[Making Schools Work](#) Kathy Hirsh-Pasek, Roberta Michnick Golinkoff, Kimberly Nesbitt, Carol Lautenbach, Elias Blinkoff, Ginger Fifer, 2022. If we teach in the way that human brains learn, both students and their teachers will thrive. This book aligns evidence from the learning sciences on how and what students need to learn with classroom practice, pre-K to 12. It demonstrates with hands-on examples how a change in educational mindset rather than in curriculum can improve student outcomes on both standardized tests and a breadth of 21st-century skills. Written collectively by classroom teachers, administrators, parents, and learning scientists, this book shows readers how to co-construct and reimagine an optimal educational system. Making Schools Work offers three case studies of schools including a statewide system that are all realizing a 6 Cs approach to learning focused on collaboration, communication, content, critical thinking, creative innovation, and confidence. The text documents the ever-evolving implementation process as well as outcomes and the ongoing work of stakeholders. Readers can use this resource to create an education for all children that is culturally responsive, inclusive, effective, and fun. **Book Features** Helps educators teach in the way that human minds learn.
