Sahel The End Of The Road:

Sahel Sebastião Salgado, Orville Schell, 2004 The award winning photographs of the drought stricken Sahel region of Africa have documented the suffering and dignity of the refugees giving a visual voice to millions of human beings who teeter on the edge of survival *Sahel* Sebastian Salgado, 1990-05-01 **The Political Responsibilities of Everyday**

Bystanders Stephen L. Esquith, 2011-02-28 In a world where every person is exposed daily through the mass media to images of violence and suffering as most dramatically exemplified in recent years by the ongoing tragedy in Darfur the question naturally arises What responsibilities do we as bystanders to such social injustice bear in holding accountable those who have created the conditions for this suffering And what is our own complicity in the continuance of such violence it involves settling accounts as well as recognizing our own complicity even as bystanders **Silencing the Guns, Volume 2**

Shall Bear Witness Meg Jensen, Margaretta Jolly, 2014-08-26 An international array of human rights advocates scholars and survivor writers examine the profound and complex impact of personal testimony about human rights abuses as expressed through autobiography documentary film report oral history blog and verbatim theater **The Edge of the Plain** James

Crawford, 2023-01-10 A wide ranging journey through the history of borders and an exploration of their role in shaping our world today Since the earliest known marker denoting the edge of one land and the beginning of the next a stone column inscribed with Sumerian cuneiform borders have been imagined mapped moved and fought over In The Edge of the Plain James Crawford skillfully blends history travel writing and reportage to trace these borderlines throughout history and across the globe What happens on the ground when we impose lines on a map that contradict how humans have always lived and moved Crawford confronts that question from bloody territorial disputes in Mesopotamia to the S pmi lands of Scandinavia the shifting boundaries of the Israel Palestine conflict efforts to build a wall on the United States Mexico border and the

dangerous border crossings pursued by migrants into Europe And yet the role of borders extends beyond specific sites of conflict On the largest scale borders define the limits of empire the two walls in Britain that once represented the northwestern edge of the Roman Empire the mythological eastern gate supposedly closed off by Alexander the Great China's virtual Great Firewall On the smallest human scale cell walls are the last physical barrier against disease after lines of quarantine have failed Finally as *The Edge of the Plain* reveals humans have not only made their mark on the landscape the landscape itself is now changing more and more rapidly due to climate change Crawford introduces us to both the Alpine watershed one such shifting natural borderline and the Great Green Wall in Africa envisioned as an international community built bulwark against desertification Borders are as old as human civilization and focal points for today's colliding forces of nationalism climate change globalization and mass migration *The Edge of the Plain* illuminates these lines of separation past and present how we define them and how they define us Understanding Photojournalism Jennifer Good, Paul

Lowe, 2020-09-23 *Understanding Photojournalism* explores the interface between theory and practice at the heart of photojournalism mapping out the critical questions that photojournalists and picture editors consider in their daily practice and placing these in context Outlining the history and theory of photojournalism this textbook explains its historical and contemporary development who creates selects and circulates images and the ethics aesthetics and politics of the practice Carefully chosen international case studies represent a cross section of key photographers practices and periods within photojournalism enabling students to understand the central questions and critical concepts Illustrated with a range of photographs and case material including interviews with contemporary photojournalists this book is essential reading for students taking university and college courses on photography within a wide range of disciplines and includes an annotated guide to further reading and a glossary of terms to further expand your studies **Vulnerability and Security in Human**

Rights Literature and Visual Culture Alexandra Schultheis Moore, 2015-10-23 This book responds to the failures of human rights the way its institutions and norms reproduce geopolitical imbalances and social exclusions through an analysis of how literary and visual culture can make visible human rights claims that are foreclosed in official discourses Moore draws on theories of vulnerability precarity and dispossession to argue for the necessity of recognizing the embodied and material contexts of human rights subjects At the same time she demonstrates how these theories run the risk of reproducing the structural imbalances that lie at the core of critiques of human rights Pairing conventional human rights genres legal instruments human rights reports reportage and humanitarian campaigns with literary and visual culture Moore develops a transnational feminist reading praxis of five sites of rights and their violation over the past fifty years UN human rights instruments and child soldiers in Nigerian literature human rights reporting and novels that address state sponsored ethnocide in Zimbabwe the international humanitarian campaigns and disaster capitalism in fiction of Bhopal India the work of M decins Sans Fronti res in the Sahel Afghanistan Democratic Republic of Congo and Burma as represented in various

media campaigns and in photo graphic narratives and finally the human rights campaigns fiction and film that have brought Indonesia s history of anti leftist violence into contemporary public debate These case studies underscore how human rights norms are always subject to conditions of imaginative representation and how literature and visual culture participate in that cultural imaginary Expanding feminist theories of embodied and imposed vulnerability Moore demonstrates the importance of situating human rights violations not only in the context of neo liberal development policies but also in relation to the growth of security networks that serve the nation state often at the expense of the security of specific subjects and populations In place of conventional victims and agents the intersection of vulnerability and human rights opens up readings of human rights claims and suffering that are at once embodied and shareable yet which run the risk of cooptation by security rhetoric

World and Its Peoples Marshall Cavendish,2006-09 Describes the geography people culture and politics of the countries of the Middle East Central Asia and North Africa

Artistic Creation and Ethical Criticism Ted Nannicelli,2020 Artistic Creation and Ethical Criticism investigates an idea that underpins the ethical criticism of art but is rarely acknowledged and poorly understood namely that the ethical criticism of art involves judgments not only of the attitudes a work endorses or solicits but of what artists do to create the work The book pioneers an innovative production oriented approach to the study of the ethical criticism of art one that will provide a refined philosophical account of this important topic as well as conceptual tools that can guide future philosophizing and criticism
