporation s management from a technique to a science that can be taught in universities The book is a mixture of theories and live examples taken from the author s 30 years of professional experience and provides the tools to structure the role of the EnvOping manager It allows managers to look to the future and the coming changes with more confidence

Drug Safety Nigel S. B. Rawson,2016-11-08 With Big Pharma garnering an increasing number of negative headlines due to reports of adverse drug reactions and a surge in prescription drug addiction and overdose deaths many

people are increasingly skeptical about the safety of modern pharmaceuticals and the moral integrity of the pharmaceutical industry. This book was written to provide a balanced perspective on drug safety risks. No therapeutic prescription drug is entirely risk free. Before receiving marketing approval, new drugs go through arduous and expensive testing processes that can take up to a decade and cost over two billion dollars. While not perfect, the process is far from a Wild West environment where big pharmaceutical companies ride roughshod over government regulators. However, author and pharmacoepidemiologist Nigel Rawson argues the antipathy that is common between governments, pharmaceutical industry and academic experts in Canada needs to change to an environment of collaboration and partnership to enhance our ability to respond in a timely fashion to future pharmaceutical crises. While directed mainly at students in the health sciences and pharmaceutical professionals, this book will be of interest to anyone including lay people and policy makers who would like to know more about the evolution of the prescription drug evaluation and risk assessment process. Although the book focuses primarily on Canada, it makes comparisons with the United States and Europe and several of the author's recommendations for how to improve the prescription drug evaluation process are applicable worldwide.

EnvOping, Interagir avec l'Environnement Opérationnel au Temps des Régulateurs Fady J. Rahm, 2013. Le XXI^e siècle sera le temps des régulateurs et des environnements opérationnels en évolution continue. Régulateurs et opinions publiques deviennent des interlocuteurs essentiels de l'entreprise avec tout ce que cela implique comme opportunités mais aussi comme risques. Dès lors, ses dirigeants considèrent ces derniers comme leur préoccupation majeure des années venant. Ce livre propose une réponse à cette inquiétude en établissant les fondements théoriques et pratiques d'une fonction clé au cœur de l'entreprise : l'EnvOping ou l'Interaction avec l'Environnement Opérationnel. C'est une nouvelle approche des fonctions de Corporate Affairs, Communications, CA C qui va permettre de mieux gérer les risques de réputation et de régulation et faire progresser les CA C d'un simple savoir-faire à une science avec son cursus universitaire. Il établit les 5 piliers de la gestion de l'interaction avec l'Environnement Opérationnel : l'EnvOp et ses multiples acteurs pour fonder un métier nouveau : l'EnvOping Manager. Mêle de théorie et d'exemples pratiques tirés de la vie des entreprises, il fournit les outils qui permettent de créer ou de développer cette fonction au cœur des entreprises modernes.

Forecasting, Warning and Responding to Transnational Risks C. Meyer, 2011-07-26. Assembling a high profile group of scholars and practitioners, this book investigates the interplay of forecasting, warnings, and responses to known and unknown transnational risks. It challenges conventional accounts of failures of warning and preventive policy in both the academic literature and public debate.

Une économie plus dynamique dans un Canada fort et prospère Mike Harris, Preston Manning, Fraser Institute (Vancouver, B.C.), Institut économique de Montréal, 2006. Des dépenses publiques et une imposition excessives restreignent la liberté économique des individus et des entreprises en réduisant leur revenu et en transférant le pouvoir de décisions économiques dans les mains de politiciens et de fonctionnaires.

Risk Evaluation and Management V.T. Covello, Joshua Menkes, J.L.

Mumpower,2012-12-06 Public attention has focused in recent years on an array of technological risks to health safety and the environment At the same time responsibilities for technological risk assessment evaluation and management have grown in both the public and private sectors because of a perceived need to anticipate prevent or reduce the risks inherent in modern society In attempting to meet these responsibilities legislative judicial regulatory and private sector institutions have had to deal with the extraordinarily complex problems of assessing and balancing risks costs and benefits The need to help society cope with technological risks has given rise to a new intellectual endeavor the social and behavioral study of issues in risk evaluation and risk management The scope and complexity of these analyses require a high degree of cooperative effort on the part of specialists from many fields Analyzing social and behavioral issues requires the efforts of political scientists sociologists decision analysts management scientists economists psychologists philosophers and policy analysts among others
