Fighting Words Hector Avalos, Is religion inherently violent If not what provokes violence in the name of religion Do we mischaracterize religion by focusing too much on its violent side In this intriguing original study of religious violence Prof Hector Avalos offers a new theory for the role of religion in violent conflicts Starting with the premise that most violence is the result of real or perceived scarce resources Avalos persuasively argues that religion creates new scarcities on the basis of unverifiable or illusory criteria Through a careful analysis of the fundamental texts of Judaism Christianity Islam and Hinduism Dr Avalos explains how four scarce resources have figured repeatedly in creating religious violence sacred space e g the perception by three world religions that Jerusalem is sacred the creation of holy scriptures believed to be privileged

revelations of God's will group privilege stemming from such beliefs as a chosen people or predestination which also creates a group of outsiders and salvation by which concept some are accepted and others rejected Thus Avalos shows religious violence is often the most unnecessary violence of all since the scarce resources over which religious conflicts ensue are not actually scarce or need not be scarce Comparing violence in religious and nonreligious contexts Avalos makes the compelling argument that if we condemn violence caused by scarce resources as morally objectionable then we must consider even more objectionable violence provoked by alleged scarcities that cannot be proven to exist He also examines the Nazi Holocaust and the Stalinist Terror which have been attributed to the pernicious effects of atheism or secular humanism By contrast Avalos pinpoints underlying religious factors as the cause of these horrific instances of genocidal violence This serious philosophical examination of the roots of religious violence adds much to our understanding of a perennial source of widespread human suffering Hector Avalos Ames IA is associate professor of Religious Studies at Iowa State University the author of five books on biblical studies and religion the former editor of the Journal for the Critical Study of Religion and executive director of the Committee for the Scientific Examination of Religion Praying for America Dr. Robert Jeffress, 2020-06-02 Discover how to pray powerful prayers for God to bless and unite America in this inspiring guide from the Senior Pastor of First Baptist Church The most patriotic thing you can do for America is pray for America In times of division and disaster our country has a long history of turning to God Robert Jeffress the senior pastor of a 14 000 member church in Dallas Texas and a Fox News contributor believes it should be no different today When we seek God's help and pray about the issues that affect our lives writes Jeffress we influence the fate of our families our churches and our nation It has happened before in history and it can happen again Each chapter of this uplifting book includes an inspiring story demonstrating the power of faith in the life of our nation a prayer and a relevant passage of Scripture to inspire and encourage you in praying intently for our country In these increasingly divided times Praying for America will serve as a very necessary and timely reminder that In God we trust
