Pryor,2016-12-05 How were the Crusades made possible There have been studies of ancient medieval and early modern warfare as well as work on the finances and planning of Crusades but this volume is the first specifically to address the logistics of Crusading Building on previous work it brings together experts from the fields of medieval Western Byzantine and Middle Eastern studies to examine how the marches and voyages were actually made Questions of manpower types and means of transportation by land and sea supplies financial resources roads and natural land routes sea lanes and natural sailing routes all these topics and more are covered here Of particular importance is the attention given to the horses and other animals on which transport of supplies and the movement of armies depended **Raymond II. of Tripoli and Renaud of Sidon** George Frederick Theodore Mayer,1925 *Joscelyn III and the Fall of the Crusader States, 1134-1199* Robert Lawrence Nicholson,2023-12-14 Saladin: Sultan of the Holy Sword Kathrine Sorley Walker,1971 Historical Dictionary of the Crusades Corliss K. Slack,2013-05-09 The crusades were among the longest and most bitter wars in human history and consisted of no less than seven major expeditions from Western Europe from the late 11th to the early 14th centuries for the purpose of wresting Jerusalem and the Holy Land from the control of the Muslims In the end it was the Muslims who won and the Christians who suffered a major setback and the Middle East remained firmly in Muslim hands This was one of the worst clashes between different religions and civilizations and for long it was largely forgotten or brushed over That is no longer the case with many Muslims regarding Western interference in the region as a repeat of the crusades while launching their own jihads So while an old conflict it is still with us today Even at the time it was very hard to understand the causes and outcome of the crusades and that remains a problem today This Historical Dictionary of the Crusades cannot claim to have resolved it but it most definitely does make the situation easier to understand The introduction provides an overview tracing the crusades from one expedition to the next and assessing their impact The actual flow of events is far easier to follow thanks to the chronology And maps help to trace the events geographically The entries and there are more than 300 of them in this second edition look more closely at notable figures including Pope Gregory VII Richard the lionhearted and Saladin as well as important places Jerusalem Constantinople and others events battles and sieges as well as the use of weapons and armor The bibliography points to further reading **The Library of the Palestine Pilgrims' Text Society: Life of**

Cohen, 2000-04-21 An increased awareness of the importance of minority and subjugated voices to the histories and narratives which have previously excluded them has led to a wide spread interest in the effects of colonization and displacement This collection of essays is the first to apply post colonial theory to the Middle Ages and to critique that theory through the excavation of a distant past The essays examine the establishment of colony empire and nationalism in order to expose the mechanisms of oppression through which aboriginal native or simply pre existent cultures are displaced eradicated or transformed **War and Combat, 1150-1270** Catherine Hanley, 2003 An investigation of the depiction of warfare in contemporary writings in both fictional narratives and factual accounts [The New Cambridge Medieval History: Volume 4, C.1024-c.1198, Part 2](#) Rosamond McKitterick, David Abulafia, C. T. Allmand, 1995 The fourth volume of The New Cambridge Medieval History covers the eleventh and twelfth centuries which comprised perhaps the most dynamic period in the European middle ages This is a history of Europe but the continent is interpreted widely to include the Near East and North Africa The volume is divided into two parts of which this the second deals with the course of events ecclesiastical and secular and major developments in an age marked by the transformation of the position of the papacy in a process fuelled by a radical reformation of the church the decline of the western and eastern empires the rise of western kingdoms and Italian elites and the development of governmental structures the beginnings of the recovery of Spain from the Moors and the establishment of western settlements in the eastern Mediterranean region in the wake of the crusades
